

patiently and with dignity, if they strove to lift themselves up the United States undoubtedly would set them free. They believed us. Their faith is unshaken today. To destroy their hopes would be immoral, illogical, inhuman and a blunder that history one day inevitably would put right. ²⁸

INDEPENDENCE MEANS COMPLETE SEVERANCE OF TIES WITH U.S.? YES!

According to Col. Henry L. Stimson (who became Governor-General of the Philippines, 1938-1939 - ABS), our connection with America, once ended, would be ended forever.

That is exactly what the people of the Philippines expect, allegations to the contrary notwithstanding. Our demand for immediate, absolute and complete independence means that we are prepared to assume all the burdens and responsibilities, all the attendant risks of independence and national existence. When the consummation of that happy event shall have come, we shall treasure in our hearts a feeling of gratitude toward the American people for having given us the greatest boon that one country may expect from another - the priceless boon of independence. ²⁹

MLQ HURLS CHALLENGE TO U.S. TO GRANT PHILIPPINE INDEPENDENCE

I say this without hesitation: the Filipino people have arrived at that state of civilization where they have established a government under which people can live peacefully and improve themselves materially; and if anyone doubts that word, I challenge him.

I challenge him to let the government of the United States grant Philippine independence tomorrow and we will show you what kind of a government we can establish. Unfortunately that is the only way we can prove to you this fact. You know that old saying, "You cannot prove that you know how to swim unless you are swimming." How can we prove that we know how to govern ourselves unless we are really allowed to govern ourselves?

In my opinion that is the most immediate problem that the American people have to face, to establish in the Philippines such a government where the responsibility and power may be located in either the American governor or in the Filipino people, and after you have done that you ought to take the next step - grant Philippine independence. ³⁰

AFTER 30 YEARS, P.I. INDEPENDENCE STILL A DREAM, BEWAILS QUEZON

There seems to be very little realization in this country (U.S.) of the fact that the United States has now been in the Philippines for a period of thirty years. And that, although on the very first day of American occupation President

McKinley announced it to be the policy of this country to grant the Filipino people their independence - a policy reaffirmed and reiterated by Roosevelt, Taft, Wilson, and confirmed in the Act of Congress of 1916, we are no nearer now to the execution of that announced policy than we were when first announced.

So it is high time that thoughtful Americans should pause and take notice of this fact if the performance of their government were to harmonize with its commitments. ³¹

PHILIPPINE PROBLEM IS A HUMAN PROBLEM, SAYS QUEZON

I am going to tell you that the Filipinos are ordinary human beings, with the vices and the virtues of human beings. That is why I say that the Philippine problem is a human problem. We are dealing with human beings. We are not as highly educated as some very highly educated people in Europe, but we are highly educated and in some cases more highly educated than some independent people even in this country and in Europe. ³²

GIVE INDEPENDENCE TO FILIPINOS BEFORE IT'S TOO LATE

I hope that they (the U.S. government) will give to the Filipino people today - now - before it is too late, sufficient recognition of their just rights that the Filipino people in the years to come will always feel toward America a sense of real gratitude and affection. I hope the completion of our rights is not so long delayed as it was. I hope it stands so well that the Filipino people may appreciate its meaning that it was done with love. ³³

LEAVE PHILIPPINES TO FILIPINOS, THEN TRADE WITH THEM - QUEZON

If you leave the Philippines tomorrow and give the Philippines back to the Filipino people, you will have given the most conclusive evidence that you have no designs upon any country in the Far East, and that all you want is to trade with them on the basis of fair dealings. As every American businessman knows, the only successful businessman, in the end, is the man who does his business on the basis of fairness. ³⁴

AMERICANS CAN'T LOVE OUR COUNTRY MORE THAN WE DO, SAYS QUEZON

The Filipinos are our people, the blood of our blood, and the Philippines is our country where for centuries our ancestors have lived and died. It is there

where we have spent our youth, where we have been working in our old days. It is there where we will be buried, it is there where our children and the children of our children will live and die.

Can they (the Americans) pretend to love that country more than we love it? How can they? How can they say it? If we are advocating independence under the circumstances that we advocate it, if they honestly believe that we have intelligence enough to know what is bad and what is good for us, they ought to agree that the best thing for the Philippine Islands is to grant them independence. ³⁵

FILIPINOS CAN LIVE 300 MORE YEARS SANS U.S. PROTECTION - QUEZON

For the period of 300 years our people have lived without the help of the United States, and I do not see any reason why we cannot live 300 more years without the protection of the United States. ³⁶

P.I. WILLING TO FOREGO U.S. TARIFF PROTECTION TO SECURE FREEDOM

The Philippines is prepared to lose the protection of American tariff in exchange for freedom. ³⁷

ONLY HONORABLE COURSE FOR AMERICA: GIVE PHILIPPINES HER INDEPENDENCE

The Filipinos recognize America's right to protect herself from the competition which Philippine goods and labor have created in this country (U.S.). But it must also be stated that to impose tariff on our products and to exclude our people from this great republic while we remain under the American flag and while American products are permitted to come free of duty into the Philippines, in addition to the fact that Americans may come and stay as long as they please in our country, is manifestly unfair. Such a procedure is justifiable only when applied to a foreign country.

Therefore, the only honorable course for America to take in this connection is to make us a foreign country through the grant of independence. Since to be free has been the age-old desire of the Filipinos, and it may be fulfilled incident to the enactment of this tariff legislation, we are most emphatically for such legislation. Besides, we are convinced more than ever that immediate independence will not only be politically beneficial to us but in the long run will have less injurious economic effect than the indefinite continuation of the present status for the very simple reason that the economic relations between America and the Philippines will then be not subject to change by Congress at any

QUEZON SAYS WE MUST SETTLE PHILIPPINE QUESTION NOW!

No task of any importance is without peril, and the launching into the world of a new nation - so great and so noble - must, of course, have its own. But what of it? Are we to be frightened out of doing the right thing because of some real or fancied danger?

* * *

I am confident that American and Filipino statesmanship in common counsel and in a spirit of friendly cooperation, guided by high ideals, can find a way out of the difficulties, wisely and rightly.

* * *

My appeal, then, to the people of the United States is this: Let us settle the Philippine question now and let us settle it right, in accordance with the plighted word of America. 39

MLQ MAKES SURE OF SUCCESS OF FIGHT FOR INDEPENDENCE

I am not interested in promoting either my own political interests or the fortunes of my party. I am interested in insuring the success of our fight for independence - a success which can only be attained by the united effort of the Filipino people, by taking out of local politics the cause of independence, by stopping the opposition forces from launching charges of insincerity against the party which has been carrying on this campaign these many long years in all earnestness and with all the means at its command. 40

STOP PLAYING POLITICS WITH INDEPENDENCE CAUSE, MLQ TELLS OPPOSITION

We have been accused of betraying our trust, of having compromised and abandoned the cause of independence, and while the country has given no heed to these false charges it is time that we should try to find some way of stopping this unseemly and highly prejudicial spectacle of playing politics with the national cause. 41

QUEZON'S ADVICE ON HOW TO ACHIEVE ONE'S IDEAL

It is one thing to have an ideal and another to attain it. Practical men will always get the most that they can rather than take the stand of getting all that they want or nothing.

SENATE PRESIDENT APPEALS FOR NATIONAL UNITY TO ACHIEVE INDEPENDENCE

With an earnestness born of our love for what is dearest to the Filipinos, our well-being and liberty, we beseech our people to lay aside for a while all party squabbles and discords of every nature to make possible the union of all the live forces of the country in a common effort to set the Philippines free. ⁴³

QUEZON NOT AFRAID OF DIFFICULTIES, REVERSES

I am not discouraged by difficulties and obstacles, not even by reverses. The only thing that I am afraid of is that my conscience may some day accuse me of having failed to do that which is my duty to do.

My heart is saddened by the thought of an indefinite separation from you, as I bid you farewell, with faith in God and the sense of justice of the American people. ⁴⁴

FILIPINOS WANT INDEPENDENCE IN ANY FORM, ASSERTS QUEZON

I would like to tell you now (addressing U.S. Senator William King in 1931 - ABS), as plainly as language can make it, that we have not changed front and would take independence now in any form. ⁴⁵

QUEZON INSISTS FILIPINOS WANT FREEDOM ABOVE EVERYTHING ELSE

I am, as you know, temporarily at least, the chosen leader of the Filipino people and it is my duty to seek the best for the people whom I represent.

If the choice is between wealth without freedom and freedom with starvation, I choose the latter.

Naturally if we could have freedom without poverty we are not such fools as not to welcome it. ⁴⁶

QUEZON'S INDEPENDENCE STAND THAT BECAME CONTROVERSIAL

My stand on Philippine independence is as follows:

First, immediate establishment of an independent government, with free trade between America and the Philippines for a period of 10 years.

Second, immediate establishment of an autonomous government with all the

consequent powers.

Third, if neither of these plans protecting Philippine economic interests shall be acceptable to the U.S. Congress, I said that the Filipino people would, as a matter of course, accept any law granting independence even under the most burdensome conditions. ⁴⁷

FREE, INDEPENDENT AND PROSPEROUS PHILIPPINES COMES FIRST - MLQ

A free and independent but prosperous Philippines comes first, even if it should mean some waiting, but between independence without prosperity and prosperity without assurance of freedom at some future time, I would unhesitatingly accept the former. ⁴⁸

THERE IS NO ALTERNATIVE TO PHILIPPINE INDEPENDENCE, SAYS MLQ

I believe in all sincerity, with the best interests of our people at heart, that the only wise and patriotic course left open to us is to strive for immediate and complete independence, with all its great burdens and responsibilities both as a fulfillment of our sacred and undying aspirations as a people, and as a way out of the present uncertainty which hampers our national life, dwarfs our progress, and fills our hearts with fears and doubts as to our future. ⁴⁹

VERDICT OF HISTORY: EITHER SHAME OR GLORY

I stand before you, and my acts are open to a searching review by all, and to the serene and independent inquiry of an introspective generation which after us shall come, uninfluenced by common associations and common memories with us, to pass judgment upon our public records to our shame or glory. ⁵⁰

QUEZON SAYS OUR SALVATION OR DOOM IS IN OUR HANDS

Our salvation lies solely in our hands, just as our doom can be brought about only by ourselves. ⁵¹

INDEPENDENCE IS ABOVE ANY PRICE, ASSERTS QUEZON

We are unalterably committed to complete independence. We have a long list of heroes who have fought and died for their country. In loyalty to them we demand what they sought. No matter how good are the intentions of another nation, no matter how unselfish or altruistic, misunderstandings are bound to arise when it attempts to hold authority over another alien people. Independence is above

price not only to individuals but also to nations, and we are willing to assume all the risks in order to attain it. ⁵²

QUEZON STRONGLY AGAINST PROTECTORATE STATUS UNDER U.S.

Once more I wish to say most emphatically that I am against American protectorate. It is idle to talk about it because even if everybody in the Philippines were for it, America would not consider it for a minute. I think I know as well as anybody the attitude of the American people on this question. They are willing to let us have either our own sovereignty and independence or remain under American sovereignty.

We chose the former and they gave it to us. But America under no circumstances will ever agree to let us have our own sovereignty and independence and yet continue to assume responsibility for our protection against the world. There is a saying which Americans use to express their attitude on this subject: "You can't have your cake and eat it too." This is the American point of view. ⁵³

FREEDOM FROM FOREIGN INTERFERENCE, INTERNAL REBELLION

If we are prepared to defend our country, we will be free from foreign molestation; if we are just to our people, we will be free from internal rebellion. That is the whole problem - the club in one hand and the bread in the other. ⁵⁴

FILIPINOS READY TO ACCEPT RESPONSIBILITIES OF INDEPENDENCE

If I didn't believe that the Filipinos were willing to accept the responsibilities of independence, I would be ashamed to call myself a Filipino.

The whole philosophy of the national defense program of the Philippine Islands is to make of a Filipino soldier, when he has got to fight, a better soldier, and in peace, a better citizen. ⁵⁵

QUEZON'S LIFE AMBITION: FREE, PROSPEROUS PHILIPPINES

I have stamped practically all the important activities of the government with a social purpose, because I believe intensely in the principle that it is the duty of the State, not only to keep order, administer justice, and safeguard individual rights and property, but also to promote the people's welfare, assuring to everyone an equal economic opportunity, wholesome living condition, a chance to work for a decent livelihood, a fair share in the fruits of the country's

material progress, and the enjoyment of a standard of living in accordance with the basic needs of self-respecting, intelligent men.

My ambition is to give to every Filipino the opportunity to acquire through toil his necessities in food, clothing and shelter, together with reasonable comforts, and a leisure which will permit cultural self-improvement and participation in the blessings of an enlightened civilization. ⁵⁶

RE-EXAMINATION OF PHILIPPINE QUESTION IS TREASON

I have no objection to re-examination, whether realistic or idealistic, when the re-examination is based upon the fear that we may not be economically self-sufficient or upon the fear that we may not be sufficiently strong to defend ourselves against foreign aggression.

But when re-examination is based upon the assumption that we will not know how to establish or maintain in the Philippines a democracy, when the re-examination is based upon the belief, theory or assumption that we will be more free under American rule than we will be under our own, then I will say that it is almost treason. ⁵⁷

LET US NEVER LOSE SIGHT OF OUR NATIONAL INTERESTS, SAYS QUEZON

As the head of the state and the leader of our party, I advise you to guard against temptations to divide yourselves in groups or blocks that will tend to weaken your unity of purpose and action and which, at times, may make you lose sight of the general interests of the nation and see only the particular interests of the groups or bloc to which you belong. ⁵⁸

LIBERTY IS GREATEST POSSESSION IN LIFE - QUEZON

Liberty is the greatest possession in life and no one should sacrifice liberty even when so sacrificing it, it would result in one's own good, for once we have recognized the right of anyone to regulate our life on the ground that it is for our good, we have set the precedent for that one to regulate our own life, when, in his opinion, it is for our own good, even if it is not so in our estimation. ⁵⁹

These are fateful days in which we live. Vital forces are reshaping political and social institutions the world over. Fear and want are afflicting the human race. Men and women everywhere are scanning the future for security and a

more promising life.

In the midst of this great crisis, our duty is clear. By a solemn covenant with America, the advent of our national independence is assured. We must prepare for it; we must not procrastinate; we must not falter. Trusting in Divine Providence we must move forward firmly and courageously to achieve our long-cherished ideal - the establishment of the Philippine Republic - and to secure for our people prosperity, happiness and freedom under the shelter of peace and democracy. ⁶⁰

WE'RE FIGHTING FOR GREAT CAUSE OF LIBERTY AND JUSTICE, SAYS MLQ

At the present time we have but one task - to fight with America for America and the Philippines. To this task we shall devote all our resources in men and materials. Ours is a great cause. We are fighting for human liberty and justice, for those principles of individual freedom which we all cherish and without which life would not be worth living.

Indeed, we are fighting for our own independence. It is to maintain this independence, these liberties and freedoms, to banish fear and want among all peoples, and to establish a reign of justice for all the world, that we are sacrificing our lives and all that we possess.

The war may be long-drawn and hard-fought, but with the determination of freedom-loving peoples everywhere to stamp out the rule of violence and on theism from the face of the earth, I am absolutely convinced that final and complete ⁶⁴ victory will be ours. ⁶¹

QUEZON MORE INTERESTED IN AID TO FILIPINO TROOPS THAN EVACUATING TO U.S.

I have carefully considered the telegram (of General George C. Marshall, U.S. Army chief of staff, inviting Quezon to evacuate to the United States - ABS). I have come to the conclusion that insofar as the suggested trip to the United States is concerned, I have no preference. I am willing to do what the government of the United States may think will be more helpful for the successful prosecution of the war. My immediate concern is to secure prompt and adequate help from the United States, because our soldiers at the front and the Filipino people in general have placed their trust in this indispensable help. ⁶²

MY AMBITION IS TO SECURE FREEDOM, WELFARE OF MY PEOPLE - QUEZON

I am getting old. My days are numbered. My interest in government and our country can no longer be colored by personal ambition. Throughout the course

of my public career our people have showered me generously with all the honors to which any man may aspire. If I now remain in public life, it is merely because I believe the people have demanded my services during these perilous times in order that we might insure our safety and happiness.

My greatest ambition now is to secure the welfare and freedom of our people. and to safeguard for you, the youth of the Philippines, a free country where you may work and be happy, together with my own children whose future and welfare is my responsibility and greatest ambition. ⁶³

QUEZON'S SPECIAL BROADCAST TO P.I. UPON ARRIVAL IN U.S.

I share your sadness - more deeply, perhaps, than you can realize.

But our emotion of grief is transcended by your determination and confidence burning in your breasts. It is an undying determination that, though the Japanese invader may for a brief moment conquer, to some extent, your lands and your bodies, your minds and souls remain unconquered and unbroken. Free. And behind this spirit, there lives in all of us a confidence that the day of liberation is surely coming. The great and free people of the United States will not permit you to remain in bondage.

Led by their noble statesmen and generals, they will rescue the Philippines. They will break the Japanese yoke which now oppresses you.

Stand firm, hold on to your faith, the forces of freedom are on the march. The day approaches when you shall joyously welcome them to our shores. ⁶⁴

"REMEMBER THE PHILIPPINES!" QUEZON TELLS U.S. SENATE

Gentleman of the Senate, since I arrived in this country, I have learned that there is a war slogan, "Remember Pearl Harbor!" I approve and fully understand the slogan. The attack upon Pearl Harbor aroused every red-blooded and patriotic American to a point where he can never be satisfied with anything less than the definite and complete defeat of Japan. (Applause.)

* * *

I am not in this country to persuade you to send forces at once to the Philippines to drive the invader out of my beloved fatherland. Nor will I try to convince you that the Pacific is more important than the European war or the Atlantic theatres of war... (But) you will always have in mind, I am sure, that only in the Philippines has your flag (the Stars and Stripes) been hauled down and replaced by the flag of the Rising Sun.

In view of this tragic event, I do hope that the American people in this hour of their great responsibility to the world will always keep before them the

memory of the devotion and sacrifices of the people of the Philippines. Let me ask your people to adopt still another slogan - "Remember the Philippines!" (Prolonged applause.) ⁶⁵

FILIPINOS' FAITH STRONG AS JAPS' OUSTER NEARS

But the faith of my people will never waver. In the bitterness of temporary servitude, they carry the cross in their hearts, knowing that the day approaches when the barbarians will be ousted. And they will rejoice in knowing that on both sides of the Pacific, in the nations fighting for them and their freedom, the principle of religious freedom and a cordial relationship with the Holy Father are integral parts of their way of life. ⁶⁶

FILIPINOS' WAR RECORD IS EPIC OF FREEDOM

The battle record of the Filipino people in this war bears glorious testimony to the difference between freedom and oppression, between the principle of human equality and the exploded idea of racial superiority. ⁶⁷

PHILIPPINE RECORD PROVES VALIDITY OF ATLANTIC CHARTER

We offer to the world the record of the Philippines as an answer to anyone who would consider the Atlantic Charter illusory and impractical. It is a signpost for all mankind to read. It is the actual evidence of what can and should be done, everywhere and for every people. It points to a goal that can be reached, however long and hard the road may be. ⁶⁸

FILIPINO RECORD WRITTEN IN BLOOD, PROUDLY ASSERTS QUEZON

The record of the Filipino people in this war has been written in blood, and it is a record of which you and I can be proud. It is a record of unflinching loyalty to the United States, a record of heroic deeds. It is a record without parallel in the Orient and, I may add, in the history of colonialism. ⁶⁹

105. QUEZON DICTUM

power...

I would prefer a government run like hell by Filipinos to one run like heaven by Americans, because no matter how bad, a Filipino government might be improved. ¹

P.I. ILL-GOVERNED BY FILIPINOS BETTER THAN WELL-GOVERNED BY ALIENS!

When we have our unfettered self-rule, I dare say we shall make mistakes, but in that respect we shall not be original or monopolistic. It is by our mistakes that we shall learn. America has aided us to learn much of the art of government, but we can master that art only by self-practice. In politics, as in law or medicine or music or painting, concrete achievement is not in the scholastic sphere, but only in the sphere of scholasticism applied. And, anyway, even in the United States and in England, democracy is still on trial.

It is better for the Philippines to be ill-governed by the Filipinos than well-governed by the Americans. ²

AMERICAN EDITOR EXPLAINS QUEZON'S OFT-QUOTED STATEMENT

Concerning Mr. Quezon's statement that he preferred a "government run like hell by Filipinos to one run like heaven by Americans," he probably intended to imply that he would choose a government of Filipinos by Filipinos to a government of Filipinos by any other race, even Americans.

He probably meant no more and no less than what Dr. Jacob Gould Schurman, then president of Cornell University, upon being sent to the Philippines in 1899 by President McKinley, said: "Any decent kind of government of Filipinos by Filipinos is better than the best government of Filipinos by Americans." ³

QUEZON WOULD RATHER HAVE FILIPINOS MAKE THEIR OWN MISTAKES

It is disappointing enough to the Filipino people not to have achieved their independence after thirty years of American occupation, when it was promised then from the very first day of your arrival in the Islands. It is still more disappointing that, after these thirty years, they are not even allowed to manage their domestic affairs, when the Cuban people, who had as much or less preparation for self-government as the Filipinos, are now enjoying their independence and listening to speeches by President Coolidge regarding equal rights of small and big nations, and how much better it is for the people to make their own mistakes than to have some else make their mistakes for them. What, then, would be the feeling of the Filipino people if they were to see their present limited powers of

government still further reduced? ⁴

A GOVERNMENT RUN LIKE HELL, BUT IT COULD BE OTHERWISE

I would rather have a government run like hell by Filipinos than a government run like heaven by any foreigner. But that is not an admission that a government run by Filipinos will be a government run like hell. Much less can it be an admission that a government run by Americans can ever be a government run like heaven, or by any foreign country for that matter. ⁵

GOVERNMENT RUN BY FILIPINOS, BUT CERTAINLY NOT RUN LIKE HELL!

We have had four years of our government - the government of the Commonwealth of the Philippines - a government run by Filipinos, and I challenge anybody, American, foreigner or Filipino, to tell me that this is a government run like hell.

I say that this is the best government we ever had in the Philippines, and I will give facts to prove this to you. ⁶

QUEZON DICTUM THAT WENT AROUND WORLD: GOVERNMENT RUN LIKE HELL!

I have listened to a speech warning our people against independence, on the ground that every liberty you (addressing the crowd at the Ateneo auditorium - ABS) now enjoy may be lost, while under the American Flag you are not denied any individual liberty.

No one has outdone me in giving due credit to the government and people of the United States for what they have done in the Philippines. But I cannot permit any one to say in my presence that our people have enjoyed greater freedom under the American administration, or that our people will not enjoy their freedom under an independent Philippines, as much as they have enjoyed it under the American flag.

It is true, and I am proud of it, that I once said, "I would rather have a government run like hell by Filipinos than a government run like heaven by Americans."

I want to tell you that I have, in my life, made no other remark which went around the world but that. There had been no paper in the United States, including a village paper, which did not print that statement, and I also had seen it printed in many newspapers in Europe. I would rather have a government run like hell by Filipinos than a government run like heaven by any foreigner. I said that once; I say it again, and I will always say it as long as I live. 106. QUEZON HOUSE - CLEANING

ILOILO CFI JUDGE DISMISSED FOR MISCONDUCT IN OFFICE

This is an administrative case against the Honorable Geronimo Paredes, judge of the Court of First Instance of Iloilo, filed before the Supreme Court of the Philippine Islands, involving charges of serious misconduct in office. The Supreme Court ordered the investigation of the charges and, after the respondent judge had been heard in his own defense, the Supreme Court found him guilty of acts and omissions constituting serious misconduct which justified his removal from office. The Court, however, recommends to the Chief Executive that in view of the services rendered in the past by the respondent judge, he be permitted to resign within a reasonable time, and upon his failure to do so; his removal be ordered, if the Chief Executive believes that the public interest so requires.

* * *

It is, of course, evident that despite the findings of the Supreme Court, the Chief Executive is not bound to remove a judge, if the conclusions of the Chief Executive as to the guilt of the respondent are not in accord with the conclusions arrived at by the Supreme Court. But may the Chief Executive permit a judge to resign after he has been found guilty of serious misconduct by the Supreme Court and the Chief Executive concurs in the opinion? If this may be done under the law, is it a good policy to do so?

This administration cannot overlook the fact that it is establishing precedents for a new government, and when the law gives it power or discretion for taking one action or another, it should adopt that course which in the long run will be more productive of public good... But leaving aside the question of whether the Chief Executive is empowered under the law to accept the resignation of the respondent judge, is it good and sound policy to do so? Would it best serve the interests of the administration of justice?

The answer can only be in the negative.

* * *

This administration is determined to raise the standard of judiciary to the highest level. Our judges must merit the respect and confidence of the people and this can only be accomplished if they are men of the highest integrity and unquestioned moral character, courteous, kindly and considerate of other people's rights and feelings, even of those who have to appear before them to be tried of the most serious charges; in fine, men of unimpeachable character and of the broadest human sympathies.

In view of the findings of the Supreme Court of the Philippines that the respondent judge is guilty of grave misconduct which justifies his removal from office, with which we concur after a careful and thorough study of the entire record of the administrative case, and believing that the public interest so requires, it is hereby ordered that the said respondent Honorable Geronimo Paredes be

removed forthwith from his position as judge of the Court of First Instance, Seventeenth Judicial District. ¹

HEALTH DIRECTOR FAJARDO SUSPENDED IN INTEREST OF PUBLIC SERVICE

The papers submitted to this Office and the verbal statements of the witnesses in connection therewith, having established, prima facie, that Dr. Jacobo Fajardo -

(1) In the case of the leper Antero Amara has, through the improper use of his authority as Director of Health, permitted members of his family to obtain financial advantages from the said leper, including the sale of an insurance policy by his son, the indirect sale of jewelry by his wife, and the obtaining of contributions from said leper for newspaper subscriptions for the purpose of getting votes for his daughter in a newspaper popularity contest; and has furthermore received certain sums of money from the said leper in consideration of certain undue privileges granted by him as Director of Health;

(2) In the case of Mrs. Evarista Vda. de Roque, has made improper use of his influence over the said party who is the widow of a former subordinate, for the purpose of inducing the latter to part with the retirement pay received by her upon the death of her husband by means of a loan given to a son of the respondent, without the said loan having been paid to this date, and, instead, has compelled the said party to accept onerous conditions in the payment of said loan by himself; and

(3) In the case of the Health Officers' Association, has failed to account to this late date for the funds of said association turned over to him by the treasurer in the year 1927, notwithstanding the fact that said association has long ceased to exist;

The Director of Civil Service is hereby ordered to conduct the immediate investigation of all these charges and to report to the President the results of said investigation.

* * *

In the interest of the public service, pending the conduct of said investigation, Dr. Jacobo Fajardo is hereby suspended from his position as Director of Health, effective immediately. ²

Abuse of authority is a very serious fault in any public official, whether appointive or elective, and the higher the authority, power, and position of the offending official the greater the fault. Particularly should this government be rigid with offenders of this sort, because we are in the early days of self-government and toleration of this kind of offense on the part of public officials by the Chief Executive may have serious consequences in the future. 3

DAVAO GOVERNOR SUSPENDED FOR MISCONDUCT IN OFFICE

The respondent governor is charged with (a) conduct unbecoming a public official in that he had been habitually appearing in public places and social ~~functions~~ under the influence of spirituous liquor, and regularly visiting in his room in the Awad building one Nicolasa Eugenio, a bailarina who is reputed to be his mistress, during office hours and while the pupils of the Davao Institute were attending their classes in said building; (b) meddling and unduly interfering in the assignments of members of the municipal police vice-squad of Davao despite the warning by the Department of the Interior not to do so, thus giving rise to suspicion that he is protecting gambling dens and prostitution houses in the municipality; (c) unduly influencing, through threats, members of the municipal council of Davao to pass resolutions and ordinances according to his wishes; and (d) improper use of the provincial government automobile by giving transportation to persons who are not entitled to official transportation.

A careful review of the record by the Secretary of the Interior leads him to the conclusion that the respondent governor is guilty of the above charges. ... I am convinced that in the main, these faults were committed while the governor was under the influence of liquor, I am, therefore, concurring in the recommendation that the respondent governor be suspended from office immediately for a period of two months, with warning that any irregularity committed by him in the future will be sufficient ground for his removal from the service. 4

SORSOGON JP DISCHARGED FOR IMMORALITY

It has been found that the respondent, notwithstanding the fact that he is married, maintained illicit relations with one Maria Nestiola, as a result of which a child was born; that these illicit relations have become a common knowledge in his municipality; that the conduct of a justice of the peace should be above reproach and his life should be such as to insure public respect and estimation for the office he holds; and that to retain in a position of trust and responsibility a man who is immoral is contrary to public policy and is conducive to destroying the people's faith in the very ones called upon to administer justice.

Respondent was discharged from his position for the good of the service. 5

MATNOC, SORSOGON JP DISMISSED FOR NEGLIGENCE AND MISCONDUCT

From the investigation conducted by the department of justice in the present administrative case, it appears that two of the charges have been proven beyond question: (a) that the respondent is again guilty of serious negligence and, (b) that his personal conduct is unbecoming a public official. For these reasons, Victorio P. Gratela, justice of the peace of Matnog, Sorsogon, is hereby ordered dismissed from the office of justice of the peace. 6

NAGA, CAMARINES SUR JP DISMISSED FOR IMMORALITY

From the report of the investigation conducted by the department of justice, it conclusively appears that the respondent is leading an immoral life.

The conduct of a justice of the peace should be above reproach and his life should be such as to insure public respect and estimation for the office he holds, and to retain in a position of trust and responsibility a man who is immoral is contrary to public policy and is conducive to destroying the people's faith in the very ones called upon to administer justice. For these reasons, Vicente Roco is hereby ordered dismissed from his office as justice of the peace of Naga, Camarines Sur. 7

oppress, intimidate or coerce prospective witnesses against him. 8

ZAMBOANGA GOVERNOR'S SUSPENSION IS LIFTED

Governor Felipe L. Ramos of Zamboanga was suspended for six months for: (a) trafficking or selling of office; (b) extorting money from subordinates and requesting loans from commercial firms and merchants; and (c) using his office or taking advantage of his official position to hinder the administration of justice. Having completed his suspension without pay, he is thereby restored to duty. 9

MASBATE GOVERNOR IS REINSTATED

The suspension of Governor Domingo Magbalon of Masbate was ordered "temporarily lifted effective immediately until resumption of the trial, without prejudice to such action as the decision of the court or administrative proceedings that may be taken should warrant..."

As suspension undergone is not disciplinary in character, payment of salary during the period of suspension is hereby ordered. 10

DIRECTOR OF HEALTH FAJARDO'S RESIGNATION IS ACCEPTED

Dr. Fajardo was accused of having committed certain irregularities in the performance of his duties. The Commissioner of Civil Service made an exhaustive investigation of all the charges presented against Dr. Fajardo and the papers were subsequently referred by me to the Secretary of Public Instruction, who also very carefully reviewed all the facts submitted by the investigator.

I have personally gone thoroughly over the records of the case and I am satisfied that the charges affecting Dr. Fajardo's honesty have not been proven. There was no evidence to support the complaint that Dr. Fajardo had accepted a bribe from Antero Azana, a leper who was at that time detained in the San Lazaro hospital in Manila. It was conclusively shown that on the date when it was claimed Dr. Fajardo received the bribe he was absent from Manila. I am also satisfied that the charge in which it is alleged that the wife of Dr. Fajardo had sold some pieces of jewelry to leper Antero Azana is unfounded.

However, the sum total of the facts recorded in the investigation has convinced me that his withdrawal from the government will be in the best interests of the health service, and since Dr. Fajardo had signified his desire to submit

his resignation as director of health and had actually presented it before the present investigation was started, but had withheld it only in view of the charges against him which he first wanted investigated, action on said resignation was temporarily held in abeyance. Now that the investigation has been completed and the findings are as I have stated above, I deem it advisable to accept Dr. Fajardo's resignation which he desires to be considered, and I do hereby accept it. ¹¹

LANAO JP DISMISSED FOR IMMORALITY

This is an administrative case against Justice of the Peace Nicanor T. Halibas, of Ganassi, Bacolod, Madulu, Madauba, Pualas, and Mumungan, Lanao, who is charged with immorality.

From the report of the investigation conducted by the provincial fiscal of Lanao, it conclusively appears that before the respondent was appointed to his present position, he had maintained illicit relations with one Victoria Gonzaga and when the latter gave birth, he refused to give support to their offspring and married another woman.

To retain in a position of trust and responsibility a man who is immoral is contrary to public policy and is conducive to destroying the people's faith in the very ones called upon to administer justice. When the respondent was appointed justice of the peace, I was not aware of his immoral conduct, otherwise he would not have been appointed as such. ¹²

CAGAYAN JP SUSPENDED FOR PARTIALITY

The report of investigation in the administrative case against Auxilliary Justice of the Peace Quirino Galicia of Sanchez Mira, Cagayan, discloses the fact that on March 31, 1936, the respondent issued a search warrant against H. C. Wahlgren for the purpose of discovering and seizing unlicensed revolvers alleged to be in the possession of said Wahlgren; and that respondent's only basis for issuing the search warrant was the affidavit presented to him by Dee Hong Lue, the applicant for its issuance, and the affidavits of two other persons. Although the evidence available on the record does not conclusively show that the search warrant under consideration was issued without corresponding application and proofs showing probable cause, yet it can be safely stated that the respondent had shown partiality in granting the petition of Dee Hong Lue, as evidenced by the fact that he himself took particular interest in the preparation of the application and other papers in connection with the issuance of the search warrant, and for that purpose, he (respondent) went to the place where Dee Hong Lue

was residing using the automobile of the latter. The respondent also personally directed the chief of police of Sanchez Mira to serve the search warrant, but no unlicensed firearm was after all found in Wahlgren's possession. ¹³

CAMARINES SUR JP DISMISSED FOR IGNORANCE OF LAW

In view of the foregoing (result of a thorough and careful investigation of the administrative charge filed - ABS), and considering the danger of entrusting the administration of justice to the hands of officials who are ignorant of the elementary principles of law, and upon the recommendation of the undersecretary of justice, Felix B. Panis is hereby ordered dismissed from the office of justice of the peace of Tigaon and Sagnay, Camarines Sur, for the good of the service. ¹⁴

POLILLO, TAYABAS JP DISMISSED FOR BEING "ALCOHOLIC PARANOID"

The department of justice has reported to this office that the respondent Justice of the Peace Edilberto Rina of Polillo, Tayabas (now Quezon province) dismissed in Criminal Case No. 476 and acquitted the accused in Criminal Case No. 477, without justifiable cause. It was also reported that the respondent is suffering from "alcoholic paranoid."

Upon the recommendation of the undersecretary of justice, this Office on July 16, 1937, requested the respondent to tender his resignation from the office of justice of the peace of Polillo, Tayabas, within a period of thirty days from the receipt of the said letter, and warned him that if he fails to do so, this Office will order his removal.

In view of the failure of the respondent to tender his resignation, either to the judge of the Court of First Instance of Tayabas or to the Secretary of Justice, as required, and considering that his further continuance in office will have a demoralizing effect in his community, the respondent should not be allowed to stay in the judiciary. Edilberto Rina is hereby ordered dismissed from the office of justice of the peace of Polillo, Tayabas, for the good of the service. ¹⁵

ZARAGOZA, NUEVA ECIJA JP DISMISSED FOR ELECTIONEERING

After reviewing the report of investigation in the administrative case against Auxiliary Justice of the Peace Hilarion Calderon of Zaragoza, Nueva Ecija, it appears that the respondent is found guilty by the judge of the Court of First Instance who investigated the case, of the following: (1) that the

respondent took active part in the general elections of 1931 and 1935, in violation of the provisions of section 449 of the Administrative Code; and (2) that he was found guilty of unjust vexation against one Josefina Lindain while she was in respondent's rice mill and sentenced to pay a fine of ten pesos by the district judge.

Considering the seriousness of the irregularities committed by the respondent, and upon the recommendation of the undersecretary of justice, Hilarion Calderon is hereby ordered dismissed from his office as auxiliary justice of the peace of Zaragoza, Nueva Ecija, for the good of the service. ¹⁶

ROMBLON JP DISMISSED FOR IRREGULARITIES

The respondent (Sixto Ribino) was charged with having committed the following while he was acting justice of the peace of Romblon, same province: (1) negligence and laziness in the performance of his official duties; (2) imposition of illegal and excessive penalties through abuse of discretion; and (3) issuance of unjust orders and rulings.

From the investigation conducted by the District Judge in the present administrative case, it appears that all the above charges have been proved beyond question. All of these irregularities committed by the respondent make his continuance in office highly undesirable. To retain in a position of trust and responsibility in the public service a man who abuses the power given him by law and is negligent in the performance of his official duties is contrary to public policy and lowers the standard required to be maintained by government officials. ¹⁷

MASBATE JP TOLD TO RESIGN FOR IGNORANCE OF LAW

This case involves three administrative complaints against Jose L. Almarico, justice of the peace of Masbate, Masbate. In the first complaint, the respondent was charged with acting in bad faith and with political consideration in issuing orders of injunction in two civil cases against complainant, the Hon. Domingo Magbalon, provincial governor of Masbate.

In the second complaint, the respondent was charged by one Raymundo Lim with trying a criminal case for serious physical injuries in which the complainant was the offended party, notwithstanding the fact that said case was beyond the jurisdiction of his court, and in maliciously acquitting the accused therein of the crime charged.

In the last complaint, the respondent was charged with having acted summarily and without justifiable cause in ordering the complainant, the Hon. Jose

ANTI-GRAFT DRIVE INCREASES PUBLIC CONFIDENCE IN GOVERNMENT

The new government has been fearless in imposing disciplinary punishment on public officials found guilty of corruption or neglect of duty. The firmness with which the Commonwealth government has demanded a high standard of integrity from its officials has greatly increased the public confidence. 19

RESIGNATION OR EXPULSION FOR ERRING TOP OFFICIALS, PLEDGES QUEZON

I am going to change the policy heretofore adopted by the government that when some officials of the government, who are occupying responsible positions, commit a fault - unless it is of a criminal nature - they are merely transferred from a big province to a smaller one or suspended from office.

If a responsible official commits a grievous act under my administration, he will be punished by only one method; he will either be compelled to resign or be expelled from the service. Why? Because an official occupying a responsible position cannot remain in that position after he has shown his negligence, his inefficiency or his lack of integrity, and when you punish an official occupying a responsible position by transferring him from a large to a smaller province, you are punishing the province instead because you are sending to that province an inefficient or an irresponsible official. 20

WE MUST ERADICATE INEFFICIENCY, CORRUPTION IN GOVERNMENT, SAYS QUEZON

It is therefore essential to the perpetuation of our democratic institutions that our government be an effective instrument for the promotion of the public welfare, free from the baneful effects of inefficiency and corruption. If we should succeed in this, we would be contributing to the preservation of democracy in the world. 21

SELLING OUR BIRTHRIGHT FOR ONE MILLION TONS OF SUGAR?

The time has come when the Filipino people must decide whether they shall be the masters of their own destiny or not. PRESIDENT'S STORY OF A SALARY-SEEKER AND A REAL WORKER

I will tell you a story. Many young men have come to me to ask for a job. "What can you do?" I asked.

"Oh, everything," was their reply.

"What do you mean? You are a marvelous fellow!"

"I just want a salary to support myself," they answered.

You are not looking for a job, you are looking for a salary. I am going to give you a job if you can show me that you really want to work. Go to the Mayor of Manila and tell him to give you a job as street sweeper; then come back to me."

None, not one of them, has come back to me yet. (Laughter.)

On the other hand, one morning while I was walking on the Palace grounds I saw a clean, nice-looking young man carrying a heavy piece of wood. He was bare-footed. My attention was attracted, so I called him. "Why are you working?" I asked.

"I have to make a living, Mr. President," he answered.

"How much do you get?"

"One peso a day, sir."

"Have you been to school?"

"Yes, sir, I am in the high school."

"Why do you have to work this way; do you not have a father and a mother?"

"I have, Mr. President, but my father lost his job sometime ago, so he and I have to work."

Then I told him to leave his work and see Secretary Vargas. I told Secretary Vargas to give him a better work. Now that boy has a fine job; that boy is going to be a man; and as long as I can, I will help him. He did not come to me for a job; but he needed work to help his father.

Now and then I get dozens of letters recommending some boys for jobs. I asked them to come to me. They thought that I am an easy fellow and I give work to everybody who comes to me. I have a very soft heart but I have a strong will-power, and I will not help a boy to become lazy and easy-going. It is not good for him. I like to see boys sweep the streets; I did that work. You know I worked in the ricefields; I waited at tables; I did a lot of odd things. I passed nights without any food. So why can't others do what I myself did? ⁵

DELQ'S HUMOROUS STORY SENDS CROWD ROCKING WITH LAUGHTER

I am now feeling tired, but I will say a few more words before I close. This morning Assemblyman Sanidad had shown me so many things that I almost died of exhaustion before I arrived here. (Laughter.)

The Governor said that this is not the proper occasion for him to reveal the needs of the people of Abra. What is the proper occasion then? (Laughter.) I have come to find out what you want. But I suppose your Governor meant this: "Mr. President, I don't have to ask you anything, because we have a man in the National Assembly who knows how and what to ask. So why waste our time?"

He is right. Only a month ago, at the consideration of the appropriations for members of the National Assembly at a meeting of the council of state, Floor Leader Quintin Paredes was able to get several thousands of pesos for Abra, and he easily got the appropriation - just as if he had merely asked me a cigarette. (Laughter.)

So you don't have to ask me anything, and I don't have to promise you anything. You can rest assured that when you need something, provided that the government has the authority and the means to give it, you will always have it whether or not you open your mouth. (Applause.) That will always be true as long as I am the President of the Philippines. (Laughter.)

So that I may be certain of remaining President during the next two years, I am going to stop talking now. (Applause.) ⁶

108. QUEZON ILLNESS

FROM HIS SICKBED MLQ CONTINUES FIGHT FOR INDEPENDENCE, BUCKS TWO MEASURES

There are pending on the floor of the U.S. Senate two bills affecting the Philippine Islands, S. 2292 and S. 2787. The first proposes to have the Congress of the United States appropriate \$125,000 from the funds collected in the United States from internal revenue taxes levied upon articles and merchandise coming to this country from the Philippine Islands (now turned over in its entirety to the Philippine treasury for general appropriation by the Philippine Legislature), and giving the Governor-General authority to expend some for the employment of technical advisers and assistants without the necessity of further appropriation by the Philippine Legislature and without submitting appointments to the Philippine Senate; the other authorizes the Governor-General to appoint governors for the so-called Mohammedan and non-Christian provinces without the consent of the Philippine Senate.

As may be readily seen these bills are reactionary in that they curtail the right of our Legislature to appropriate and the power of the Senate to confirm appointments. Enactment of these bills is not only contrary to the official pledge made by the government of the United States to grant the Filipinos every-increasing measures of self-government, with independence as the ultimate goal, but also to the oft-repeated policy of both the Republican and Democratic parties as expressed not only in their respective platforms but also by their respective leaders in authority.

It would be most unfortunate and unjust if Congress should enact these measures. ¹

AILING QUEZON'S FUTURE IN DOCTORS' HANDS - "UNLESS PEOPLE NEED ME!"

My plans for the future? At present I have only one definite plan. Within a few days I shall submit my report (on his trip to the United States - ABS) to the Legislature. After that everything depends on my health. I may rejoin my colleagues in the Senate, if I am able to do so. I may go away for a rest. After my report has been submitted, I shall be in the hands of my physicians - unless the people need me.

* * *

Haggard and emaciated, his health almost entirely sacrificed to his task, Senate President Quezon has returned (from a one-man unofficial independence mission to America - ABS). His last words tell the whole story. What little is left of that health is at the disposal of his people - if they need him. ²

SENATE PRESIDENT TENDERS RESIGNATION BECAUSE OF ILL HEALTH

Because of the state of my health which grows worse every day, I find myself obliged to present my resignation as president of the Senate.

Allow me to take advantage of this opportunity to express my profound gratitude to the senators, to the majority as well as the minority, for their courtesy and cooperation; and my sincere congratulations for their valuable service to the country. QUEZON, GRAVELY ILL, SAYS HE'S READY TO GIVE EVERYTHING FOR COUNTRY

Why, in heaven's name, can't we keep our personalities separate from issues that affect our country - our people? What are we but tools, to help the people reach the goal they desire? Why, then, should we allow ourselves to be swayed by personal dislikes that should have no place where the people's welfare is at stake?

My conscience is clear. I went to the United States and, despite my illness, I worked - did the work I was sent to do by my people. I worked as hard, as earnestly as I did in my youth; and I knew that in that work I was sacrificing the only fortune my family has - my health.

I came back. Here I am - an invalid for life. My days are counted. I know it. I am poor - burdened with debts. I know that, too, I can look my people straight in the eye and say that I have given the best that is in me - all that is in me - in their service. And if there is anything left, I am ready to give that, too - if I can persuade the people, in discussing our cause, to leave political considerations aside; if I can convince them that our ideal of independence is so sacred that cannot - must not be tainted by party prejudices! ⁴

SENATE CHIEF LOSES 12 LBS., NEEDS COMPLETE REST

Statement of Quezon's physicians published in the Manila Tribune, November 10, 1931:

"A consultation on the subject of Senate President Quezon's condition was held on Sunday, November 8, by the undersigned. It was decided at the consultation that Mr. Quezon's pulmonary lesion is in a more or less latent state, without any distinct evidence of activity. However, his general health is greatly impaired. When he left Manila (for the United States - ABS) several months ago, he weighed 150 pounds. Today he weighs 118, having lost 12 pounds. It was further decided that he must have complete repose and that he be relieved of his work. All those really interested in his recovery should permit him to have the rest he needs." -

109. QUEZON INDEPENDENCE STAND

I AM FOR CLARKE AMENDMENT BODY AND SOUL, SAYS QUEZON

Mr. Chairman, it would be a lack of candor for me to say that the Clarke amendment (granting Philippine independence in not less than two but not more than four years - ABS) constitutes, in my opinion, the best and wisest way of disposing of the Philippine question. I think I could propose a better solution, or, at least one that would better safeguard the interests of my people and be more satisfactory to them. But, as a practical man, I must deal with conditions, and so, there being no other proposal for Philippine independence which could possibly have any chance of getting through, I am for the Clarke amendment body and soul. (Applause on the Democratic side.)

The substantial merit of the Clarke amendment lies in the fact that it provides for the establishment, within a short period of time, of an independent Philippine government, a government that will be of, for and by the Filipino people, absolutely free from any foreign control and interference, a government which it is our fondest ambition to have, as it is our God-given right to establish, the only kind of government under which we can live happily and contented. (Applauso.) ¹

QUEZON TELLS U.S. TO FULFILL HER TERMS OF COVENANT

By the enactment of the Jones Law in 1916 which, in its preamble, states that it is the purpose of the United States to grant the Philippines their independence as soon as a stable government can be established therein, and by the acceptance by the Filipino people of the terms of this Act, a solemn covenant was entered into between the people of the United States, on the one hand, and the Filipino people, on the other, whereby we bound ourselves to carry out the provisions of that Act and bring about a situation that would make possible the establishment of a stable government, while you (the American people - ABS) bound yourselves to grant us independence as soon as this condition came into existence in the Islands.

We have faithfully complied with the terms and provisions of this Act. We organized a government in accordance with its terms; we elected the Legislature provided therein, a legislature which has now been functioning for seven years; and not only can we establish a stable government but such government is already established and is in operation there. We have, therefore, fully performed our part of the covenant, and we feel that it is high time for you to do your part.

It is beside the point to argue whether or not it would be advantageous economically or otherwise to grant the Philippines independence. The one single issue is whether or not we have a stable government in the Philippines or a stable

government can be established therein. If so, as we must emphatically assert, and have time and again demonstrated, it is our belief that your plighted word gives you no alternative but the granting of independence. ²

MR. DARES U.S. SOLONS TO GRANT INDEPENDENCE TO BELIEVE RUMORS

Rep. BEEDY: It has been intimated to me more than once that your leaders are coming here and demanding independence immediately because of political pressure, which makes it incumbent upon you to do so, but that as a matter of fact, you would fear the consequences of immediate independence not only in an economic way, but in a political way, and that you would be delighted, having apparently met the demands of your people, to have us postpone the date of your independence. Do you yourself know anything about that?

QUEZON: Mr. Chairman, the best proof of the pudding is in the eating. If you should enact a bill providing for immediate independence, you will find out whether our leaders wanted immediate independence or not.

Rep. BEEDY: I want you to answer my question.

Rep. MACLAFFERTY: That is a fair question.

QUEZON: Of course, we want immediate independence, and it is not true that we came here only for political expediency. But granted that it is true that the political leaders do not want immediate independence, but that they are advocating it simply because they are afraid of their constituency, I want to ask is not this fact the best proof that the people of the Philippine Islands want independence, when their leaders have to advocate it, even against their will? After all, it is not what the politicians think or say that ought to govern democracy; it is what the people want. If the leaders did not want independence, but felt that the people wanted it to such an extent that they were compelled to fight for independence, then I think you should give the people what they want.

Rep. BEEDY: And you believe your people want independence today, and you want it, do you?

QUEZON: Yes, sir. ³

U.S. COMPLIANCE WITH PROMISE WILL BE A GREAT MORAL EXAMPLE

If America will act now to carry out its pledge to the Filipino people (to grant independence as soon as a stable government can be established in the Philippines - ABS), its action will serve as a great moral example to the entire world and will be in the interest of world peace.

The present conditions in the Islands are unsatisfactory to all, and it is

not likely that this situation can be improved very much until the independence question is settled once and for all. ⁴

QUEZON DENIES FILIPINOS NO LONGER DESIRE INDEPENDENCE

As president of the Philippine Senate and in my capacity as head of the Philippine independence mission to the United States, I wish to say emphatically that the Filipino people are as anxious as ever for their independence, and that the Filipino leaders, including myself, have not changed front on this question.

As far as I am concerned, my mission in the United States, in the language of the resolution of the Philippine Legislature, by which authority I am here, is "to petition the Government and Congress of the United States for the early granting of independence to the Philippines." This is my instruction, and I am doing my part to carry it. ⁵

PLA'S THREE-POINT PROPOSAL ON PHILIPPINE QUESTION

1. Immediate establishment of an independent government with free trade between America and the Philippines for a period of 10 years, limiting the amount of sugar entering the United States free of duty to one million tons and oil to the amount exported at present, and the restrictions of Filipino labor immigration into the United States.

2. If unacceptable, immediate establishment of an autonomous government with all consequent powers, including that of enacting measures necessary to meet the responsibilities of an independent government when independence is granted, with restrictions necessary to safeguard the interests of American sovereignty in the Philippines. Within such a period of 10 years, trade relations between the United States and the Philippines and the labor immigration into the United States, will be the same as proposed in the preceding paragraph. At the end of 10 years, the Filipino people will decide by means of a plebiscite if it desires to continue with such a government or prefers to have one that is absolutely independent. In the latter case, American sovereignty will be immediately withdrawn from the Islands.

3. In the event that this is not acceptable, the Filipino people will welcome any bill granting Philippine independence in any form. ⁶

 - 6/ Proposal presented before political leaders in Washington in mid-1931, as quoted in Carlos Quirino, Quezon: Man of Destiny. Wisconsin State Historical Library, 1935, pp. 64-65. Ibid., p. 842.

HE DENIES CHANGE OF STAND; STILL FOR INDEPENDENCE NOW!

There is no change in my stand of today from my stand of yesterday or of twenty-five years ago. I am in favor of absolute, complete and immediate independence. I said this in Washington, and I said it in my report (to the Legislature - ABS).

When I said that we need ten years for readjustment, I offered it as one of the three proposals which we would be willing to accept, if we could get it. If we cannot get it, I always said as I say now: let us have immediate independence whatever its consequences - no matter how burdensome its conditions.

The question is one that no longer admits of personal recriminations. It no longer revolves about the old question of who is the patriot and who the traitor the Democrata or the Nacionalista. The question now is to end the present uncertainty, and to end our present status, which no matter how lightly it falls on our shoulders is an offense to our national self-respect. We must all work for a solution - but the solution will never be attained by stubbornness, by defiance. It is not to be found in making a political football of the independence question. We must face the facts. Each of us has a responsibility to shoulder. In coming out, openly, I served notice on all that I am ready to shoulder mine! 7

110. QUEZON ON MANGLAPUS

QUEZON, SOCIAL JUSTICE, AND - RAUL MANGLAPUS!

As I said once, these (young) people who are preaching social justice are getting far ahead of me. I listened to a wonderful speech delivered at an oratorical contest held last night. As I listened to (Raul) Manglapus, every fiber of my being was touched.

That is the effect of what I am saying: these fellows are going a little bit too far. And if that speech were delivered in the native dialect before tenants of Nueva Ecija or Pampanga, you can be sure that there would be a revolution the next day.

Just imagine, he said that people have been robbed of their lands. Then he pointed out how these lands came into the possession of the encomendros. Of course, this took place during the Spanish regime. All these ugly things were said by Manglapus who was educated by the Jesuits, and the Jesuits were the ones who were believed to be responsible for the robbery of these lands. 1 (Laughter.)

PRESIDENT SAYS SEVERAL FIREBRANDS LIKE MANGLAPUS CAN MAKE REVOLUTION!

Just three or four days ago, I went to investigate the complaint of the tenants of the Guadalupe Estate. They have been living in that place since time

- 7/ Statement dictated by Quezon from his sickbed in reply to Sumulong's attack, op. cit., November 29, 1931. Ibid., pp. 851-852.

immemorial; their ancestors had also lived there; yet these tenants have been required to pay for two to four pesos per square meter for the land which they occupy.

This hacienda belongs to the Augustinian order. A historical marker in the Church of Guadalupe states that it was built in 1560 - a few years after the Spaniards arrived in the Philippines. Evidently, those Augustinian friars took a banca and glided along the river until they saw that place and decided to stay there; and the friars became the landowners!

Certainly, these tenants are the owners of the land, and yet they now find themselves aliens to that land. So when I heard Manglapus deliver that magnificent speech, I was surprised. Those Jesuits should not have permitted that boy to denounce what the friars did. They knew what the speech was and still they allowed him. And the boy was no fool - he prefers to mention "encomenderos" instead of "friars" although these words mean the same thing.

And they tell me that this Manglapus is the son of a rich father. If we can get several young men like Manglapus and have them deliver that speech, we will surely have a revolution in the Philippines. ²

111. QUEZON ON RIZAL

AMERICANS SHARED RIZAL'S IDEAL OF FREEDOM, SAYS QUEZON

Jose Rizal was court-martialed and executed by a firing squad in 1896. The Spanish regime had sentenced him to death for the sole crime of loving freedom and advocating it for his people.

When the American government in Manila made the anniversary of his martyrdom a national holiday, it became clear at once that in American eyes he was not only without guilt, but, rather, worthy of public recognition - that his devotion to the cause of freedom was as good in the eyes of the American people as it was in that of the Filipino people.

* * *

He (Rizal) was one of the noblest characters that the human race has ever produced. He was the very personification of Kipling's "If." ¹

FILIPINO CIVILIZATION REPRESENTS MERGER OF EAST AND WEST

Filipino civilization represents the merger of the East and West. In the Philippines they have met on an equal footing, and the best of each has intermingled. We have been enriched by this fusion.

Clearly, if we are to establish a world of peace after this war, human beings of all nations must learn to understand and respect one another. The West must try to understand and respect the East, and the East must try to do the same for the West.

We of the Philippines can help by serving as the meeting-ground, as the

interpreter between the East and West. This will be our contribution to the free world of tomorrow.

Rapidly, we are approaching a crossroad in history. For us, the Filipinos, our road runs east and west. And there, in the East, where the sun rises, we see already the glimmerings of dawn. Already the gloom of night is softening and soon the new day will break, flooding us all with the bright sun of liberty.

Then the dream of Rizal will come true. ²

QUEZON WRITES BRIEFEST, FIGHTINGEST LAST RIZAL DAY MESSAGE

As we commemorate Rizal's martyrdom this year, while our country is under the heel of the invader and our people are actually under the iron control of a foreign army, some may ask if our sacrifices and sufferings, the imprisonment and the death of our beloved ones, all these hardships and daily dangers of our fighting men still resisting the enemy, are too much or too unbearable.

To this question, the answer has been given by Rizal himself - an answer that applies to every Filipino individually as well as to all our people collectively. Rizal suffered in exile and in prison, and gave his own life for the liberty of our people and country. No Filipino living today, and no Filipino yet unborn, can give a life more precious, more valuable, than the life Rizal gladly sacrificed.

Let us, therefore, vow once again that we shall fight unto death for our country's freedom and independence. ³

112. QUEZON - OSMENA COLLISION

QUEZON FORESAW CONFLICT WITH SPEAKER OSMENA

I foresaw that the day would come when a serious conflict between the Senate (headed by Quezon - ABS) and the leader of the party in power in the government (Speaker Sergio Osmena - ABS) would come, and that the result of such a conflict would create a crisis in the party.

Experience during the last five years has shown me positively that if I continue to occupy the post of president of the Senate, I am liable, in defense of my principles that you and I deem sacred, to threaten the peace of the party and under such circumstances I cannot continue.

The presidency of the Senate as a post does not appeal to me. I saw in it an opportunity for service, but now there is dissension, misunderstanding, suspicion, and so I must go. ¹

SENATE PRESIDENT SAYS HE DID NOT SEEK A FIGHT WITH OSMENA

I did not look for the conflict. The conflict was thrust upon me. A recent

arrival from the United States, the Filipino knew that I had to undergo medical treatment, that my health was broken, and that I needed rest. I tried to avoid it because I knew that it was going to mean fight, and I did not want conflict, I wanted harmony, peace.

The conflict came in spite of myself. Confronted by it, I had to defend the principles which I sincerely believed were just. ²

WHEN POLITICAL FIGHTS ARE LIMITED TO PRINCIPLES, NOT PERSONALITIES

What a beautiful spectacle for the country to behold political fights limited to discussion of principles and eliminating personalities! What a magnificent spectacle for the people to see political opponents eating on the same banquet tables, united by links of affection and friendship! Much as I regret it, this seems to be something unknown here. Every time that the people see the Speaker (Osmeña) and myself together, immediately the talk goes the rounds that our political differences have been patched up. When we had toasted each other at a banquet in the Ayuntamiento, all the people said there was peace between the two, not knowing that the next day a big bomb was going to explode! ³

QUEZON IRKED BY OSMENA'S "RECONDITE LANGUAGE"

I would not descend to the level of the Speaker from Cebu when he practically branded me a liar; I shall limit myself to refreshing his weakened memory... I do not know, Mr. President, why I pay but little attention to the strategy of words. I always act in good faith and without untoward purposes, and I am not drawn to the subtleties of recondite language. Now, however, chastened by some disagreeable experiences, I am more on my guard, and scrutinize the contents of a document before signing it. ⁴

ELQ ADVISES OSMENA TO TAKE POLITICS IN STRIDE

The trouble with you (addressing Speaker Osmeña - ABS) is that you take the game of politics too seriously. You look too far behind you and too far ahead of you. Our people do not understand that. All they want is to have the present problem solved, and solved with the least pain. That is all. ⁵

SENATE CHIEF VOWS HE WILL NEVER SUBMIT TO HUMILIATION

Never in my life have I yielded to the indignity of a humiliation. The man has not yet been born who can make me forget what is due to myself, nor is there under the heaven any price, however great, that can make me even for a moment

eschew the dictates of human dignity. It is for this reason that I would not give, never will give, my vote of confidence to him whom I had in public accused individually and clearly, in private conversations and in the presence of other persons, of being a traitor to the cause of the country, not even to keep my position, nor to become chief magistrate of the nation. ⁶

LOYALTY TO PARTY ENDS WHERE LOYALTY TO COUNTRY BEGINS

The Nacionalista Party and the entire Filipino people know how faithfully I have served my party colleagues. Everybody knows how I fought for them within and without the ranks, and that I never hesitated to come to the fore to defend the party's ideals and its men. I want to recall at this moment, with satisfaction and without regret, how I have always supported and defended him (referring to Speaker Osmena - ABS) with all sincerity and even as strongly as his strongest supporters could have done. I defended the party at least as much as the staunchest Nacionalista and the most dyed-in-the-wool Unipersonalista.

But the party never has been and never will be the people. My loyalty to party ends where my loyalty to my country begins. Even if it were not the Nacionalista Party, let it be any other party, from the moment that my convictions do coincide with the ideal for which the party stands, I consider it my duty to leave it. A man to be worthy of the name should put his convictions into practice, profess them with faith, defend them with courage, happen what may. ⁷

MLQ'S LOYALTY TO PARTY SECOND ONLY TO LOYALTY TO COUNTRY

Political parties are nothing but instruments in democracies, and when the interests of the country are made subservient to the interests of a party, then that party no longer serves the ends for which it was organized. And I wish to add that my adhesion to the party, great as is my desire to further its interests, is second to the interests of the country. ⁸

QUEZON RECOUNTS HOW AND WHY HE JOINED NACIONALISTA PARTY

This is a day of transcendental importance to me. I am going to take a step the consequences of which I have foreseen, but the result of which God alone knows. From the time I entered public office I fought under the banner of the Nacionalista Party. I affiliated with it at a time when the only words written on its flag were: Immediate Independence. I affiliated with it when the struggle we carried on during the Revolution was still fresh in my mind and I thought it my solemn duty to form

part of a political organization to defend the very same ideals for which the soldiers of the Revolution fought and fell. 9

JOINING PARTY FOR PRINCIPLES, NOT CONVENIENCE

The politician who does not have any patriotic purpose but his personal aggrandizement in entering politics, who is only after his personal convenience and nothing else, is surely after a job, a position. Can I find a position in the Philippine government and within the gift of the Filipino people higher than that of President of the Senate, the highest position to which a Filipino could be sent by his countrymen? If I wanted to perpetuate myself in power, is there anything better for me than to remain in the Nacionalista Party?

But no! I prefer to take the risky side. I prefer to be in a new party that must be organized, that will mean sacrifice, work, fight. And the same is true with those who are with me... They are fighting for their conviction, not for their convenience. One should not belong to a party only to occupy a position. He should be a member of a party to defend the ideals of that party and then assume a position so that he may be able to better defend the ideals of the party by means of his position. 10

SENATE PRESIDENT HITS POLITICAL FOES FOR THEIR DEMAGOGY

Alas, how we have fallen into evil days! By their confession ours is now the sad knowledge that certain men who have earned the reputation of statesmen, before a situation that requires of them the utmost seriousness in their acts and the maximum prudence in their words, use the oratory of demagoguery to attract the acclamation of the public. 11

113. QUEZON - SUMULONG CONTROVERSY

QUEZON TELLS OF "PARABLE" OF FILIPINO HOUSE AND DEMOCRATS

We, the Filipino people, were living in a big house of America as mere servants. That was at the time Judge Juan Sumulong was in the Philippine Commission. Then the Democratic administration in America came to power and told the Filipinos, "You can build your own house." That is what the Jones Law said and under the law we could choose the materials and the architects, the only condition was that we were not to burn our own house because the bigger house (America) might also be burned.

Governor-General Harrison said that we had built a house as strong as any other nation. So President Wilson recommended to the U.S. Congress that the Filipino house having been built, the Filipinos could live therein.

Then President Harding (Republican) came to power and said: "This house

9/ Loyalty to Party speech, supra, p. 576.

10/ De la Llanza and Icasiano, op. cit., pp. 6-7.

11/ Ibid., p. 18.

was built under Democratic administration. I want our architects to find out the strength of the building." So he sent the Wood-Forbes Mission (in March 1921 - ABS). This Mission thought that Americans alone would criticize our house. But Wood and Forbes were glad to find out that our own brothers, blinded by partisanship, criticized the house built by the whole Filipino people.

The Democratras (headed by Judge Sumulong and Ruperto Montinola - ABS), in their hatred towards the party in power, told the Wood-Forbes Mission that the materials of the house were rotten. The Wood-Forbes Mission did not ask the party in power. Hence, the Mission made recommendations against Philippine independence and against autonomy (under the Jones Act - ABS). ¹

SENATE PRESIDENT ANSWERS SUMULONG'S "EMPTY-STOMACH" TIRADE

Judge Sumulong says no nation can walk on an empty stomach. But I say every nation can walk on an empty stomach if it knows its own rights. But no nation can (or deserves to - ABS) walk on a full stomach if it does not understand self-respect, dignity and liberty.

I want to say that as a legislator, when I vote for money for your education (addressing his audience composed mostly of students - ABS) in the public schools and the university I do so in order that you may learn to love the liberties of your own people. Public spirit, first and foremost.

Our people have their dignity not in their stomach but in their hearts. ²

FILIPINOS WANT LIBERTY FIRST, BREAD COULD COME LATER, SAYS QUEZON

Judge Sumulong speaks of economic independence as necessary before political independence. He does not know the phrase for he is not the inventor. The phrase was previously used by Taft, Forbes, Worcester and other imperialists.

If he means by economic independence that the government should not be in debt I wish to say all governments are in debt. If he means that there should be wealth of the nation, how big a wealth is necessary? Most independent nations today are poor. If he means that there should be many millionaires while the poor people starve, then I do not want economic independence. America herself has no economic independence when she became politically independent. The Americans said, "Give us liberty first of all!" They did not say, "Give us bread!" ³

KEEP POLITICS OUT OF INDEPENDENCE QUESTION, APPEALS QUEZON

I wish to God we could eliminate party politics from the independence question. Politics has no place in a question as vital as this one. I thought that now, more than ever before, we would thrust aside party considerations and think only of the good of the people. We face our most critical period, and there should

3/ Ibid.

be no Democratas and no Nacionalista Consolidados at this time.

What was there for me to gain in coming out as frankly as I did in my report? Those statements - I was not compelled to make them. Those proposals - I did not have to reveal them. I could have stuck to the time-honored methods, mouthed the oft-repeated rituals. But I told the people the truth - nothing but the truth - because I believed that the time had come when they should know the truth - when we should face our common problem, not as Democratas nor as Nacionalistas, but as Filipinos, with nothing in mind but the welfare of the Filipino people. 4

WON'T SACRIFICE INDEPENDENCE FOR ANY ECONOMIC CONSIDERATION

I have always emphasized that we would not sacrifice our freedom for economic considerations. To show that this has been my stand in the United States in all my conferences, I wish to quote verbatim^a statement I made in a conference which I had with Senator (William) King who, as everybody knows, is for immediate independence. I used more or less the same language in every other conference and thus avoided the impression that I was saying one thing to some and another thing to others. Senator King asked me if it was true, as reported by some papers in the United States, that the Filipino people or their leaders has changed their stand on the question of independence.

My reply was this: Senator, the Filipino people are today as desirous of obtaining their independence as ever. Their leaders feel and think with their people and have not changed their stand. Insofar as I am concerned, all the desire of my life has been the liberty of my country; and as the head of the majority party, feeling as I do on my conscience all the weight of the responsibility that I have assumed before the people, I have also to think of its material well-being, and, therefore, the prospect of an abrupt severance of the economic relations between America and the Philippines, as proposed by certain American interests, is keeping me worried.

If I can obtain the independence of my people under favorable conditions, without causing economic and social dislocations, it is my duty to do everything I can to obtain it in such manner. In other words, if I could make of my country a free country, independent and at the same time prosperous, it is my duty to do so.

But if I were asked to choose between the liberty of my country now, even without prosperity, and a state of prosperity without the certainty that in the near future we are to become free, I would unhesitatingly select the first course. 5

114. QUEZON - WOOD CONTROVERSY

QUEZON TELLS WOOD HIS CONCEPT OF GOVERNOR-GENERAL'S VETO POWER

The President of the United States whose veto power is derived not only from the Constitution but also from the fact that he is elected by the people, exercises it only when the policy involved in a measure is fundamentally objectionable to him. The practice has been when something objectionable is found in a bill, to sign it, stating at the same time the objections of the Executive, so as to give Congress opportunity to consider them at a proper time. ¹

SENATE PRESIDENT LINTS WOOD-FILIPINOS COOPERATION MAY BECOME IMPOSSIBLE

Permit me to inform you (addressing Governor-General Wood - ABS) in all sincerity that there is a growing feeling among our people that the views of the Filipino officials in this government, the secretaries of the departments included, have very little, if any, weight with you.

If this feeling is allowed to stand, it would be very difficult to preserve the utmost cooperation of the Filipinos, when they become convinced that you have little confidence either in their loyalty or ability. ²

WLG COMMENTS ON WOOD-PHILIPPINE LEGISLATURE IMPASSE

There is a difference of opinion between the Governor-General (Leonard Wood - ABS) and the Philippine Legislature. This arises out of the anomalous form of government in effect here. There are two heads of government and the responsibility is divided.

The Governor-General is here as the supreme representative of the sovereign power, the United States, and is responsible to the American people alone. The Legislature is composed of elected representatives of the Filipino people. They are not responsible to the Governor-General. They are responsible to the people alone.

What I said in my speeches during my tour of the southern provinces is that the Governor-General should not exercise the prerogative of his office in matters that are purely domestic. ³

QUEZON BEWAILS WOOD'S INTERFERENCE IN WORK OF LOWER OFFICIALS

What we are defending is a fundamental principle of government involved in the interference by the Governor-General (Leonard Wood) in those cases the responsibility for which is specifically vested by law in the secretaries of departments or chiefs of bureaus.

In the Conley case the Governor-General ignored completely the authority

and responsibility of the Mayor of the City of Manila and the Secretary of the Interior by reinstating Conley in spite of Section 2447 of the Administrative Code. ⁴

[Note: Ray Conley, an American detective in the Manila police department, was suspended by Secretary of the Interior Jose P. Laurel as a result of administrative charges filed against him. Governor General Wood intervened and ordered Laurel to reinstate Conley, whereupon Laurel obeyed and then resigned, Protesting against Wood's high-handed policy, Senate President Quezon led the Filipino members of the Council of State and the Cabinet in a mass resignation, causing the famous "Cabinet Crisis of 1923." - ABS]

WHEN QUEZON AND COMPANY STOOD THEIR GROUND AGAINST WOOD

The Philippine Legislature, or at least the Coalition majority, will disregard entirely all recommendations Governor-General Wood may make in his message to that body.

We will not pass any measure he recommends because he has disregar^{ed} the Council of State and has not asked the advice of the department secretaries in preparing his message. ⁵

QUEZON TELLS U.P. STUDENTS ULTIMATE AIM IN WOOD CONTROVERSY

I am betraying no secret if I tell you that our ultimate aim in sustaining the controversy between the Governor-General (Leonard Wood) and the leaders of the Filipino participation in the government, which culminated in the present crisis, is to make the Governor-General of the Philippines a mere figurehead.

It is unpatriotic for any Filipino to stand by Governor-General Wood in his policies. ⁶

MLQ POINTS OUT ABSURDITY OF DUAL POWER IN DOMESTIC AFFAIRS

The absurdity of letting Washington or its representatives in the Philippines fix the policies of this government on purely local affairs, especially financial and economic, is that our policies would then be determined not by our electorate whose own interests are at stake, but by the electorate of the United States.

In the case of the bank, the railroad, and other business enterprises created by the Legislature, the Legislature went further than merely creating them. It kept them under its own control by placing the supreme authority of their management in the hands of the Board of Control, the majority of which is composed of the

presidents of both houses of the Legislature.

While the Board of Control has supreme authority over the bank, yet the Governor-General, in the use of his executive powers, may order the closing of the bank. But I can assure you that while there is money in the treasury, the Philippine Legislature will open another bank, ⁷

WOOD WANTED TO OCCUPY WHOLE "FILIPINO HOUSE," SAYS QUEZON

Continuing his "parable" of the Filipino House, Quezon said:

When General Wood became Governor-General he wanted to be the architect, the carpenter and everything, disregarding the Legislature. If we had not opposed him perhaps all the bureau chiefs would at present be Americans. He wanted to occupy the whole house. So the Filipinos in the government declared a strike. (As in the Wood Cabinet Crisis of 1923 - ABS). We thought the strike would be unanimous but there were some Filipinos (referring to the "Democratistas" - ABS) who did not join.

The house we built is for our posterity. Wood does not know our needs and aspirations. So what does he know about our house? We, Filipinos, know what kind of a house we need. Our house is for free men under liberty. We swore to our people that we would build their house according to their wishes. That is why we cannot recognize the Governor-General's claim.

The Commission of Independence asked for Wood's recall for meddling in our own affairs. But two voices were heard: those of Montinola and Sumulong who said that the Governor-General is right in interfering with our house. ⁸

QUEZON ISSUES LAUDATORY STATEMENT ON WOOD'S DEATH

It is with deep regret and sorrow that I heard of the death of Governor-General Wood. Everybody knows that General Wood and myself have disagreed on almost every fundamental issue affecting the Philippines, from the question of independence and the interpretation of the Jones Law to the disposition of public domain, the administration of government-owned companies and other subjects.

But during all of these years I have never had any disagreeable incident of a personal nature with him. I admired in him the courage with which he fought for his ideas, and he never resented the frankness with which I expressed to him my views when we were not in accord. He was always courteous to me. He was a hard-working Chief Executive and very determined in his purpose to do the right thing as he saw it. ⁹

to the late Governor-General Wood - ABS) means not the right of the Chief Executive to command and the duty of the Legislature to obey, but rather the duty of both mutually to respect the powers and prerogatives of each and to seek through a frank and full interchange of views on a common ground for action. ¹⁰

115. QUEZON PARTYLESS DEMOCRACY

PRINCIPLES OF DEMOCRACY VALID DESPITE ITS SHORTCOMINGS

The indictment against democracy is that it has failed to produce efficient government, and, like the old monarchies or aristocracies, that it has permitted the concentration of wealth in the hands of a privileged class at the expense of starving millions. But, as I already observed, the shortcomings of democracy do not destroy the virtuality of its principles. The best instrument devised for the attainment of human happiness is doomed to failure if misused, misdirected or improperly handled. Not even the blood of martyrs shed upon the battlefields and the scaffold will save it. ¹

QUEZON INSISTS DEMOCRACY CAN EXIST SANS POLITICAL PARTIES

The first fetish that we must discard is the discredited theory that democracy cannot exist without political parties. In the very nature of things, the struggle for power between contending political parties creates partisan spirit, and partisan spirit is incompatible with good government. Only in very rare instances can there be found men actively interested in party politics who are capable of disregarding party interests and subordinating them to the interests of the people at large.

I have been in public office uninterruptedly since 1906 (since 1904 when Quezon became fiscal of Mindoro - ABS) holding different positions. From my experience, I can truthfully say that patriotic men - even true patriots - are sometimes swayed by party passions and, wittingly or unwittingly, they jeopardize the public good for party considerations. ²

MAJORITY-MINORITY GOVERNMENT IS LIKENED TO DIVIDED FAMILY

This concept of the need of a majority and minority party is as wrong as saying that in order that a home may be governed well, it is necessary that there should be a division, that there should be fighting all the time in the family.

A nation is like a family, multiplied a thousandfold, and just as it is impossible for a family to be happy or to make progress when there is division among its members, when father and mother and children are at cross-purposes, so

Is it impossible for a nation to grow strong and accomplish great ends if the people are always divided, if they are taught to believe that patriotism means division. ³

UNRESTRICTED LIBERTY INIMICAL TO DEMOCRACY, SAYS QUEZON

The second slogan that must be thrown overboard is the theory that in a democracy individual liberty must not be restricted. Liberty is, of course, one of the most precious rights - natural rights - of man. But civilization has made progress only at the expense of individual liberty. The freest man is the savage, the man who lives in the fastness of the mountains, recognizing no rule except his own will, no power except physical strength.

The most cultured man is not the man who boasts of his freedom to do as he pleases, but the man who is capable of considering at all times the comfort of others even at the expense of his own comfort.

Liberty needs restraint. The exercise of liberty is good for the people only when it is accompanied by self-restraint.^t It is the abuse of liberty which is today causing the disappearance of liberty in many parts of the world. ⁴

INFORMATION, DISCUSSION ESSENTIAL TO DEMOCRACY, NOT PARTIES

What is essential to a democracy is not political parties, but information and discussion; but discussion and without animosity, conducted in a spirit of cooperation and not destruction. And not until people learn to cooperate rather than fight one another will democracy succeed in achieving the true ends of good government. ⁵

DEMOCRACY AS LIVING ORGANISM MUST BE ADAPTED TO MILIEU

I urge you to study and master the philosophy of democracy. Its logic and wisdom are unassailable. It is broad and resilient enough to permit its adaptation to the exigencies of progress and the times. It is here that statesmanship is in great demand, for unless this adaptation is made properly and in time, democracy cannot function efficiently and effectively. In this task, preconceived notions of individual freedom and property rights should not be allowed to obstruct reforms.

We must look upon democracy as a living organism which can thrive only if it is adapted to its environment. Unless our democracy can show this capacity for change and improvement, it will be supplanted by autocratic rule. To avoid this is our common duty and our trust. ⁶

QUEZON PUNCTURES THEORY THAT BEST GOVERNMENT GOVERNS LEAST

When I spoke of restrictions on individual liberty and freedom, I had no

3/ Ibid., p. 2232.

4/ Ibid., p. 2233.

5/ Ibid.

6/ Ibid., p. 2234.

intention of emphasizing the restrictions on political or individual freedom. I said that only as preparation for what I was going to say further and which I consider to be the most important thing in a democracy today - the limitation of the rights of the individual or of a corporation to satisfy his or its greed and to exploit the working class. I called attention to the fact that the old concept of democracy - that the best government is the government that governs least - was an obsolete theory.

I said "enlightened appreciation of, and respect for, human values must lead to the complete renovation of outmoded concepts regarding property rights." The old theory of democracy that the best government is one that governs the least, is averse to any form of invasion of individual freedom and to any attempt on the part of the government to regulate business or industry or the relationship between capital and labor. Boundless individualism, unrestricted competition, freedom to use labor as a chattel to be treated and paid for as the employer may wish, have resulted in the accumulation of wealth in a few hands and the impoverishment of large masses of the people. ⁷

SENATE CHIEF RECALLS TIME WHEN DEMOCRACY EXISTED IN NAME ONLY

There was a time when democratic governments existed only in name but not in fact, when the nobility was the ruling class, or when the great captains of industry in democratic America had virtual control of all the sources of power in the United States.

Yes, in those days and in accordance with the old books, which are precisely the books that I advised the students of this university to close and leave untouched in the libraries, social justice was not the business of government. ⁸

DEMOCRACY IS A FARCE WITHOUT SOCIAL JUSTICE, ASSERTS QUEZON

Democracy is inconceivable, democracy is a farce, where there is no social justice, when governments do not consider it their prime duty to look after the best interests of the common man.

Make no mistake about it. Laugh at every beautiful or eloquent speech on democracy if democracy does not mean the responsibility of the government for the well-being of the governed. And, moreover, it is precisely because the so-called democratic governments, up to a few years ago and even today, are wasting their time discussing the ways of life instead of enacting measures and enforcing them so that every man, woman and child in the world will live like human beings; it is precisely because there is so much talk about the ways of life and very little to eat that democracy is going to the dogs. ⁹

PARTISANSHIP DEGRADATES POLITICAL PARTIES IN EYES OF PEOPLE

Don't you see what political parties are doing here and elsewhere? Don't you see that political parties are selfish, are always seeking their own interests and their own good, and forgetting the interests of the people? Don't you see that every day? Don't you look down upon the politicians? Don't you, professors of the University of the Philippines, sit here in your classrooms, satisfied with yourselves and thanking God that you do not belong to the class of politicians?

Well, if political parties are necessary, if they are good, politicians ought to be revered instead of being treated contemptuously as you are doing now. I said to newspapermen during a recent press conference: "If political parties are good, why don't you join some political party?" If political parties are necessary, every citizen should belong to one or else be considered a bad citizen.

* * *

You see there are evils in political parties. We are suffering from them. Even I - the head of a political organization, the party in power in the Philippines as President of the Philippines suffer from such evils. That is a reality. Are we just going to sit and say, "All right, let us go ahead."

Well, I don't believe in that attitude. I never compromised with evil. I face and fight an evil if I can. And I am starting that fight... I am going to convince our people and you, the university constituency, that political organizations are of no use and should be discarded. I am ready to carry out a campaign to convince you to that end, for it is for your good. 10

TUBEZON EXPLAINS ESSENCE OF PARTYLESS DEMOCRACY

A partyless government in a democracy is not an impossibility - certainly not contrary to fundamental principles of democracy. But a partyless government to be successful, presupposes an educated citizenry where the immense majority of the people are endowed with more than ordinary civic virtues, so that they will take interest in the affairs of government all the time; it presupposes an independent and honest press, an extended radio service that is not controlled either by the government or by special interest^s, and a community with the same national ideals without privileged classes; in a word a political and economic unit. 11

CONFLICT OF PHILOSOPHIES, ECONOMIC INTERESTS JUSTIFY PARTIES

The raison d'être of political parties, the fact that alone can justify their existence, is the conflict of political philosophies or divergence of economic interests among the people, which in turn dictates different governmental policies.

10/ Ibid., p. 2246.

11/ Speech on the elimination of partisanship in a democracy, at the Far Eastern University, August 17, 1940. Rivera Collection, Vol. V, p. 2252. Also in QP, MR#44, TNL.

But in the purely political field, the race today between contending parties generally consists in the effort of each of them to prove that one is more in earnest than the others in the advocacy of true popular rule. The conflict is no longer between those who believe in the government from above and those who espouse the cause of popular rule. 12

DESPITE WRONG INDOCTRINATION, PEOPLE ARE WISER THAN THEIR LEADERS

We have been indoctrinated in the need of political parties in a democracy; and, as a result, our political leaders have kept partisan strife alive, which would have rent asunder our national ties and prevented the early consummation of our ideal to become an independent nation, if the Filipino people, wiser than their political leaders, had not maintained their unity of purpose in the midst of suicidal party strife. 13

ESSENCE OF DEMOCRACY REMAINS THE SAME, BUT FORMS ARE INFINITE

The essence of democracy is government of the people, by the people, and for the people. But the forms of democracy are infinite, depending upon the genius of the particular people who adopt it. And the best form of democracy, let it be remembered always, is that which can best promote and insure the liberty, well-being and happiness of all the people. 14

QUEZON CITES CASES WHERE DEMOCRACY EXISTS WITHOUT TWO STRONG PARTIES

It is simply not true that without two well-balanced political parties there is no democracy. The existence of but one political party where the organization of other political parties is not prohibited by law or by the will of a dictator, is usually due to some cause which has united the people under one banner, and the union persisted long after the cause had ceased to exist.

In the case of the Southern States (in America - ABS), for instance, the conflict on the doctrine of State rights with reference to slavery and secession united the people in those states under the banner of the Democratic Party and, although this issue was decided by force of arms in the Civil War and has long since been dead, the Southerners still look with abhorrence upon the idea of belonging to the Republican Party.

Again, in the case of Southern Ireland, during all the years of the fight for home rule, there was only one party in that country. 15

NO ONE-PARTY SYSTEM HERE BUT NP REMAINS SINGLE DOMINATING PARTY

If you call a one-party system that which outlaws any other party except the party in power, then both in law and in fact, we do not have a one-party system.

12/ Ibid., p. 2252.

13/ Ibid., p. 2254.

14/ Ibid., p. 2255.

15/ Ibid.

(But) the Nacionalista Party is, for all practical purposes, the only national party that we have because it is the only party that owes its existence to the national cause of independence, and because for the immense majority of the Filipinos it embodies our historical struggle for the achievement of that national ideal.

But, whenever issues arise within the Nacionalista Party, those issues are not patched up by the leaders of the party through mutual compromises or concessions, but are taken to the electorate, and only after the electorate has rendered its verdict are these compromises and concessions made between the leaders of the party for the sake of preserving national unity and invariably in accordance with the popular verdict.

We are a united people in every respect. There is no fundamental issue of national character in which our views are irreconcilable. For this reason, political parties are unnecessary but because we have been indoctrinated for so long in the need of political parties in a democracy, it would seem to be rash to try and experiment now with a partyless government. We must first educate the public mind to look upon party organizations as unnecessary. 16

116. QUEZON RETRACTION

QUEZON, 33rd DEGREE MASON, RETURNS TO CATHOLIC FOLD

Came the day when I began to feel a complete desolation in spite of the material goods which I enjoyed, and I looked for the cause thereof and found it in my lack of faith in the supernatural life, that is, in my lack of religion. After much hesitation I decided to take steps tending towards professing a religion, if it were all possible for me to believe in one.

As a Mason I believed in the theory that all religions are the same and that, therefore, one could adopt whatever religion satisfied one's conscience. Although Masonic ideas had led me completely away from the Catholic religion, I nevertheless chose to obtain instruction in Catholicism in preference to any other religion, because, this being the Faith of my wife and children, if I could in conscience embrace it again, it was evident that if all of us, the head as well as the members of my family, were to profess and practice the same religion, it would contribute to the religious solidarity of my family. I was, however, decided on adopting another religion, if my conscience were to prove unable to accept the dogmas and precepts of the Catholic Church.

In such a frame of mind, I asked certain ministers of the Catholic Church to help me in regaining the Faith which I had professed by virtue of my baptism, and these answered my call for help. It cost us a lot of work and time, but with the help of Divine Grace, I at last believe now that Jesus Christ is my God and Redeemer, and also that the Catholic Church founded by Him is the repository of His doctrine.

16/ Ibid., p. 2260.

I am therefore prepared to re-enter my old Church, and I fervently desire to be re-admitted therein. I want to be a Catholic again, to live and die in my Faith. This is my prayer to God and I humbly trust that He, in His infinite mercy, will grant it to me. 1(a)

117. QUEZON: THE MAN

PELO'S FEELING FOR INDEPENDENCE INSPIRED BY NATIONAL SPIRIT

I have been fortunate enough to be associated with all classes of Filipinos. I have mingled with the poor and the rich. Moreover, I have witnessed from my childhood this growing sentiment of nationality and desire for independence. I have been reared by the same feeling. When I express the feelings of the people I am sure that I am not wrong because I am expressing my own feelings; and when I express my own feelings I know that I am expressing those of my people because mine have been inspired by the national spirit that pervades the atmosphere throughout the Islands. 1(

I'VE STAKED ALL THAT MY COUNTRY MIGHT BE FREE - QUEZON

Mr. Chairman, I have already staked too much in this noble task (of securing Philippine independence - ABS) to which I have consecrated my life to permit myself to hesitate as to my course, now that the goal is within sight.

I took the field when little more than a mere boy, suffering hunger, fatigue, and every kind of privation, and exposing myself in many battles; I have been for six months confined as a prisoner of war; I have been for a long time a sick man as a result of the miserable life I led in the mountains during those years that I was a soldier; later I have carried on a campaign in this country (U.S.) with tongue and pen. All this I have done that I might see my native land made the arbiter of its own destiny. 2

AFTER JONES LAW, QUEZON WANTS TO BECOME PRIVATE CITIZEN

Now that a decisive battle has been won (the passage of the Jones bill - ABS) and the further work to be done is comparatively easier, I am going to show how attached I am to my office and how fearful I am of losing it (as charged by his critics - ABS.)

I shall not seek reelection (as Philippine Resident Commissioner to Washington, D.C.). I do not want this or any other public office. I can manage to live, and much more to my liking, as a private citizen. The only reason why I sought

this place is because I wanted to be of service to my country, not because of the honor or the salary attaching to it. Once (during the Philippine-American War - ABS) I served my country when there was nothing but hunger, fatigue, every kind of hardships, and danger to my life in the service.

Mr. Speaker, my people have been too generous with me. I owe them more than I shall ever be able to repay, no matter what I might have done or might do in the future for them. In leaving my present office I do not propose to abandon my duty of cooperating in the work still to be done until the Islands are completely free. I am only going to occupy that place where, in my opinion, I can more effectively help; which, for the present, at least, seems to me to be that of a private citizen. ³

QUEZON'S THOUGHTS ON ASSUMING POST OF SENATE PRESIDENT

It is the interest of the people which we have to safeguard, and it is the people as a whole whom we have to serve.

* * *

The voice of the people is the voice of God only when it expresses judgment formed within the safe channels of serene reflection.

* * *

Nothing breeds more confusion in society than a constant change in legislation.

* * *

When a political party obtains the majority of the popular vote, it acquires the whole power of the government and with that power the responsibility.

* * *

It is not sufficient qualification for appointment to an administrative or any other position that the candidate belongs to the party that has carried off the victory at the polls. It is also necessary that integrity, intelligence, patriotism, and diligence render him really worthy of the office which he desires to occupy.

* * *

In no case must we ever place party interests before the interests of the country. ⁴

MLQ ESCHEWS PERSONAL AGGRANDIZEMENT IN SEEKING PUBLIC OFFICE

My conduct in the past shows that I have no ambition merely to satisfy a desire for personal aggrandizement.

When I had the Jones bill approved by the Congress of the United States, and taking into consideration that its preamble involved the idea that some years must pass before we are given our independence, I decided that my further stay in the

United States would not be necessary and I decided not to be a candidate for resident commissioner.

I made up my mind to retire to private life. I did not believe then, as I do not now believe, that men should seek public office for the sake of the convenience, power and prestige that office gives. A public office is necessary because it is an instrument for public service. And so when the Jones Law was passed I thought that the greatest public service that I could give my country was no longer in the United States. I came back to the Philippines intent upon leaving public office. I was elected senator before I arrived. * And then I was later elected by my colleagues as president of the Senate. ⁵

[* Quezon arrived in the Philippines from the United States on September 27, 1916. The election for the Senate, the first election under the Jones Law, took place six days later on October 3rd. What he probably meant was that he was nominated and assured of his election before he arrived, as evidenced by the fact that he was elected in the fifth senatorial district without going out to campaign. - ABS]

SENATE PRESIDENT ANSWERS ALLEGED EXPULSION FROM VETERANS' ORGANIZATION

My alleged expulsion from the Asociacion de Veteranos de la Revolucion is a farce. While I am a veteran, I have never affiliated myself with the association, and from the time General Aguinaldo, for purely personal motives, came out in support of Governor-General Wood (in the Cabinet Crisis of 1923 - ABS) I have considered my connection with it not only an inconsistency but a betrayal of public trust on my part. ⁶

QUEZON'S "BRIEF" CALL ON COOLIDGE LASTS ABOUT AN HOUR!

When U.S. Secretary of War Davis asked Philippines Senate President Quezon how much time he would like for his conference with President Coolidge, the Senate head replied:

"Well, it depends. If the President will not find interest in what I have to say, and only listens for the sake of official courtesy, one minute will be sufficient. I will simply say: 'Good morning, Mr. President. I bring you greetings from the Philippines.' And that will end it. But if the President wishes to hear me, which I feel sure he does, I will require much more time."

The conference lasted nearly an hour, indicating that the President was interested, and listened to Mr. Quezon most attentively. ⁷

MLQ NOT WEDDED TO SENATE AND NACIONALISTA PARTY PRESIDENCY

I am not wedded to the presidency of the Senate, nor to the leadership of

the Nacionalista Party. I can live and be happy without either position or both. But I cannot part with my conscience for having been recreant to my duties, or for having lost my self-respect. The loss of self-respect or peace of mind is too heavy a penalty to pay for political power or riches.

Mary Magdalene was pardoned by the Savior because He knew how real was the change that took place in her heart, but the society in which she lived did not, and for that reason did not take her back into its bosom... The government which cannot read into a man's soul cannot afford to take chances. ⁸

SENATE CHIEF PROTESTS AGAINST NICHOLAS ROOSEVELT'S APPOINTMENT

Let me at the outset disclaim any intention on our part to challenge the power of the (U.S.) President to appoint whomsoever he chooses. We are only exercising the right of petition.

He (Nicholas Roosevelt) has formed the opinion, and has repeatedly expressed it, that the Filipinos are just out of barbarism, with no conception of the moral value of honesty and truth, with no idea of fair play. Moreover, his main thought is wholly inconsistent with what I conceived to be the American policy, as distinguished from the English and Dutch, regarding subject colonies. He would govern us according to the Dutch plan in Java and not in accordance with Secretary (Elihu) Root's written instructions to the Taft Commission. And we have a clear insight into his mental leanings when we see him reviving the old Roman name "proconsul" and applying it to present-day governors of colonial dependencies.

I would request you, Mr. Secretary, to realize how humiliating it will be for the Filipino people to have at the head of their Department of Public Instruction and, from time to time, as acting head of their government, one who has branded them dishonest and deceitful, and how extremely embarrassing it will be for the Filipinos in public life to deal officially and socially with one who has written of them with contempt.

You can, therefore, very well understand my serious concern over this appointment (of Nicholas Roosevelt as Vice Governor-General and concurrently Secretary of Public Instruction - ABS) which will surely revive racial antagonism. ⁹

I AM SEEKING NO PLAUDITS - QUEZON

Statement of Senate President Quezon after reading the Opposition's barbed comments on his report to the Philippine Legislature concerning his trip to the United States, October 1931:

"I am seeking no plaudits. My only aim is to serve the people, promote their welfare, and secure their rights, so that once secured, they may enjoy those rights with perfect safety." 12

TO DO ALL I CAN FOR MY PEOPLE BEFORE I GO - MLQ

When I was young, I had a desire to help my people, but coupled with it there was a tremendous desire to help Manuel Quezon, too. I was a Bohemian, a high liver, impetuous, and my past is not spotless, but - he spoke more softly - in spite of it all Rizal never lived to know the affection of his people as I have ... little as I deserve it. Now that I am older, I just want to do for my people all that I can before I go. 13

SENATE CHIEF REACTS SHARPLY TO DEROGATORY HURLEY STATEMENT

If it is true that the Secretary of War (Patrick J. Hurley - ABS) has declared before the U.S. House Committee on Insular Affairs, and reported by the United Press, that the Filipino people are incapable of governing themselves, he has made a statement that is both offensive to our people and unsupported by facts.

We are far more capable of governing ourselves than many independent peoples

Nothing would make the Filipinos more determined to get their independence than the denial of their capacity for self-government, because this means that their association with America can only rest upon the relationship between the ruler and his subject. Such an association will never be willingly accepted by any self-respecting people. Under such a situation all Filipinos will unite in preferring economic hardship with independence to economic prosperity with subjection.

We want to be free, first and foremost. We want to be prosperous, of course. But we will not sacrifice freedom to prosperity.

I have been willing to accept limitation on our imports and immigration, provided this was done as a part of a program definitely setting a date for the granting of independence in the near future.

But to retain the Philippines under the American flag for an indefinite period and at the same time deny us the rights and privileges that others enjoy under that flag, would be an injustice and an abuse of power upon a helpless people.

I cannot conceive that the American nation would ever countenance such a policy, which would make the United States deviate from its traditional fairness and altruism in dealing with other peoples. 14

[Note: The U.S. Secretary of War subsequently informed Quezon that he never said the Filipinos were incapable of self-government. He added: "Do not let any misstatements in the papers mislead you into believing that I have ceased to be your friend and the friend of the Filipino people." - ABS.]

MILO A BORN OPTIMIST, BUT CONCERNED WITH FAST-CHANGING WORLD SITUATION

I am a born optimist. But, there are things in the world today that tinge my optimism with concern. The world is changing; thought is changing; institutions believed to be eternal are tottering. Some have fallen. And we are in the midst of all the change. We cannot escape its effects...

* * *

Today the world is in a state of upheaval, of change, reacting to two significant movements in government, both characterized by a form of despotism, yet each diametrically opposed to the other. On the one hand, we have the one-man despotism in Italy, where Mussolini by sheer force of character and will is in control of the government. On the other hand, we have a people's despotism, as in Russia, where a section of the people, the masses, are driving the rest of the people in zealous adherence to an idea.

* * *

They also bring about changes in thought, new tendencies in ideas and ideal. And this upheaval, these new tendencies, these new currents of thought, are felt in the Philippines. 15

QUEZON WANTS COMFORTABLE, HAPPY LIFE FOR FILIPINO PEOPLE

My concern is that every man and woman in this beautiful land of our may live a comfortable, if modest, and happy life. The stability of every government depends upon the contentment of the masses. 16

MILO FEELS HIGHLY HONORED WITH HIS NOMINATION AS PRESIDENT

A party nomination for the highest office within the gift of the people is in itself a great distinction, but when the nomination comes under such auspicious

circumstances as have attended that which is now proffered to me, I regard it as the greatest honor that can be afforded to any public man short alone of his actual election to the Presidency.

I, therefore, Mr. Chairman, make public announcement that I accept the nomination for the Presidency which has been tendered to me, deeming it my bounden duty to do so, and I accept it with the most profound sense of the responsibility that it entails and the deepest of gratitude. 17

PRESIDENT ADVISES INDONESIANS TO MAKE A LOT OF NOISE TO BE FREE!

How should you go about getting independence? Open all the windows and shutters, then take away your guards. Hold your meetings in the open and in front of the Dutch themselves... Make a hell of a lot of noise! And if you do that long enough, you will eventually get what you want. 18

CHIEF EXECUTIVE REVEALS OWN WAR EXPERIENCE FOR COUNTRY'S SAKE

I want to tell you, young men, I am not asking anything of you that I myself have not already done. As a matter of fact, I am not asking from you a hundredth part of what I myself have done. I am asking you to undergo military training for a few months each year for a limited number of years. You will be taken for training in places where there are barracks, good food, and good shelter. Every one of you will learn how to use a gun effectively. That means that in case of a fight you have at least an equal chance with the fellow who is fighting you, which is a great thing.

You know what mine was? I was for two years in the field. I was not put up in any military barracks. We roved the mountains barefooted; sleeping many a night in the mud and without shelter. There was no one to prepare our food and many a time we had nothing to eat but guavas. I finally fell sick with malaria from the effects of which I suffered for ten years.

But I did not get anything out of it. I did not even become a good soldier. Nobody taught me how to handle my rifle - and the rifle was terrible, old, and with poor ammunition. I could not hit anybody 500 yards from me. There was no equal chance for us in the fight with the American soldiers. The time came when our best defense was our legs!

For two years I had to undergo all kinds of hardships, nights without sleep, days without food, and no place to rest in - all this in the service of our country.

Will you, my dear young men, do less for your country than I and many others did? Of course, I know your answer. I know that every young fellow will tell me, "Mr. President, I will be proud, not only glad, to undergo military

QUEZON ADMINISTRATION "DISAPPOINTING" TO HIS MANY FRIENDS

If I were asked now to express my judgment upon my administration, my answer would be that it is a disappointing administration. My friends and political enemies alike have been disappointed. My friends sometimes have expected me to save them from certain troubles into which they themselves have voluntarily gone. Other friends believe that it is my duty to give them everything that is in the government. 20

MLQ'S SOLE AIM: A STATE THAT WILL LAST UNTIL END OF TIME

My task is not only to set up the government of the Commonwealth that will last for ten years, but to lay the foundations for the government of an independent state that will last as long as the world endures, and, therefore, it is my duty to foresee the future and to adopt a course that will meet the problems of the new day.

The time is past when we can blissfully ignore the lot of the man and woman who till the soil or who work in the factories. The time is past when any government can feel secure without the full support and cooperation of the masses of the people - cooperation coming not from a sense of duty only, much less from fear, but cooperation which is the result of devotion and loyalty to their government engendered by a sense of satisfaction and happiness which their government has inspired for them. 21

I DON'T WANT TO SHOOT DOWN FARMERS DEMANDING JUSTICE - QUEZON

I do not want to have to use (the Philippine Army) to shoot down Filipinos who go out to the fields because they are convince that they are not getting justice either from the government or from their fellow citizens. I never want to do that. God save me from doing that!

I am asking everybody now to get together and try to improve the conditions in the Philippines so that such feelings of discontent as now exist may be replaced by a feeling of contentment and happiness. I have instructed Judge Zulue-ta and the Secretary of Labor to go to Negros and start investigating the wages that are being paid to laborers, and we are going to go ahead and find out how the laborers on the farms and in the factories are being treated. We are going to use the authority vested in this government to secure justice for these fellows

A GOOD LIFE IS ONE DEDICATED TO A NOBLE AIM - QUEZON

A life led without achievement is worthless, and only that life is livable that is dedicated to the achievement of a noble aim. We want to die leaving something behind us so that those who may come after may think of us kindly. That life which ends with death only is a life of frustration and futility, and that is not the life of the artist nor of the public man. 23

EX-POLITICAL PRISONER QUEZON HONORED BY U.S. ARMY

As our boat approached the landing place, the roar of 19 guns in salute to the President of the Philippines was heard, and as I landed, soldiers of the United States Army were there presenting arms to me - to me; the man who only a few years ago was a prisoner of that army!

I want to tell you, ladies and gentlemen, I was thrilled. I was thrilled to witness the greatness and generosity of America, as presented in the act. Her own soldiers, her own army, the army against which I fought only yesterday, was there to do me the honors. 24

I WILL SEND MY OWN BROTHER TO JAIL IF HE VIOLATES ELECTION LAW - MLQ

I am going to enforce the Election Law. I would send even my own brother to jail if he violated the law. 25

LOVE IS CREATIVE, HATRED DESTRUCTIVE, SAYS QUEZON

Love can produce good things, hatred can only destroy; it can never build up because hatred is not creative, it is destructive. It is love that is creative.

QUEZON TO EXERCISE EXECUTIVE POWER WITHIN LIMITS OF LAW

I am going to exercise the executive power of the government under the law, in accordance with the power I have and nobody can be in my way in the exercise of my function or in the performance of my duty. I know the limit of my authority and the extent of my duties. 27

CAN'T SACRIFICE GOOD GOVERNMENT FOR LOVE OF POWER

I have reached a point where in the ordinary course of life my days are counted and it would be the height of folly for me to sacrifice everything, including the success of my administration, to mere love of power. 28

QUEZON'S ULTIMATE GOAL: JUSTICE FOR POOR AND WEAK

My greatest concern in life has always been to secure for the poor people of the Philippines a better treatment than they have received from time immemorial

The freedom of my country and the improvement of the lot of the common people have been the dream of my boyhood and the ambition of my manhood.

P1 MILLION CAR FOR MEXICAN PRESIDENT; HERE THEY'LL MURDER ME! - QUEZON

I was in Mexico recently... I sent word to the Mexican ambassador that I was coming as a tourist and for that reason did not desire to be received with the honors due me as head of state. I said the same thing to the (U.S.) Secretary of State. However, when I arrived at the Mexican frontier, I found the Mexican people waiting for me and with them a military detachment ready to receive me with the honors due me as President of the Philippines.

Of course, the presidential car was there to receive me. It cost the Mexican government \$500,000 or P1,000,000. Just think of it! If I bought a presidential car worth P20,000 those of the Popular Front would murder me! 30

PRESIDENT QUEZON'S CONCEPT OF REARING UP A GOOD SON

You have heard me criticize the luxurious manner of living of our present-day youth. That is not the fault of the children; it is the fault of the parents. It is the parents who give them the money. I am telling fathers that the best way to show a son that they love him is to compel him to suffer what the father has suffered; to make him work before he learns how to spend money. Let him learn to earn money, then let him spend it. It is the duty of the father to provide everything necessary for life, exclusive of luxuries. If the son wants luxuries, let him work, let him learn to earn money, and if he is unable to make a living, let him go to the devil. Don't let us permit our sons to sport a fine car or give a sumptuous dance. And we must demonstrate with deeds what we tell them. Some parents hurt their own children by getting them accustomed to a life of luxury. 31

LAW ENACTED AUTHORIZING QUEZON TO ACCEPT CHINA DECORATION

For the purpose of promoting international friendship and understanding, His Excellency Manuel L. Quezon, President of the Philippines, is hereby authorized to accept the decoration known as the "Order of the Brilliant Jade," conferred upon him by the National Government of the Republic of China, and to wear the corresponding insignia of the Order. 32

QUEZON VOWS HE WILL NEVER TOLERATE ANY ABUSE OF POWER

I have been in politics all my life. No man can know the exigencies of politics better than I do; and no man can sympathize better with these exigencies under pressure of politics than I. But there are certain things that I will never tolerate, because they cannot be tolerated under any circumstances and one of them is abuse of power.

When any official of the government abuses the power vested in him, I shall deal with him rigidly. I may close my eyes on little favors that are made here and there when they do not constitute an illegal act. But every time an abuse of power is committed by anybody, and I do not care who he may be, I am going to deal with him drastically. 33

A WORTHY END IS TO BE REMEMBERED FOR GOOD THINGS DONE IN LIFE

For a man there can be nothing more sublime than to be remembered, after death, for the good he has done to all. Conversely, there is nothing more bitter to contemplate than that a person, resting peacefully in his grave, should be remembered with contempt and execration for the errors and iniquities committed by him in life. 34

QUEZON'S AMBITION: TO ACHIEVE THE BEST HE CAN FOR COMMON WELFARE

There are only two things which a person must think of and remember; that we desire to live long, though we be poor, so we might live in the memory of our compatriots and descendants; or that we be remembered, in bitterness, for the wrongs we might have committed.

I suppose you all know my idea that if a man dies, he is dead; but while he is living he must think of a life beyond the grave. I have mentioned this so that you may know what I cherish in my heart and keep uppermost in mind, which

is nothing else but to achieve the best I can for the common welfare. I am doing that through the exercise of extensive powers conferred upon me as President of the Philippines. 35

MLQ PROMISES TO LIFT STATUS OF LABOR BEFORE LEAVING MALACANAN

I am sincerely telling you that my heart is with you, and although my ideas at times do not coincide with yours, my heart is always inclined towards you. We must, therefore, put our hearts as well as our minds to work in order that there may be mutual understanding. And never forget that I always remember you.

Rest assured that before Manuel L. Quezon ceases to be President of the Commonwealth, or before he leaves Malacanan, you will have the rights that the majority of the workmen of other countries have, and we shall then be able to say that our country is a country where dignity and justice reign and where the people are peace-loving, free, and happy. 36

I LOVE THE POOR; THEY NEED MY HELP - QUEZON

My heart is with the poor, entirely with the poor. As a class I love the poor better than the rich. The rich does not need my love; he has everything he wants. The poor needs my help, and it is by loving him first that I shall be able to help him. 37

EX-SERVANT QUEZON VOWS TO AMELIORATE LOT OF POOR

My whole heart, I repeat, is with you because I, too, am a poor man's son. I was a servant once and I endured more than what you are suffering now. When I was a student I continually lacked many of the necessities of life, and I had almost no money for my studies and my living expenses. I can, therefore, understand well your present plight for which I desire nothing better than to give you a comfortable livelihood. 38

MLQ'S SOUL OR CONSCIENCE RESISTS WRONG TENDENCY

I have a particular friend who, whether I am seated or standing, lying down or rising, asleep or awake, and wherever I go, is always with me. This friend or companion is none other than my soul (or conscience - ABS).

What exalts a man is the purity of his soul, and if he resists any tendency to do wrong because his soul is pure, he thereby becomes sublime. And because my soul will never permit me to do anything which is not just, whenever my official duty demands that I enforce the law, even though I may deeply regret having to punish the violator, yet I will do so, be he my relative, townmate, or

intimate friend, so that my conscience and my soul will not reproach me.

That is why I told you that there is no more burdensome post than that of President of the Philippines. 39

GIVING LABOR PROPERTY - THAT'S QUEZON BRAND OF "COMMUNISM"

Bear in mind that there is no labor leader who can surpass me in my desire to promote your welfare. What I don't have I wish to possess. This makes me a "communist." But I am a "communist" in the sense that I would like to see the poor laborer enjoy perfect freedom to live his life in his own way and to acquire property; I don't belong to that type of communists who propose to seize what is not theirs, that which they have not acquired by the sweat of their brow.

I do not approve of this, because it is not fair to a man who owns something, for which he has spent a lot of time and energy, to be despoiled of his property by one who has neither put any capital nor labor into it. A person who is indolent and does nothing but wait for the time to eat and drink must not be classified as ^a property owner. It is likewise unreasonable to despoil a person of his property - which I will not suffer to happen - because it is a gross and flagrant violation of the dictates of reason and right. 40

TASK OF THE MOMENT: TO HARMONIZE HIGH IDEALS WITH REALITIES

All my sympathies are with the men and women and their children who earn their livelihood by the sweat of their brow. It is my daily hope and prayer that their lot may be improved, and that they may all enjoy the use of those commodities that have become almost prime necessities in our day. And it is my ambition which I do not consider at all impracticable, that in this beloved country of ours, so rich in natural resources, our national economy may be so readjusted that it will permit all who can and desire to work, to live a life of relative comfort.

But every reasonable man should see that the task is gigantic, almost chimerical, and that it will require for its accomplishments all the patience, wisdom, fairness, sense of proportion, and a practical mind - by which I mean, of one that can counterbalance and harmonize high ideals and high purposes with realities. 41

PRESIDENT QUEZON SETS OWN CRITERION ON FRIENDSHIP

Everybody is my friend, but nobody in particular is my friend. Every one who complies with his duty is my friend, but nobody who violates the law or neglects to do his duty is my friend. 42

I AM FOR THE PROLETARIAT, BUT NOT A COMMUNIST - QUEZON

My friends, my well-known sympathy for the masses of our people, my desire that the wealth of my country be not accumulated in the hands of a few individuals but distributed among the great masses of the population, are not only due to human sentiment that makes my heart go out to the poor; they are also due to a realistic view of what is best in the long run for the nation as a whole. I am for the proletariat, but I am not a communist. I am in favor of the proletariat because as you increase the buying power of the masses you multiply enormously the wealth of the country. 43

"HE HAS DONE THE BEST HE COULD FOR OUR SAKE!" - MLQ'S EPITAPH?

My countrymen, there is no man in the Philippines who has received so many favors from his countrymen as I have. There are few men in the whole world who have received the loyalty of their people for such a long time as I have and there is nothing that I can do to pay it back except to serve you unselfishly, devotedly with all my mind and heart, and that is what I want to do. (Applause.)

And I have no hatred for anybody; I have helped even my worst political enemies. I have love for all those who were with me and those who were against me. (Applause.)

I have no more ambition to amass greater political power, I have all that I want. My sole ambition is to do justice to everybody, to give you a good government that will be remembered by our children as an honest and fair government. (Applause.) It is my sole hope that on the day I step out of the presidency, you, my people, will say, "He has done the best he could for our own interest." 44

REAL MERIT LIES IN GIVING JUSTICE TO YOUR ENEMY, SAYS QUEZON

There is no merit in doing justice to a friend because your heart tells you to do it; the real merit is in doing justice to an enemy in spite of the fact that he is your enemy. 45

DIFFERENCE BETWEEN A CIVILIZED PERSON AND A SAVAGE

The difference between a civilized person and a savage is that the former considers the feelings, the rights, the ideas, and the thoughts of those with whom he lives and yet he refrains from exercising some of his rights in order not to inconvenience those who live in his community. Whereas, a savage does not care about the other people; he will do what will please him if he has the physical power to do it. 46

QUEZON ON TRUTHFULNESS: NO DIFFERENCE BETWEEN LIAR AND THIEF

To uphold truth is one of the most important duties of a rational and civilized man, if not the most important. Truth alone can serve as basis for organized society. To me a liar is just as bad as a crook; there is absolutely no difference between the liar and the thief. 47

MLQ STRESSES DIGNITY OF WORK, SAYS LOVE OF WORK ENNOBLING

Work is what dignifies a person; do any kind of work. The man who sweeps the streets is a much more respectable citizen than the man who possesses some wealth but does nothing except gamble. The man who tills the soil is a much bigger man than he who occupies a high position in the government but is a grafter and an exploiter of his people.

It is not the kind of work that we do or the position that we occupy which ennoble us but it is our love for work and our desire and honesty in doing that work well. That is what a noble work is; it makes no difference what we are. If we do our work well, if we render the service that we are expected to give, we can be proud of ourselves no matter how lowly the position we occupy in society is. 4

BUILDING COUNTRY NOT OF SAINTS BUT OF MEN WITH HIGH IDEALS

I am not building a country of saints; no, let the priests do that. I am trying to teach them - (the Filipino people - ABS) to be men and women with ideals of public morality, truthfulness, honesty, and laboriousness. 49

QUEZON TOUCHED BY EARLY MORNING VISITS TO WORKERS' HOMES IN TONDO

The conditions under which our laboring class and the poor live, present a problem which we should not fail to heed. Our officials should study and remedy the situation and, as for me, I consider it an honorable duty to remedy it in the shortest time possible.

Almost every day I see the deplorable condition of the places where our laborers live. Oftentimes, as early as five o'clock in the morning I walk and go to places in the city where laborers live, to enable myself to see actually where and how their houses are constructed. These visits which generally take me to Pandacan, Tondo and other places, really touch me.

I really feel in my heart the pitiful conditions under which the laborers and their families live - so entirely devoid of the comforts of life, their houses located in muddy places or built above stagnant pools which perhaps never dry up except during the hot season. 50

DEEP FEELING OF GRATITUDE IMPELS QUEZON TO GIVE BEST GOVERNMENT POSSIBLE

My desire to give to the Philippines the best government of which we are capable is inspired by more than merely the considerations that should actuate a man who is elevated to the presidency of a free country. I feel that my duty in this regard is more imperative, because of my deep feeling of gratitude to our people for the unstinted support that they have given me in the past and the unswerving faith and trust that they have reposed upon me throughout the long years of my public service and leadership in our struggle for self-government.

I feel keenly that I owe it to them, to give the country not only an efficient government, but also one under which they will find opportunities and propitious conditions for social contentment and individual happiness. This is my uppermost thought and ambition as I start the second half of my administration.

51

I'VE DONE MY BEST TO SAFEGUARD PEOPLE'S LIBERTIES, HAPPINESS - MLQ

I look back with satisfaction upon the first three years of the Commonwealth government, believing firmly that we have made a good beginning and have laid the foundation for future progress. I am not aware of many things in which we could have done better; I am convinced that, in all respects, I tried to do the best I could for the public welfare, sparing neither effort nor my health in the task,

My fervent wish is that at the end of my administration, the people would feel that I had done everything within my power to safeguard their liberties and happiness, that I had been faithful to their trust, that I had been just and righteous to all, and that I had administered their affairs according to my best lights both of heart and mind, under the guidance of a Divine Providence whose aid and blessings I invoke continuously for the security and welfare of our country.

52

QUEZON SAYS LAZY MAN WILL ULTIMATELY LOSE EVERYTHING!

My greatest ambition is to be able to help improve the living conditions of the laboring class, but no man or government can help you in this regard unless you first help yourselves.

The first thing that is necessary is that you should work and work conscientiously. Don't think that you can spend your time scratching your head or playing with a cock in your hand, and the government will take care of you. The man who does not want to work cannot be helped by any government, and even if we were to give that man a piece of land free, he would ultimately lose his land; he would sell or spend it in other ways, and since he is not working the day will come when he will lose everything.

The man who desires protection from the government must first comply with his duties to the government and the community in which he lives. And above all these duties, the most important is that he should work. The man who wants his

51/ Speech on the aims of the administration, November 26, 1938. Ibid., p. 252,

rights respected must first respect the rights of others. 53

I AM FOR LABOR BUT NO ENEMY OF CAPITALISTS, LANDOWNERS - QUEZON

It is not because I am an enemy of the capitalists and landowners that I side with you now. No, indeed; I have no enemy. My responsibility to my position is a responsibility to all, I have a duty to defend the rights of the property owners, and likewise those of the poor. I favor the laboring class not because I desire to grab the property of the rich; I side with them owing to the fact that in order that the rich may enjoy peace and his legitimate share, he must give what rightfully belongs to his laborers. 54

QUEZON SAYS USURY MUST BE STOPPED NOW; BUT QUERY REMAINS UNANSWERED

The usurious practice of lending money should be stopped now! What interest can a hungry and miserable man, who has nothing to eat, give? 55

MLQ ASSURES PEOPLE HE WILL TAKE CARE OF ERRING OFFICIALS

Your municipal mayors are the heads of your towns; your governor is the executive of your province. It is necessary that you respect them. If they commit any wrong, file charges against the erring officials and I will take care of them. 56

MLQ TELLS OWN TENANTS LAND IS THEIRS AS LONG AS THEY WORK WELL

Work hard and well. Consider the land you are working as your own, and as long as you comply with your part of the contract, you can rest assured of its use as long as you desire it. 57

WHAT YOU NEED YOU WILL GET, QUEZON ASSURES PEOPLE

When you need something, provided the government of the Commonwealth has the authority and the means to give it, you will always have it whether you open your mouth or not. That will always be true as long as I am the President of the Philippines. 58

QUEZON SHOCKED BY NALUNDASAN MURDER, HOPES KILLER WOULD NOT GO SCOTTFREE

I did not come here for some time because, to tell the truth, I was tremendously shocked by the crime that had been committed when the late Representative (Julio) Nalundasan was murdered.

Murders are not unusual things, they happen everywhere. And I hoped and prayed that the murderer would not go unpunished. I even expected the people of the province themselves would make every effort to have the author of the crime detected and punished. 59

MLQ PLEDGES HE WILL LEAVE GOVERNMENT FINANCIALLY SOUND

I will not leave my successor in office empty-handed, much less leave the government of the Philippines - when it shall have become independent in 1946 - with a problem in its hands: the lack of funds in the treasury.

No matter how much it may affect the success of my administration, even if it should mean the difference between a successful President and a failure, I would prefer to leave my office and be pointed out as a man who had failed rather than have the future of the Philippines exposed to bankruptcy. 60

PRESIDENT MORE INTERESTED IN COUNTRY'S^S FUTURE THAN IN HIS OWN

I am not interested in what I, myself, may do now; I am not interested in what the future might write about me for what I had accomplished during my term of office. I am more interested in the future of our country, and I will not sacrifice that future or subject it to any risk for whatever temporary victory I may win during my administration. Hence, I am not going to take any chances. If the income of the government is to be reduced substantially, I shall start closing the treasury so that my successor in office and, more so, the government of the Philippines will remain on solid foundation and be able to withstand the hard times that may come or which may likely come. 61

QUEZON'S CONCEPT OF HONOR IS ABOVE LIFE ITSELF

A man who has no concept of honor, who does not know that honor is above life itself, should never wear the uniform of a soldier. I have only that message to give you: They only are fit to live those who are not afraid to die, and a man is only entitled to live so long as he lives with honor. 62

MLQ'S LAST AMBITION: TO BE REMEMBERED WITH AFFECTION

My fellow countrymen, our common concern is to preserve democracy in the Philippines, and in framing our constitution and enacting our laws we should be guided not so much by what has been done by other people as by our own experiences and our own idiosyncracies and characteristics. We cannot merely copy the form of government that has been successful for it is not difficult to imagine that

what has been a success in the United States, for instance, may be a failure in the Philippines. Not only in the last years of my political life, but also of my natural life that I have received from the hands of our people all the honor, all the power a Filipino can receive under the form of government that we have. There is no longer any mystery, as far as I am concerned, in the glamor and pleasure that governmental authority has. My remaining ambition is to be remembered by our people as one who tried to reciprocate the evidences of affection that they have given me. 63

PRESIDENT'S SINCERITY IN RICE PLANTING RITES WINS OVER BULACAN FOLK

Countrymen, I shall now plant rice. (Applause.) Rice planting is a serious task, although I am telling you that my rice planting at this moment will just be a joke, because this noble work does not belong to us who are quite advanced in years.

A few years ago I planted rice seedlings in my hacienda (in Arayat, Pampanga - ABS), and the consequence was that I nearly died of exhaustion. It is really a difficult task - a task which should only be performed by young men and women for their bones are still soft and they can stoop without feeling any pain in the back. But an old person gets easily tired and fatigued in planting rice. 64

JUAN DE LA CRUZ FINDS A CHAMPION IN MANUEL L. QUEZON

When did Juan de la Cruz ever have any chance at social justice if not only upon the establishment of the Commonwealth? Under the American rule, a law in this country authorized the imprisonment of the kasama (tenant) who left his landlord while still pecuniarily obligated to the latter. But it was Manuel L. Quezon, let me tell you, who did away with that law. Is that freedom? Would that be freedom - allowing a poor tao who owes his landlord to be sent to jail - which you so proudly claim the Filipino people enjoyed under the former regime? 65

PRESIDENT DEFINES "MOST CULTURED MAN"

The most cultured man is not the man who boasts of his freedom to do as he pleases, but the man who is capable of considering all the time the comfort of others even at the expense of his own comfort. It is not the man who insists on being attended first that shows the better side of his culture and education, but the man who is ready to yield his place to a lady or to another man. It is not the man who holds on to the first bread that is served, but the man who permits

the other guests to serve themselves first, that shows his culture. 66

HE EXPLAINS WHY HIS HEART ALWAYS BEATS FOR POOR FOLKS

The anniversary of my birthday always brings back to my mind memories of the place of my birth - my parents, brothers, sisters, relatives and townsmen. I see my humble origin: we were all poor. My father and mother were school teachers each earning twelve pesos a month. Outside of school hours, my father attended to his small farm - less than three hectares in area. In youth, my playmates were sons of poor families, poorer than ourselves. Many of these playmates of mine are still living, in good health and physically strong, but they are just as poor as their parents were.

These thoughts, the memories of my youthful days, bring both emotions and sentiments which linger the whole year around, and are the moving force behind my acts as a public servant. They explain why I enjoy the company and conversation of the common people and why, sometimes, I spend hours chatting with them in their huts and barrios. They explain why my heart beats for the poor and my mind abhors the sight of millions of men, women and children bereft of the necessities of life, while others swim in abundance and luxury! 67

I WILL NOT FAIL THEM - QUEZON

I am profoundly grateful to the people of the Philippines for their confidence and trust. With the help of God I will not fail them. 68

118. QUEZON'S "ULTIMO ADIOS"

QUEZON'S TWO FAREWELL MESSAGES

(Translated from the Tagalog original)

October 23, 1934

TO THE FILIPINO NATION:

I have served you, land that I love, to the full extent of my capacity. You in turn have shown me a true and sincere faith. I will never forget till the last beat of my heart what you have shown me. I regret that I cannot be with you in the fortunate hour when you will be wholly free. But you are almost there and have to go but a short way.

So that the lives that were given up for you be not brought to naught and so that you as well as your sons may profit from the freedom that you will very soon receive, my last words to you are:

- 1) Value your honor, freedom and independence, fight for them to the last.
- 2) Always remember that you are one nation and your unity is the source of your strength, peace and happiness.

67/ Message on his 62nd birthday, August 19, 1940. Rivera Collection, Vol. V, pp. 2261-2262.

3) Do not pay heed to evil counsel, couched in beautiful words by those who wish for nothing but self-aggrandizement.

4) Regard America as the true ally of the Philippines and adopt the policy never to quarrel with America.

5) Beware of Japan. Let us not be wanting in fair dealing with her but we should never permit ourselves to be under her. We will not profit from it.

6) Be at peace with every nation, but from anyone except America ask nothing.

7) Be mindful of our indebtedness to Spain. The Spaniards have an affection for us.

Farewell, dear Motherland. Pray to God for me. And in Him repose your hope. He is most powerful and He is the origin and source of happiness. No nation will prosper and be happy that is without faith in God, or who forgets Him.

My God, bless my native land.

MANUEL L. QUEZON

TO MY FAMILY:

October 23, 1934

My sweetheart:

I have just arrived here at the hospital. I have to be operated on because the stone is big and they say it cannot pass through the ureter. It is, indeed, very fortunate that I did not return (to the Philippines - ABS) from Java, for had I returned I surely would have died, for no one there could have performed the operation.

My operation will take place the day after tomorrow. It is well that you are not here so that you may be saved from worry and trouble and you will know when I am already well by the help of God.

I am not worried about what would happen to me, because they say that the operation will not be difficult, and Dr. Young is the best of all surgeons in this kind of operation. And above all I have faith in God who is most powerful. Nevertheless, should any eventuality happen to me, I leave to you the care of our children. Have courage because if you fall sick no one will look after our children.

I regret that I have not dedicated my life to you and to our children, and yet it was you who gave me the strength to continue my services to our Motherland.

My life - I will not make this letter very long because I must not be worried, and during the operation I have to be in high spirits. To the few words I say, add the rest.

Forgive me for all my faults. My love for you has never changed. My heart and life are for you alone. No wife could have equalled you in kindness and in everything. All the happiness I received came from you. Now at this hour believe what I say because it comes from the deepest part of my soul.

Pray for me and, our children, pray for me, too. I am kissing, embracing you all, and praying to God for all of us. If this be the end, then I will be waiting for you in the peace of heaven, and I will never forget to watch over you

and through the Almighty to deliver you from all evil.

Farewell - my life,

MANUEL

Baby, Nini, Nonong:

My beloved children,

Be good. Obey the wishes of your Mother and love one another.

Pray for your Father and forgive him.

Till heaven, my loved ones.

Your Father.

This will not be placed in the mails if the result of the operation is successful.

119. RELIGION

MLQ CALLS ATTENTION TO RELIGION AS MORAL FORCE FOR GOOD

I am deeply convinced that religion is a moral force of incalculable value for good. Let me avow publicly the firm conviction that faith in God and the practice of one's religious belief keeps a man, perhaps more than any other consideration, within the bounds of law and helps him in the performance of his duties. This is not to say, of course, that an atheist or a man without religion may not be a good citizen. It is, however, true that a people who profess collectively some religion and who honestly and intelligently practise that religion which they profess, are in little danger of social disorder and disintegration. ¹

FR. RONAN NOT COMMISSIONED BUT GIVEN RANK OF P.A. MAJOR

I designated Father Edwin Ronan as my adviser in the organization of that branch of the Philippine Army known as the Chaplain's Service. Father Ronan had occasion not only to see, but also to practise in Europe during the World War and among the American Expeditionary Forces, this essential principle of (religious tolerance - ABS). With his great tact and ability, his tolerance for other people's opinions and beliefs, he will be a living example of what we expect from the chaplains of the Army.

I am not giving him a commission in the Philippine Army for he may not be commissioned - being an American, not a Filipino citizen. But as my adviser, and for the purpose of insuring the effectiveness of his help in this work, I am

authorizing him to use the uniform of the Army if and whenever necessary with the insignia of major. I am giving him the salary and emoluments corresponding to this rank. ²

RELIGION EXERCISES WHOLESOME INFLUENCE ON MAN, SAYS QUEZON

I am one of those who believe that religion exercises a wholesome influence upon man, both as an individual and as a citizen. I believe this to be undeniably true in the case of my own people. Of course, a man should love and practise righteousness upon its own appeal to his mind and to his heart - that is, to his conscience. And he should perform his obligations because it is his duty to do so. And it is conceivable that there may be men, without believing in God or professing any religion, to be righteous and good citizens. But how hard it must be to practise self-sacrifice to the extent of giving up one's life for his country or his fellowmen in a heroic performance of a duty unless he believes God and has faith in the hereafter. ³

PRESIDENT ON RELIGIOUS INSTRUCTION IN PUBLIC SCHOOLS

In a country like the Philippines, where we have so many religions, and where every religion is entitled to an equal recognition by the government, to make religious instruction a part of the curriculum will be to bring chaos to the school. ⁴

QUEZON WANTS RELIGIOUS INSTRUCTION ISSUE SETTLED ONCE AND FOR ALL

I regard the controversies that have arisen in relation to the bill on religious instruction of such seriousness and importance that it would be well for the whole nation and all the parties involved that they be settled now and forever. These controversies are pregnant with the seeds of popular dissension and I trust that the National Assembly will cooperate with me in my earnest endeavor to guard our country against the bitter strifes that have arisen in other nations due to similar or allied causes. Let us not, by our refusal to face these dangers, merely postpone the inevitable conflict which, notwithstanding the sound and patriotic purposes of those engaged therein, will inevitably degenerate into a religious struggle with all the accompanying evils. ⁵

CHIEF EXECUTIVE EXPLAINS VETO OF RELIGIOUS INSTRUCTION BILL

In consonance with most constitutions recognizing religious freedom and the separation of Church and State, our Constitution expressly prohibits the use of

^{5/} Message to the National Assembly, July 25, 1938. Ibid., pp. 518-519.

any public property, directly or indirectly, in the interest of any religion. Taken into consideration all these provisions of the Constitution, the conclusion is inescapable that the precept relating to religious instruction does not provide a limitation to rights that otherwise exist under the Constitution, but is permissive in nature and establishes a privilege which otherwise would not exist. This fact, by every rule of statutory construction, compels the strictest interpretation of such provisions. This was my conviction when I vetoed the measure. ⁶

HLQ'S PERSONAL STAND ON RELIGIOUS INSTRUCTION

It may not be amiss to reiterate that I am one of those who believe that religious instruction is not only good but also necessary for children of school age. As I stated in my veto message, I consider religion as a great force for good. It is stabilizing in its influence. It is good for the individual and good for the body politic. I believe also that the primary duty to teach religion devolves on the parents, if and when those parents profess a religion. Of course, it is a part of the essential functions of a church to teach religion to its faithful. I am prepared to give every facility for the teaching of religion to the youth of our country in accordance with the laws of the land. ⁷

RELIGIOUS INSTRUCTION WILL UNDERMINE CHURCH, STATE SEPARATION

Much as I believe that religious instruction is necessary for our youth, and, therefore, much as I sympathize with the idea that somehow the government should promote the teaching of religion, I must emphatically state that if this can be done only by undermining or in any way violating the doctrine of the separation of Church and State, I am irrevocably opposed to it. This attitude is dictated by what I consider my duty under the Constitution and by my own personal convictions. After all the obligation to teach religion resides in the parents and the Church, and should they comply with this duty, the spiritual need of the people in this respect would amply be provided for. A government that authorizes optional religious instruction in the public schools, as it is done in the Philippines, with the limitations imposed by the Constitution, is already supplementing in no inconsequential way that duty of the parents and of the Church. With the opportunities we offer in the public schools at present, the government cannot be blamed if religion is not more generally taught.

120. SCHOLARSHIP

ONLY GIFTED ONES SHOULD BE ENCOURAGED TO TAKE ACADEMIC CAREER

University or college education should not be the ambition of every young man and young woman. Only those intellectually gifted should have that ambition. This is particularly applicable to the children of poor parents. While poverty is not in itself sufficient reason for denying anyone the prosecution of higher studies, yet only those poor students with extraordinary talents and will power should be encouraged to follow an academic career. The government itself might provide scholarship for those deserving students.

121. S C I E N C E

MLQ PUTS EMPHASIS ON HIGH QUALITY OF MEDICAL PRACTITIONERS

It cannot be denied that money is of prime importance in the administration of public health. However, we should not lose sight of the fact that the quality and training of medical practitioners and of public health officials, as well as their interest in the welfare of others, are of equal if not of greater importance. ¹

* * *

I do hereby create and constitute a committee to study the qualifications of foreign physicians who may desire to practice medicine in the Philippines. ²

GOVERNMENT GIVES DUE RECOGNITION TO WORK OF SCIENTISTS

I know the little attention and help that the government has given the few men assigned to do research work. . . In our bureaucratic government, attention has been focused on the occupants of higher positions, regardless of whether their work is less important than that of their subordinates. However, in as much as all good governments are bureaucratic in form, I have to stand by it.

As you know, I am a revolutionist by nature, and my government is a revolutionary bureaucratic government; therefore, I want you to realize that any importance this government gives to a man in the service is measured not by his rank in office but by the importance of the service which he renders.

So it makes no difference to me how you rate in the official hierarchy. The government will give full recognition to your work, no matter how humble your official position may be. I want to give every encouragement to our scientists who do research work. ³

DOCTORS PRAISED, BUT FEW HEARTLESS ONES ARE CONDEMNED

The practice of medicine is, of course, a profession. But it is more than that. It is also an avocation; for the man who follows this profession must be inspired by motives other than merely to earn a livelihood. He who has no innate love for humanity beyond and above that which the average human heart feels has no business to belong to your fraternity. The doctor who can disregard the call of a patient without compunction, simply because that patient cannot pay as much as he thinks he should be paid for his service, is a disgrace to the profession. ⁴

SCIENCE HAS PROGRESSED BECAUSE OF MEN WHO HAVE DARED POWERS THAT BE

Science, whether exact science or not, has made progress only because there had been men who dared the powers that be at one time or another, even dared, not only the public opinion but also the accepted scientific theory of the day, to profound and express their own convictions. Science has made progress because some men had insisted that the world was round even when they were undergoing hunger and privation and were being burned at the stake. ⁵

122. SELF - RULE

NP AFFIRMS FILIPINO ABILITY TO RULE THEMSELVES

In the Philippines I do belong to a political party that defends the right of every people to be free. The Nacionalista Party is the party that believes, affirms and demonstrates the ability of the Filipino people to govern themselves, and also asserts their right to be free and independent. ¹

QUEZON INTERPRETS "PHILIPPINES FOR FILIPINOS" POLICY

The provision of the Organic Act creating the Philippine Assembly, which excludes everybody from acquiring public lands, except Filipino citizens, is the one provision that convinced the Filipino people that the policy of the American government in the Philippine Islands is a policy of self-denial and altruism, or, as it has been officially termed, the policy of "the Philippines for the Filipinos." ²

SELF-GOVERNMENT IS BIRTHRIGHT OF EVERY PEOPLE - QUEZON

I repeat, and I mean every word of it, that intellectual advancement, public improvements, and material prosperity alone will not make the Filipinos happy and contented under alien rule nor induce them to concede the necessity of that rule. If any man thinks that he can purchase the Filipino people with material prosperity and intellectual advancement, and so make them forget their rights as men and as a nation, he is utterly mistaken.

Ask the bird if it prefers a golden cage to the air and the sunshine; or ask Patrick Henry to explain his choice between liberty and life.

Self-government is the birthright of every people regardless of how that right is exercised. ³

MLQ ASSERTS FILIPINOS' RIGHT TO GOVERN OR MIS-GOVERN

I am a nationalist leader. I believe in the nationalist theory that every

people have the right to govern or even misgovern themselves. I say that every people who can establish a government under which they may peacefully live and improve themselves, are capable of self-government. ⁴

GOVERNMENT RUN NEITHER LIKE HELL NOR HEAVEN

I would rather have a government run like hell by Filipinos than a government run like heaven by Americans. Of course, the Filipinos will never run a government like hell; and I suppose that while you have a superior government here you cannot run a government like heaven yet, either. ⁵

FILIPINOS HAVE DEMONSTRATED THEIR ABILITY TO RUN OWN GOVERNMENT

We have really given, in every possible way, evidences of our capacity to carry on not only a central government in the Philippine Islands, but also a governmental system in the different municipalities of the archipelago. We have some very efficient and patriotic officials in the government elected by the people. We have some that are not so efficient and not so patriotic, but I suppose that is not the exclusive prerogative of the Filipino people. One thing I can tell you: so far we have not had in the cabinet any member investigated, nor any member of the House or the Senate sent to jail. ⁶

OUR GOVERNMENT IS NOT PERFECT BUT . . .

Of course, our government is not a perfect one, but when we are given independence we will have a perfect government, as far as that can be accomplished by any nation. I would like any one to point out to me a government that is perfect today. But we can have and we will have a government which, on the whole, will be carrying on the business of the people to their profit and advantage, and I think that is all we can hope for. ⁷

FILIPINOS HAVE THE RIGHT TO RULE THEMSELVES, ASSERTS QUEZON

The Filipino people are held responsible for the government of the Philippines to the extent that their very national liberty is at stake. They have therefore every right to expect, and every duty to demand that they be allowed to direct and control this government, so that if they fail, they should, at least, fail through their own fault and not because of others' fault. ⁸

CAPACITY OF FILIPINOS TO SET UP AND MAINTAIN OWN GOVERNMENT

The political capacity of the Filipino people to set up and maintain an independent government, republican as well as democratic in form and substance, has been amply tested and satisfactorily proven. ⁹

BRITISHER HAS FAITH IN GOVERNMENT RUN BY FILIPINOS

I think that it was a Britisher, a very prominent businessman in Manila, who was among the first foreigners to express absolute faith and confidence in the future of the Philippines under a government managed by the Filipinos.

We sincerely believe that the presence of England in the Far East is in the interest of peace and civilization. ¹⁰

AFFIRMS FAITH IN FILIPINO CAPACITY TO SURMOUNT OBSTACLES

In every line of human endeavor and in every phase of national existence we have equally important problems to solve, and similar difficulties to overcome. To stand alone as a free nation, we must be self-reliant and capable of self defense. We must be self-sufficient, insofar as this term implies a balance of earning power against necessary expenditure. We must be prepared to assure the progressive education and training of our less favored classes, and to raise their standard of living to a level compatible with a free citizenry in a true democracy. We must be prepared to carry on our own relationships with other countries and, finally, we must develop our complete resources to the continuous benefit of all our people. Again and again I have expressed my confidence in the capacity of the Filipino people to meet and overcome these tests. ¹¹

FILIPINO CAPACITY FOR SELF-RULE AMPLY DEMONSTRATED

On the threshold of the fourth year of the Commonwealth, the Philippines finds herself full of the spirit of thankfulness for having been the fortunate recipient of Almighty's bounty during the year that has closed. Experiencing progress that is a compliment to the proven ability of the Filipinos for self-rule, the end of 1938 found the Commonwealth government well established politically and economically, having undergone no serious social setbacks that would have impeded the national growth of a young country that is fast acquiring the blessings of complete liberty. ¹²

personal sacrifice through which this war must be won, but also of those principle of mutual respect and equality among nations which are basic postwar aims of the United Nations.

The Filipino people have for all time vindicated the policy of self-determination and have lighted a guiding beacon for the postwar world which is now in the making. ¹³

123. SELF-SACRIFICE

ASKS CANDIDATES FOR PUBLIC OFFICE TO ESCHEW SELFISH INTERESTS

We should be unworthy of the liberties and rights granted us by the Jones Act were we to make use of them for the promotion of selfish interests. The desire to hold public office is a laudable one when it is prompted by the desire to serve the public interests. The candidate or political party, however, that is prompted by selfish motives alone is guilty of defrauding the nation. The people must in each case weigh in the balance the purity of the intentions of those who solicit their votes. ¹

NO SACRIFICE TOO GREAT FOR CHILDREN'S SAKE - QUEZON

No sacrifice, whether it be personal or national, made at present or in the future for the welfare of our children, should ever be too great, for whatever is good for our children must necessarily be good also for our country. ²

MORE SACRIFICES NEEDED ON EVE OF EMERGING NATIONHOOD

Our aim will always be the welfare of the people as a whole. To attain this objective, we shall, if necessary, continue to sacrifice for the common benefit. The sacrifices made in the past laid the foundations for our national life. I am afraid that much more of the spirit of self-sacrifice will be required of us in the Philippines today. We are emerging into nationhood under most adverse circumstances. It is necessary that we bear in mind constantly our objective of saving our country above all things else, and that in order to save it we must demand personal sacrifice of every man and woman of this country. ³

have seen it in the movies. You do not realize yet that you may see it right here, and you are not getting ready for it. Nobody is getting ready for it. Nobody is telling you that you must get ready for it. I am not telling you that war will come. It may never come. I hope it will not come. But if it should come, it will be a good thing for all of us, for we will learn to suffer and to die. And no people are worth a damn unless they know how to suffer and know how to die. I wish these educators of ours here will start telling you to write poems or speeches speaking of your duty to work and to suffer, or, if necessary, to lay down your lives for our country. That is life. ⁴

MY WHOLE LIFE IS DEVOTED TO ALL - QUEZON

I am an old man and about to die, but I am leaving my children behind me, children who are as young if not younger than you are, I would not today be able to face these fruits of my own soul and flesh if I did not know that my whole life has been devoted to their happiness, freedom and security. And I could not have done this for them without doing it also for you. They cannot be free if the rest of you are slaves. ⁵

124. SEPARATION OF POWERS

AMERICAN GOVERNOR GENERAL, PHILIPPINE SENATE IN STALEMATE?

We cannot judge the ability of the Filipino people for self-government by what is taking place in the government of the Philippines today, nor can you have the opportunity of solving how much can you do in the Philippine Islands under the present law, because while the Legislature cannot enact laws without the approval of the Governor-General, the latter cannot do certain things without the consent of the Philippine Senate, and cannot enact laws without the approval of the Legislature. ¹

PHILIPPINE SENATE HAS POWER OF CONFIRMATION

We have approved every appointment made by the Governor-General which we thought we should approve. We have felt that we are as much bound by our oath to exercise our own discretion as to whether appointments should be confirmed, as the Governor-General is, in making his appointments, but, unfortunately, there have been some cases where we did not feel that we should not confirm the appointments. However, we have not disapproved any appointment made by the Governor-General on political grounds. If we have disapproved an appointment, it was because we either did not think that the man had the ability or the character required for the position. I can cite a few instances which will prove that the Philippine Senate has acted in good faith and in the best interests of the government.

So, in the exercise of the power of confirmation, we have only declined

to approve such appointments as we felt it was our duty so to do. If you deny the Senate this right you might as well deprive it of the power to confirm appointments.²

"BULLETIN" STORY FALSE, MISCHIEVOUS - QUEZON

The news appearing in this morning's Bulletin to the effect that "the office of the American High Commissioner has turned thumbs down on the proposals to float bonds in the Philippines for insular public works projects," is false as it is mischievous.³

LEADERSHIP NOT INCOMPATIBLE WITH SEPARATION OF POWERS

There is no government on earth that could run if the theory were advanced that the National Assembly or the legislative department should oppose everything that the Chief Executive recommends. There must be leadership somewhere in the government and that leadership is not incompatible with the separation of powers.⁴

SEPARATION OF POWERS DOES NOT RULE OUT COORDINATION

For the separation to exist in theory as well as in practice, it is not essential that there be constant friction between those departments. On the contrary, in order that this theory of government can succeed, there must be coordination in the exercise of the powers of the three departments, because it is only through coordination that an effective and efficient government can be given to the country.⁵

125. SOCIAL JUSTICE

SOCIAL JUSTICE MORE BENEFICENT IF DONE SPONTANEOUSLY

It is our boast that we are the only Christian nation in the Far East. Our boast will be an empty one if we do not show in actual practice that we are Christians. Christianity's highest teaching is to love our fellowmen. Let us love by helping him and his family live, happy and contented.

If I were allowed to make a plea as I celebrate my (58th) birthday today I would unhesitatingly ask everyone who is listening to me to join in one concerted effort to improve the living conditions of our masses. It is my primary concern because I would like to see it done spontaneously by those in a position

to do so without our having to impose it by legislation. Society is more beneficent if it comes as a matter of sentiment and not of law.

MAN'S RIGHT TO LIVE IS SOCIETY'S DUTY TO UPHOLD, SAYS MLQ

The first and most fundamental right of man is his right to live. This right imposes upon a well-organized society the duty to provide him with the means for his existence. If other countries around us fail in this primary duty, it is no good excuse for us to evade it. ²

SOCIAL JUSTICE HAMPERED BY STRUGGLE BETWEEN "HAVES" AND "HAVE NOTS"

The struggle that we see everywhere is between those who have and those who have not; the former trying to keep everything they have, mindless of the misery of those who have not, the latter trying to take away everything from those who have, forgetting that they have worked for it and are entitled to the fruit of their labor, whether manual or mental. ³

GIVE PART OF YOUR PROPERTY TO COMMUNITY, RETAIN THE REST - QUEZON

It is time for us to sound the warning: Let no one believe that he can still continue exploiting his fellowmen without in the end suffering from it. He who owns had better give a part of what he owns to the community in which he lives if he wants to conserve the rest for himself. ⁴

MLQ STRESSES LINK BETWEEN SOCIAL JUSTICE, NATIONAL DEFENSE

If we give the laborers good wages, if we give the farmhands the just participation which they deserve, if we treat the poor with the same respect as we do the rich and if, at the same time, we teach our youth, besides their rights and duties of citizenship, the use of modern weapons for defense, we shall have here an ideal country in the world - a country which every nation will respect and which nobody would dare invade, a country where we can lead a happy life - happy, because we shall feel the protective influence of the reign of social justice and the satisfaction of seeing our compatriots all equally happy and prosperous. ⁵

TWIN GOALS: NATIONAL DEFENSE AND SOCIAL JUSTICE

Let's have the capacity and be in readiness to defend our shores against foreign foes and at the same time establish and maintain social justice. ⁶

SOCIAL JUSTICE A CONSTITUTIONAL MANDATE

Social justice is a constitutional mandate which has constantly received first attention from my administration. ⁷

ONWARD MARCH OF SOCIAL JUSTICE IS UNSTOPPABLE

Let no one fool himself into believing that any man or group of men or any class can successfully oppose the onward march of justice. Once started there is no power that can stop or hold it back. ⁸

SOCIAL JUSTICE IS ENSHRINED IN CONSTITUTION

Our Constitution embodies the living ideas of our time. It contains the solemn declaration that "the promotion of social justice to insure the well-being and economic security of all the people should be the concern of the State." And to enable the State to perform this sacred duty, it invests the government with extraordinary powers so that it may enact and execute laws designed to promote the well-being of the people and to insure justice in the relationship between capital and labor. ⁹

QUEZON'S SOLEMN COVENANT WITH PEOPLE: DO JUSTICE TO EVERY MAN

"Do justice to every man" - that is the solemn covenant that I have entered into with our people when I took my oath of office as President of the Philippines. These words "do justice to every man" which are found in my oath, do not, of course, mean that the President of the Philippines has been vested with any judicial power to adjudicate cases between the government and its citizens, or between the citizens themselves. The judicial power is vested exclusively in the Supreme Court and in the inferior courts now already created or which may be created by the National Assembly. But the words "do justice to every man" mean that the Chief Executive must always be alert and vigilant, so that justice may reign supreme over this land, and this he can accomplish only by a careful and conscientious exercise of his power to appoint members of the judiciary, and by his readiness to take action, in the manner prescribed by law, against judges who may be derelict in the performance of their duties, or, short of committing malfeasance in office, to arraign them at the bar of public opinion, whenever in his opinion the denunciation of any wrongful act, even though performed in good faith, would be in the public interest. ¹⁰

QUEZON ADMINISTRATION IS COMMITTED TO SOCIAL JUSTICE

My administration is committed, by its pre-election platform, to ameliorate the lot of the common man. The Constitution impose^s upon this government the inescapable duty of promoting social justice. As the head of this government, it is my duty to exert my influence to secure the cooperation of every branch of the government to redeem our pledge and, above all, to carry into effect the mandate of the Constitution. Were I to keep silent in the face of what I consider a disregard of rights vouchsafed by the Constitution and the laws, not only would I be recreant to my duty but also the people would lose faith in their government. This must not and shall not happen, if I can help it. ¹¹

SOCIAL JUSTICE A CLEAR, CATEGORICAL MANDATE OF CONSTITUTION

The promotion of social justice by the State is a clear and categorical mandate of our Constitution. Our platform imposes upon us the high duty of enacting measures that will improve the living conditions of the laborer and of carrying these measures into effect. We must see that laws are enacted which will not permit the exploitation of the employee by his employer and which will leave no loopholes that may be used to defeat the ends of justice. We must rely for the security of this new nation, not so much upon the might of brutal force, but upon the undivided loyalty of every citizen to the government - a loyalty founded upon individual consciousness that this government is his, and that it exists only for his protection, for his liberty, and for his happiness. ¹²

MLQ APPEALS TO ALL TO INSURE SOCIAL JUSTICE

It is high time that all the branches of the government cooperate with one another, and with them the whole community and every good-hearted man and woman, so that at last in this dear land of ours social justice - real justice - in the relations of man to man, may reign supreme.

Our people are patient and law-abiding. They love peace. They have not lost their faith either in the executive, the legislative or the judicial branch of the government. As the government is now in the hands of their own countrymen, they have become hopeful and are placing the realization of their dream for a better day in our clearer understanding of their lot, our better knowledge of conditions prevailing in the country, and in what should be the natural craving of our hearts to serve them with all the power at our command - they are the flesh of our flesh, the blood of our blood. ¹³

OPPORTUNITY TO CREATE NATION SANS POVERTY, PRIVILEGED CLASS

Gentlemen of the National Assembly, allow me to emphasize the need of

^{11/} Ibid., p. 152.

^{13/} Ibid.

giving the common man in the Philippines the benefits that the citizen of every progressive democracy is entitled to receive. An opportunity has been offered us that no past or coming generation has had or will ever have - that of creating a nation where there will be no privileged class, where poverty will be unknown, where every citizen will be duly equipped with the knowledge that will enable him to perform his duties and to exercise his rights properly and conscientiously, and where every man, woman, and child by his fireside will be thankful to God for living in this beautiful and blessed land. 14

SOLUTION OF SOCIAL ILLS IS REAL TEST OF DEMOCRACY

We are earnestly concerned with social justice. Without a strict application of social justice to all elements of the community, general satisfaction of the people with their government is impossible to achieve. Here, in the just and equitable solution of social problems, is the real test of the sufficiency of democracy to meet present-day conditions of society. 15

MLQ BEWAILS OBSTACLES IN CARRYING OUT SOCIAL JUSTICE POLICY

In order that we may be able to carry out successfully our policy of social justice, we need the cooperation not only of the public in general, but also of capital and labor themselves. Every movement of labor that creates an embarrassing situation to the government is an obstacle that labor itself places in our way to expedite the march of progress in the realization of our policy. 16

SOCIAL JUSTICE DOES NOT MEAN COMMUNISM - QUEZON

Social justice does not mean dispossessing the rich of his lawful property and distributing that property among the unemployed. Social justice, in other words, does not mean Communism . . . Social justice involves all; it means justice for every constituent element in the country. 17

JUST, STABLE GOVERNMENT INSURES SOCIAL JUSTICE TO LABORERS

Any government capable of consulting the feelings of the workingmen will be a just and stable government. . . It is the duty of all not to tolerate bad practices in our country, hence I will not tolerate them, while I am at the helm of our government. 18

SOCIAL JUSTICE MEANS JUSTICE TO EACH AND EVERY SOCIAL GROUP

If there is going to be faith in the justice and impartiality of this government in cases arising between capital and labor, or between the different constituent parts of the community, we must at all times not only act justly and impartially, but also be careful that our actions have no appearance of partiality. Social justice can only mean justice to each and every social group. If my administration is placing special emphasis on the need for ameliorating the conditions of the laboring class, it is not because we are against the capitalists or the rich, but it is because the laboring class in the Philippines has not received its due, and therefore stands in need of the help and protection of the government in order that its rights may be properly recognized and accorded. ¹⁹

QUEZON ASKS RICH NOT CHARITY BUT JUSTICE FOR THE POOR

He who governs with his heart and not with his mind is liable to do injustice and also to make mistakes. We must govern with our mind; therefore, when I proclaim social justice I mean justice. I am not asking the rich to give charity to the poor. I am asking them to do justice to the poor, while I want the poor to recognize the rights of the rich. ²⁰

SOCIAL JUSTICE DOES NOT MEAN FAVORING POOR, RIGHT OR WRONG

Social justice does not mean favoring the poor whether he is right or wrong. Social justice means treating justly every man and every class. That means social justice, and treating them justly means giving each man or class its due. ²¹

JUSTICE IS FIRST OBJECTIVE OF GOVERNMENT, SAYS QUEZON

I want you to know that I have but one purpose in the exercise of the authority and in the performance of the duties of my office - to do justice to the poor and the rich alike. Justice alone can justify the existence of a government. And justice is the first objective of government. It is my hope that every official of this province, from the sub-governor to the mayor, down to the last teniente del barrio, will realize that he can cooperate with my administration only by not committing abuses and permitting no one to commit them. ²²

QUEZON INSISTS SOCIAL JUSTICE IS FOR EVERYBODY

Social justice means justice for everybody. It does not mean justice for

the rich or injustice for the poor; that, also, would not be justice. It does not mean justice for the Nacionalista Party alone and not justice for the Frente Popular. It means justice for everybody, for our friends and for our enemies - justice for those we love and justice for those we hate. There is no merit in doing justice to a friend because your heart tells you to do it; the merit is in doing justice to an enemy in spite of the fact that he is your enemy. ²³

QUEZON'S UNFLAGGING EFFORTS TO PROMOTE SOCIAL JUSTICE

In the field of public welfare, I have been unflagging in my effort to promote social justice and to ameliorate social conditions among the masses of our people. The attainment of these objective depends not only upon economic and moral factors, but also upon the people themselves, for only through productive work can social standards be improved. ²⁴

SOCIAL JUSTICE IS JUSTICE FOR LABORERS, CAPITALISTS, RICH AND POOR

I want to give labor this warning: The government has formulated a program of social justice and is determined to carry it out. But social justice means justice for laborers and employers, the poor and the rich alike. Over and above the interest of any class or group, is the interest of the people; and in upholding the supremacy of public interest there will be no hesitation and no compromise. I shall use all the power in my hand towards this end in the firm belief that in doing so, I am keeping faith with democratic ideals and institutions and promoting the orderly development of our national life for the benefit of all, most especially of the laboring masses themselves. ²⁵

NATION CAN ENDURE ONLY IF SOCIAL JUSTICE IS GIVEN TO ALL

We cannot be the servants of a privileged class. We are the servants of the whole people and we shall not permit any injustice to be done.

We are living in an age in which civilized society can only endure if justice is accorded equally to the rich and to the poor. Those who have can only hope to keep their possessions indefinitely, if they share part of their profits with those who work for them. This is a question of justice, not of charity. A man is more entitled to the fruits of his labor than the proprietor to the rent of his property. ²⁶

ARCHAIC SOCIAL SYSTEM CAN'T BE CHANGED OVERNIGHT - QUEZON

It has been my most earnest endeavor to ameliorate and to secure for the

workingmen just and equitable treatment. However, the labor problem is a very complicated one, for it is interwoven with many phases of our daily life and century-old traditions. We have to change an archaic system which we have inherited from our ancestors and which has grown out of social conditions which cannot now be tolerated. But it is not merely a matter of enacting progressive laws which have proven successful in other countries; our task - and it is a difficult task - requires that we adapt them intelligently and constructively to our social and economic structure, lest we so disorganize our industries as to bring about a total economic collapse which, in the end, will do more harm to the laboring class itself than to the other elements of our community. ²⁷

JUSTICE, NOT FORCE, CAN ASSURE SOCIAL, POLITICAL STABILITY

It is impossible to have our political and social institutions stabilized unless we dispense justice to everybody. Justice alone can maintain the stability of any country during these days; force cannot do it. In order that the people may give their loyal support to the government, in order that the people themselves may constitute the best guarantee for peace and order, it is necessary that we render justice to the people. The government alone cannot do justice to the people it needs the cooperation and help of all the elements of the community. Everybody must realize that the most selfish interests demand that you should do good to others in order that others may do good to you. . . . Only the people of those countries who consider it their duty to do good to others will not go through the blood trials that others have passed. ²⁸

QUEZON'S GOAL: TO GIVE EVERY MAN A DECENT LIVELIHOOD

This is our ultimate goal: That the political rights vouchsafed to all our people by the Constitution be made real and effective by affording to every person willing to work the opportunity to earn a decent livelihood. ²⁹

FOUNDATION OF SOCIAL JUSTICE MORE PERMANENT, ENDURING

We have to rebuild our national structure on the solid and permanent foundation of social justice. Laws alone will not do it. We have to fight against prejudices, wrong notions, and outworn customs and traditions. We have to preach the fundamental principles of Christianity, and make them the underlying philosophy of our political and social institutions. ³⁰

QUEZON'S PRIMORDIAL AIM: TO AMELIORATE LOT OF WORKINGMAN

I am telling you frankly that my primordial aim in life is to help my impoverished countrymen, especially the farmhands and factory laborers. If during my administration I could give comfort to the life of the laborers, I would more than consider it as divine luck, because I then would have had an opportunity to help my people. If you want to see what I have been wishing for night and day - that our nation be peaceful, our people progressive and happy, and the lot of the poor class ameliorated - then lend me your cooperation and do not commit any disturbance or any untoward act. Give the government sufficient time to uphold your rights. Do not believe any person who tells you that by being obdurate and by going against the law or the government, your rights would be respected. You will not get anything by so doing. ³¹

I DON'T WANT TO ACHIEVE SOCIAL JUSTICE AT GUNPOINT, SAYS QUEZON

My countrymen, for your rights to be respected, for you to attain what is your due, and for you to improve your livelihood, it is not necessary for me to supply you with guns. I am confident that, through my administration, your rights will be upheld in the courts. I shall always adopt measures designed to maintain peace and order. If I were to give you guns, it would seem as if we were having a civil war here. What will other nations say about us if they learn that social justice has triumphed in our country only because all the people have been armed with guns? ³²

FOR THE RICH TO LIVE IN PEACE, THEY SHOULD GIVE WORKERS THEIR DUE

In order that we can expect every laborer to love and defend his country, it is necessary that we make him feel and realize that he enjoys, ^{at least,} a moderately prosperous existence. It is not that I am siding with the laborers because I am an enemy of the capitalists or landowners. No! I have no enemies. My responsibility to my position is my responsibility to all. I have a duty to protect the rights of the property owners as well as those of the "have nots"; I am not favoring the workingman because I wish to grab the property of the rich; I side with him because I believe that, for the well-to-do to live in peace and enjoy what rightfully belongs to them, they should give the laborers their due share. ³³

EVERYONE GETS WHAT HE DESERVES UNDER SOCIAL JUSTICE

Social justice does not give preference to anyone, be he rich, poor, wise, or in authority. It grants to everyone his due. More so, it does not mean that all that you may desire will be given to you. You should realize that you are not

^{31/} Speech at Barrio Cruz-na-Daan, San Rafael, Bulacan, January 31, 1939. Ibid., p. 13.

^{33/} Ibid., pp. 27-28.

the only ones profiting by social justice, because you are the ones who do not receive benefits. Social justice means that you should receive only what you rightly deserve; social justice does not mean that if you have no property you will be given a piece of land, or that the land of a landlord be seized from him and given to you. ³⁴

GOVERNMENT SET TO AMELIORATE LOT OF WORKINGMAN

That there is need of improving the working and living conditions of the wage earner in the Philippines, be he a factory or a farm laborer, can hardly be disputed; that in many instances injustices and abuses are being committed against the workingman and the peasant, is an undeniable fact; that the income of the laborer is too low to permit a substantial improvement of his living conditions is generally admitted. To correct these injustices and abuses and to ameliorate the lot of the masses are the prime concern of my administration. ³⁵

CONCEPT OF PRIVATE PROPERTY REVISED UNDER SOCIAL JUSTICE

Social justice cannot be achieved by constitutional precepts or legislative enactments alone. We must radically revise our concept of private property by emphasizing the social responsibilities of wealth. We must indoctrinate every citizen with the ethical principle that he is his brother's keeper. We must arouse and foster the individual's responsibility to the community of which he is a part. These are no vain words. We may forget these duties only at the cost of our peace and tranquility and, in the end, even of our national liberty. ³⁶

WHAT WILL BE COUNTRY'S FUTURE IF RICH WALLOWS IN LUXURIES, POOR IN VICES?

A farmer in this country will not prosper, be he granted what is due him for his labor, unless he learns to save money. The thing that impoverishes us Filipinos, rich and poor alike, is extravagance. The difference lies only in the ways the rich and the poor squander their money. The rich pamper themselves with luxuries, such as automobiles, beautiful homes, grand pastimes, etc., while the poor indulge themselves in vices, such as gambling, cockfighting, and town fiestas. What has the future to offer a person who has the propensity of squandering money when he has but little to squander? ³⁷

PEOPLE MUST REALIZE GOVERNMENT'S EFFORTS TO IMPROVE THEIR LOT

It is necessary that he (the poor man) enjoy economic amelioration. It is also necessary that he understand and feel that he is being aided by the government

in the protection of his rights and prerogatives; that his country is giving him happiness; and that he does not exist as a mere slave. ³⁸

FATE OF WORLD AT STAKE IN APPLICATION OF SOCIAL JUSTICE

Whether or not you believe in Christianity, remember that the fate of the whole human race is at stake in the application of social justice. Man has come of age. The spread of knowledge and the progress of science and invention have brought about the enlightenment of the people. The average man knows that his right to live is as sacred as that of any other, even if the latter were born with a silver spoon in his mouth. ³⁹

SOCIAL JUSTICE HIGHLIGHTS FIVE-YEAR ACHIEVEMENTS

Social justice has been a major concern of our government during the last five years. To accomplish this objective, we have, among other things, set a minimum wage scale in public works, created the Court of Industrial Relations to settle labor-capital disputes, organized the National Land Settlement Administration to help the poorer classes transfer from congested districts to unoccupied areas, purchased haciendas to be subdivided and resold to the tenants, embarked on housing schemes for workers and low-salaried employees, intensified the campaign against usury, revised the system of taxation so that the tax burden would be borne by those best able to carry it, passed legislation to protect the rights of tenants, appointed officials to defend the poor, encouraged the organization of associations for marketing and purchasing among producers and consumers, and extended aid and credit to small farmers and businessmen. ⁴⁰

126. SOCIAL REVOLUTION

SOCIAL JUSTICE NEEDED TO FORESTALL ARMED REVOLUTION

The condition of the laboring class deserves our special attention. No duty of ours is more important than this. The world is witnessing a revolution against the established order. The poorer classes think that they do not receive the attention and the benefit to which they are entitled from the government and from the society in which they live.

We are indeed fortunate in that our country is free from abject misery such as is known in other countries, and the people are not oppressed. There is, therefore, no general discontent. There are no indications of a threatening social upheaval. But we must act with foresight. We must anticipate what just demands the laborers in the fields and in the factories may wish to make and try to meet them now. We must not begrudge them their rights and we must do what we can to assure

their well-being. ¹

REVOLUTION FROM TOP MAKES BLOODY REVOLUTION UNNECESSARY

As a great statesman would have it, the revolution on the streets can be avoided only by effecting a revolution in the high spheres where governmental policies are shaped and put into practice. ²

QUEZON FOR PEACEFUL, GOVERNMENT-INSPIRED SOCIAL REVOLUTION

The government is now trying to make what might be termed a social revolution. I call it a social revolution because we are attempting to change some established practices in our economic life. It is better that this social revolution be started by the government, because a revolution started by the government will always be peaceful, being in fact an evolution, a rapid evolution. If we wait for this change in our national economic life to come from the masses, we will have a real revolution. ³

GSIS: SOLUTION TO PENSION, RETIREMENT FUND PROBLEM

Since the inauguration of the present government, the administration has been deeply concerned with the precarious condition of the finances of the various pension systems now in operation. A thorough survey of these systems made in 1929 revealed the fact that they were insolvent in the following amounts:

1. The Teachers' Retirement and Disability Fund, in the sum of P45,000,000 as of December 31, 1929, such figure having reached the sum of P54,000,000 on December 31, 1935;

2. The Health Pension and Retirement Fund, in the sum of P7,500,000 as of December 31, 1929, and P12,000,000 on December 31, 1935; and

3. The Pension and Retirement Fund of the Philippine Constabulary in the sum of P10,500,000 on December 31, 1929, and P17,000,000 on December 31, 1935.

The above figures, showing the financial condition of the three pension funds in 1929, were given by the Bureau of Efficiency of the United States Government.

This measure (GSIS) seeks to establish a system to substitute the pension systems recommended to be abolished, but with general application to the entire government service. It establishes a compulsory and automatic insurance system. Each member of the system contributes three per centum of his monthly basic

salary or compensation, which is deducted monthly from his salary or compensation, and the national government, or other subdivisions and agencies who are members thereof, or have joined the system, contribute an amount equivalent to the total of the contributions of its employees. . . . To each of such contributor, a policy of insurance is issued, with a face value equal to what six per centum of his annual basic salary (or five per centum thereof, in the case of officers and enlisted men of the Philippine Army) as annual premium may purchase.

The measure vests the administration of the Act and the investment of the fund so established, in a board to be known as the Government Service Insurance Board.¹

QUEZON PROPOSES MORE EQUITABLE BASIS OF ARMY RETIREMENT

It is proper that the commissioned officers of the United States Army who join the Philippine Army should be given such longevity privileges as are authorized for the officers of the former Philippine Constabulary now in our Army in order to place them all on the same footing as regards pay and allowances.

I believe, however, that the section of this bill which would include service in the United States Army in determining rights of retirement from the Philippine Army would result not only in the payment of two full pensions, one from the United States and the other from the Philippines, in certain cases for the same length of service, but would also in effect require payment of pensions on service not rendered to the Philippine government. I, therefore, propose to recommend that this provision of the Act be either repealed or amended so as to provide a more equitable basis for the retirement of officers of the United States Army joining the Philippine Army.²

RESTORATION OF OLD PENSIONS AN ACT OF SIMPLE JUSTICE

The law restoring the old pensions paid to those who had already retired from the service and were receiving pensions when the former pension systems were abolished is an act of simple justice. It is not only a matter of fundamental policy for the government to make good every obligation it undertakes, but it is also in the long run the soundest and most beneficial policy for the nation itself that avows it and inflexibly adheres to it.³

GOOD OF STATE PARAMOUNT UNDER NEW POLITICAL PHILOSOPHY

The philosophy (of Thomas Jefferson - ABS) places the individual above every other consideration. His inalienable right to life, property and the pursuit of happiness is the main objective of government as interpreted by the framers of the American Constitution.

The Constitution of the Philippines entirely reverses this political philosophy. Under our Constitution what is paramount is not the individual; it is the good of the State, not the good of the individual, that must prevail. Thus under our Constitution, it is provided in Article II, Declaration of Principles, paragraph 2: "The defense of the State is a prime duty of government, and in the fulfillment of this duty all citizens may be required by law to render personal military or civil service." 1(b)

130. S T R I K E S

STRIKE, THOUGH USEFUL, CAUSES SUFFERING TO STRIKERS AND PUBLIC

Strikes have been, in the past and up to the present time, the weapon used by labor to secure recognition for its rights. At best, the strike by its very nature will inevitably bring harm to the strikers themselves. It deprives them of their wages during the time that the strike lasts, and even when the strike is successful they suffer during the strike hardships that might have been avoided. Particularly in the Philippines, strikes are always seriously prejudicial to the strikers because there are no labor organizations in our country with funds to provide the strikers with means for their daily subsistence while the strike lasts. However, it is true that at the time when governments were prone to take the side of capital or when they were reluctant to listen sympathetically to the claims or grievances of labor even if they were fully justified, to strike was the only

recourse of labor in order to secure justice. ¹

WILDCAT STRIKES CAN'T EXPECT SYMPATHY FROM GOVERNMENT

Every strike in the Philippines that is declared before the strikers present their complaint to the Department of Labor or to the Court of Industrial Relations is, for such failure to use the means created by law to secure justice, prima facie a defiance against the government or an expression of lack of confidence in the government. Therefore, I desire to make public that my attitude toward strikes of this nature is unsympathetic, and that if labor takes the law into its own hands as it is the case if strikes are declared without first notifying the Department of Labor or the Court of Industrial Relations, it cannot expect sympathy from the government and it has to face the consequences of the action. ²

WARNS AGAINST GENERAL, SYMPATHY STRIKES THAT MENACE PEACE, ORDER

If a strike is declared by any labor organization before the laborers have presented their grievances to the Department of Labor, the government will protect by force, if necessary, any individual or organization that may offer to do the work of the strikers. And if the strike concerns those public services that immediately affect the well-being of the people, should the situation demand it, the government itself will assume the responsibility of providing the men needed to take the place of the strikers. I will particularly take precautionary measures against general or sympathy strikes which may menace peace and order and the public welfare. ³

STRIKE IS LAWFUL BUT IT HURTS LABORERS, GENERAL PUBLIC

A strike is a weapon which laborers can employ within the bounds of law. It is not prohibited here; but a strike is a weapon that not only hurts whomsoever it is used upon, but also those who are actually using it. And you should especially consider that although one could plan a strike, yet from its effects the sufferers would be not only labor and capital but also the public at large; more so if a strike were to be staged against public utilities, such as transportation or electricity, or even an estate where rice tenants declare a strike. Such strikes make the townspeople suffer most; hence, as much as possible, I request you all not to resort to such method. ⁴

131. SUBVERSION

QUEZON DENOUNCES SELF-SEEKING UNSCRUPULOUS LABOR AGITATORS

Let us beware of men who deliberately, for political or selfish aims, stir up discontent among the masses. They preach subversive doctrines, speak of evils and abuses that do not exist, or magnify those which often are inevitable in democracies. These men are the worse enemies of society, more dangerous to the community than ordinary criminals. They have no sympathy for the people, but are more self-seekers, intent only in securing either pecuniary or political advantage for themselves. ¹

SUBVERSIVE DOCTRINE CAN'T THRIVE UNDER A JUST REGIME

The best foundation of peace is not that which is built on fear: it is that which is the result of justice and contentment. No subversive doctrine can thrive here if our working class is treated justly and every laborer is given his due. It is the best guarantee for the preservation of our government and our nation. ²

GRANTING OF AMNESTY MAY BE CONSTRUED AS GOVERNMENT WEAKNESS

The events of the last few days which disclose the existence of concerted action on the part of some individuals to cause a general destruction of property by setting fires thereto with the use of bombs or otherwise, make me feel that the lawless elements of the community should be made to realize that the government cannot countenance any such defiance of its authority. The granting of general amnesty at this time may be construed by these lawless elements as a tendency to treat leniently offenses of this nature, if not an indication of weakness, and for this reason, much to my regret, I am constrained to defer action on my announced intention to grant such general amnesty. ³

INFORMATION BOARD TO COUNTERACT SUBVERSIVE PROPAGANDA

Commonwealth Act No. 185, approved on November 13, 1936, created the National Information Board, composed of the Secretary of the Interior as chairman, and the Secretaries of Agriculture and Commerce and of Labor as members.

This essential activity of the government constitutes one of the effective means of preventing or counteracting subversive or communistic propaganda among the uninformed, misinformed or misguided elements. ⁴

QUEZON NOT AGAINST ANY DOCTRINE, BUT WOULD FIGHT LABOR AGITATORS

I am not against any philosophy that would preach any social or economic doctrine. But I am against, uncompromisingly against, any and all individuals that would pit one class of society against another, or would seek to promote and attain their selfish ends through acts of violence or would try to cajole the people into subservience through terrorism. Nothing can do more harm to the cause of labor than the blind schemes of self-seeking radicals. ⁵

PRESIDENT WARNS LABOR AGITATORS AND MISGUIDED FOLLOWERS

I am calling upon every law-abiding citizen to cooperate with the government in its efforts to maintain peace and order and to carry out the social justice program. I advise everybody to refrain from carrying on any movement through propaganda or otherwise that might result in arousing the people to commit acts of violence and lawlessness. I warn those labor leaders who are engaged in this kind of activities that their continuance in this pernicious agitation is done at their own risk. The consequences of their activities are such as to warrant the government in the exercise of its police power henceforth to deal with them drastically and with the severity which the circumstances demand and the law authorizes. As for the misguided people who follow these false leaders with the full knowledge of the consequences of their acts, I want to tell them that I am setting a deadline beyond which any man or group of men may go with the certainty that they will be met by the forces of the government. ⁶

132. SUGAR INDUSTRY

SUGAR INDUSTRY GETS ALL BENEFITS FROM TRADE WITH U.S.

No industry in the Philippines is being benefited by our trade relations with America nearly so much as the sugar industry. There have sprung in Negros, Iloilo and Pampanga, in the last few years, millionaires as we have never had before. They have palaces, automobiles, and live a life of comfort and luxury here and abroad.

I am not criticizing them; it is their privilege to spend their money as they please. I am merely stating a fact, for I want to point out that we are doing everything we can, not only to prevent the collapse but also to maintain in full blast the prosperity of the sugar industry.

But the government demands that this prosperity be shared with the workingmen in the sugar fields and in the sugar centrals. Very little, if any, of the

immense profits of the sugar industry has gone into the pockets of labor. ¹

QUEZON GIVES WARNING TO HEARTLESS SUGAR BARONS

I say, in all earnestness, to the owners of sugar centrals and to the proprietors of sugar lands that unless they raise the wages of their laborers and treat them better, the government and the country may lose interest in the defense of the sugar industry. ²

PLQ TAKES STEP TO PROTECT RIGHTS OF 15,000 SUGAR PLANTERS

I am informed that several thousands of sugar planters have not yet received the full amount of benefit payment to which they are entitled under the contracts which they have signed with the United States sugar authorities, in connection with the reduction of the sugar production in the Philippines. The amount involved, I understand, is around \$3,000,000 and the number of planters affected is around 15,000. . . It is believed that there exists a binding obligation on the part of the United States Government to reimburse all these planters with the losses which they have suffered by reason of the reduction of their crops in the amount which has been fixed by the government itself. I would, therefore, urgently request that proper representation be made to your government so that the rights of these planters may be properly protected. ³

DESCRIBES AS GREAT ECONOMIC WASTE SUGAR SEIZURE POLICY

I believe that the seizure and destruction of such excess (under the Sugar Limitation Act) is a great economic waste, considering that such sugar may profitably be devoted to other useful purposes not inconsistent with the policy contained in the law. I, therefore, recommend that the President of the Philippines be authorized to dispose of sugar in a manner not inconsistent with such a policy. ⁴

PHILIPPINE SUGAR ADMINISTRATION IS CREATED

EVERY CITIZEN HAS PRIMARY DUTY TO PAY TAX TO SUPPORT GOVERNMENT

Governments can be supported only through taxation. It is a primary duty of citizens to contribute to the support of the government, but taxation that does not take into consideration the relative financial ability of the taxpayer is unjust. I advocate that the burdens of the state be equitably distributed in proportion to the means and capabilities of the taxpayer. ¹

TAXATION BASED STRICTLY ON ABILITY TO PAY

I favor, moreover, a revision of our taxation system downward to secure social justice and to apply rigidly the canon of "ability to pay" to small farm owners and small wage earners. ²

COOPERATE WITH GOVERNMENT BY PAYING TAXES, SAYS QUEZON

I want to be frank with you, and I say that if I find that all you do is to ask for money, you will get nothing at all. I wish every one to cooperate in every way, and the one most important way for you to cooperate with your government is to pay your taxes. Take note of that - your government. ³

MAN WHO DOES NOT PAY HIS TAXES IS NO PATRIOT BUT LIAR

Any man who says that he is a patriot, that he loves his people and is ready to die for his country, but does not pay his taxes, is a liar and not a patriot. 4

QUEZON BUCKS SPENDING PEOPLE'S MONEY FOR PRIVATE INDIVIDUALS

Were the Philippine treasury in such a buoyant condition to be amply able to cope with all the requirements of public interest, we might perhaps indulge in acts of generosity; but the condition of the treasury is such that, in order to meet the pressing demands upon it for the welfare and security of our people, we are compelled to raise new taxes and increase some of the old ones. That the taxpayers may ungrudgingly pay these taxes, we must give them every assurance that the revenues of the government will only be spent to promote the national interests. 5

CHURCH EXEMPTION DOES NOT INCLUDE INHERITANCE TAX

The religious organizations are already exempted from the payment of taxes on their properties that are devoted exclusively to worship, but religious organizations may and do have properties that are not exclusively devoted to worship, and to exempt these donations from payment of inheritance taxes we may exempt religious organizations from paying tax on property which is not primarily devoted to worship. 6

EXEMPTION OF "TUBA" LANDOWNERS WILL PROMOTE TAX EVASION

I believe that exempting the owners of the land where tuba is gathered from the payment of this tax, as proposed in the bill, would open a way for evading payment of the tax because the dealers may claim that the tuba is gathered from their own lands. 7

TAXATION IS MEASURE OF CITIZEN'S RESPONSIBILITY

One of the purposes of taxation is to make the man who pays feel his responsibility for the government of his country.

I would not tax people who have no employment or people who are working as laborers, but who are not working everyday but only two days a week, or something like that; but I would impose a tax on those whose jobs are steady. ⁸

QUEZON STANDS FIRM ON TAXATION BASED ON ABILITY TO PAY

From now on, no tax shall be collected that will not be based on the ability of the tax-paying public to pay. Until now the poor are heavily taxed in our country. The rich may say that they are paying more taxes, because they are paying thousands of pesos in taxes sometimes, but I am prepared to agree with anybody who is paying this much that if he gave me the wealth from which he derives his income to pay his taxes to the government, I would pay taxes twice as much. What the rich pay for taxes are only taken from their surplus, but the poor get their money to pay their taxes from their means of subsistence and the subsistence of their families. I do not mean to say that the poor should not pay any taxes. The sacred duty of the citizens is to support their government. What I mean to say is that the taxes that they should pay must be based on their ability to pay. ⁹

ADEQUATE, HONEST, AND JUST TAXATION IMPERATIVE

It is not only necessary that taxes be adequate in amount, it is necessary that they be just. In order that they be just, we should be guided by elemental principles of honesty which cannot be questioned. That is a first obligation. If the government is honest in its demands on its citizens, it has the right to demand equal honesty from its citizens in return. That is a second obligation. And in order that we may be guided by honesty rather than by guesswork, I have sought for tax studies which should be considered with respect to our taxation system. ¹⁰

TAXATION TO PREVENT WEALTH ACCUMULATION IN HANDS OF FEW

I advise against raising the income tax in the Philippines to anything near what is being collected in the United States. We are in the formative period of our national economy and we should not discourage the investment of capital. But we must increase the income tax because it is inexcusably low. Moreover, this is the time to adopt the policy of avoiding the accumulation of wealth in a few hands and to force the return of excessive income to the public through the medium of government services supported by these taxes. It is in the case of corporation, inheritance and income taxes that the government must bear in mind the need of reverting ¹¹ to the nation large amounts of wealth that may be accumulated in a few hands.

UNFAIR SALES TAX PASSED ON BY MERCHANTS TO CONSUMERS

The sales tax is not paid by the merchant but by the public who buys the articles for its consumption. The merchants, in paying the sales tax of $1\frac{1}{2}\%$ for every sale that they make, no matter how many times, are only acting as a collector for the government, and the real person who pays the tax is the last purchaser, the consumer. The sales tax, moreover, is not only unjust to the poor, it also is injurious to the healthy growth of the business. ¹³

ANTIQUATED TAXATION SYSTEM GREATEST SOURCE OF INJUSTICE

The present system of taxation in the Philippines is a source of the greatest injustice from which our people suffer. ¹² It is a fact that the Commonwealth paid that our burdens of taxation here rest more heavily on a low margin of subsistence lightly upon the rich. Bearing in mind the income of the rich and the earnings of the laboring class, it is a fact that the richer the taxpayer, the more he contributes proportionally to the maintenance of the government. The picture of distribution of taxes in the Philippines is this: the poor wage earners as a class carry the heaviest burden, then comes the middle class, and lastly the upper class. This wealthy upper class constitutes a very small percentage of our population. ¹⁴

POOR MEN'S TAXES HAVE BUILT UP OUR NATION - QUEZON

The taxes from the poor have built our bridges and our provincial buildings. They have made possible the Commonwealth which we now enjoy. It is their contributions that have given us security. They have paid for our courts of justice. They have preserved our health. They are maintaining our military establishments. They have made the Philippines a safe and comfortable place in which to dwell. ¹⁵

QUEZON ENUMERATES VARIOUS USES OF TAXATION

Taxation is imposed in the interest of the nation; to keep peace and maintain order; to repel invasion; to improve the living conditions of the people, to educate them; to promote agriculture, industry and trade.

The power to tax may also be used to prevent the accumulation of vast wealth in a few hands. This is not to deny the right of property of the individual,

12/ Ibid.13/ Ibid.14/ Ibid.15/ Ibid.

but it is to affirm that this right may be limited by the State when social well-being demands it. ¹⁶

QUEZON SAYS TAXATION BURDEN RESTS HEAVILY ON POOR, LIGHTLY ON RICH

Our tax system, unlike our political system, is still a heritage of earlier centuries, out of harmony with those principles which should guide progressive nations today. The Filipino people have one of the most progressive constitutions in the world. That Constitution is built not only on the principle of political equality but also on the added principle of social justice.

It remains for us to parallel our achievement in the realm of political science by a similar achievement in the field of economic and social justice.

The present system of taxation in the Philippines is a source of great injustice from which our people suffer. It may properly be said that our burdens of taxation rest most heavily upon the masses, and very lightly upon the rich. ¹⁷

COMMONWEALTH SUPPORTED LARGELY BY TAXES FROM POOR - QUEZON

There is no escape from the fact that the Commonwealth is supported in large part by those who are already on a low margin of subsistence.

In forty years time we have taken from these classes a sum which approximates the accumulated wealth of the entire Philippines, agricultural as well as industrial. Within the past generation these consumption taxes have rebuilt the Commonwealth. It is the centavos of the millions that have created the conditions which have made our industries possible. Almost alone the masses have built the Commonwealth by their sacrifices. This has been going on for more than three hundred years.

It is not alone social justice, it is ordinary justice that demands correction of this age-long injustice. ¹⁸

PHILIPPINE BUSINESS COMES LARGELY FROM EARNING POWER OF MASSES

If the recommendations I made in this message are carried out by the National Assembly, we shall have gone far in our efforts to lay down the foundations of a nation wherein each citizen will contribute his part in the maintenance of the government in proportion to his ability or resources. As we reduce the burden that is being unduly placed upon the masses of our people, on the one hand, and give them the wage that they are entitled to earn, on the other, we shall ultimately raise the standard of living as we reduce its cost, and thereby increase the purchasing power of the wage earner.

We are liable to forget the fact that the business of a country does not come from great incomes that a few individuals residing in that country may make,

but from the earning power of the masses. ¹⁹

TAX SPENT NOT FOR BENEFIT OF ONE GROUP BUT FOR ALL PEOPLE

The tax is being spent for the welfare of the whole country, which is as it should be; a tax after all should not be collected only to be given back to the people who paid it, for if that were the case, then it would be better not to collect the tax at all. It really looks unfair that the people who pay the tax are the ones specifically deprived of the benefits that may be derived from the use of the money collected from that tax. ²⁰

QUEZON FOR RATIONALIZATION OF NEW THEORIES ON TAXATION

Our system of taxation should be in accord with the policy to which we are committed - a just distribution of the tax burden upon the principle of ability to pay.

The imposition of new taxes is always a serious matter, especially if it means a fundamental change in the policies underlying the public revenue system. The adoption of new theories of taxation already accepted in progressive countries as well as by competent students of public finance, is not the only question which should merit consideration. Equally important, and in our particular case, probably more so, is the rationalization of these theories in regard to the particular social and economic organization of our people, so that they may not in practice bring greater evils than those they are intended to remedy. ²¹

REVISION OF TAXATION SYSTEM TO RAISE REVENUES FOR COUNTRY'S NEEDS

The power to tax can be and should be used both to produce revenues for the government, and as an instrument to mold and direct the social and economic organization of the country. If, however, this latter function is to be accomplished successfully, with the least possible inconvenience or injury either to individual or the body politic, this great power should be employed only after a careful deliberation. Everyone should realize that the people of the Philippines are, absolutely as well as relatively, among the least taxed people in the world. On the other hand, we cannot stagnate; we must make progress. There are other essential activities which the government should undertake and which have not so far been done for lack of funds. We must, therefore, insure a larger income for the government, within limits, of course, of the economic capacity of the country to provide that income. This means that we must not only revise our system of taxation to conform with the principle of ability to pay, but also with a view to increasing our revenues. ²²

SHOW YOUR PATRIOTISM BY PAYING RESIDENCE TAX

I want to ask you to show your sense of patriotism by paying your residence tax. It is the tax which you must pay to prove that you are a citizen of a free country; and it is a tax that you pay justly and fairly; it is a tax that will solve our problem of providing instruction to the sons of the poor not only in the cities and towns but also in the barrios of the Philippines. ²³

PAY YOUR TAX IN RETURN FOR OPPORTUNITY TO LIVE AND WORK

The government has no right to demand a tax from a citizen whom the government cannot even give ^{him} the opportunity to work, but when the government can give to the man or woman a chance to work, then it is the duty of that man or woman to give a part, an infinitesimal part, of what he or she is earning for the maintenance of the government. ²⁴

QUEZON ON FUND RAISING METHODS OTHER THAN TAXATION

If the National Assembly is of the opinion that there must be some method of raising funds other than by way of taxation to attend to purely welfare service. I suggest that some other system be adopted with less objectionable features and with some assurance of bringing in funds from outside sources. ²⁵

134. TEACHING PROFESSION

QUEZON EXPLAINS DUAL MISSION OF FILIPINO TEACHERS

Teachers in our public school system have a dual mission in promoting the national welfare. As educators, they are concerned, of course, with the intellectual development of students, so that not only may each enjoy the cultural, social and economic advantages accruing to the enlightened individual, but also in order that each may be of greater usefulness to our country.

The teacher is furthermore responsible for the inculcation in student bodies of sound principles of governmental functions, for informing them of the privileges and obligations of citizenship, and for training young men and women in the performance of essential civic duties. This second phase of the teacher's mission is of particular importance at present because of current and impending changes in our scheme of government.

The principal effect of these changes is to confer upon our people a greater degree of independence than they have heretofore enjoyed in the determination of their own destinies, and to transfer to them a correspondingly greater degree of responsibility for the performance of duties devolving upon a sovereign power.

TEACHERS BEST INSTRUMENT TO PROMULGATE NATION'S IDEALS

The teachers of the Philippine Islands are the best material we have for the inculcation of the political philosophy of our nation in the mind of our youth, and I hope that everyone of you will preach that philosophy, not only in the school where it is your plain duty under the Constitution to instill the spirit of good citizenship in our children, but also in your respective communities. For you are the army upon which we have to depend if the ideas and ideals of our nation are to succeed. ²

PRESIDENT ACTS TO PROTECT STUDENTS FROM UNSCRUPULOUS PROFESSORS

Complaints have reached me to the effect that certain professors of the University of the Philippines practically compel their students to buy books or mimeographed notes that they themselves have written on the subjects they teach.

I consider such practice as fundamentally wrong, especially as some of these books and notes appear to be mere compilations and do not seem to have contributed anything new to the subjects which they deal. A professor can have no reason to expect his students to read what he publishes unless he can offer them something new and meritorious or which is not readily available in authoritative publications. I understand, too, that the prices exacted for such books or mimeographed notes are, if not exorbitant, entirely out of proportion to their worth to such an extent that mere profit, it is alleged, seems to be the animating purpose. ³

HONESTY, INTEGRITY MORE IMPORTANT THAN TEACHING EXPERTISE

A professor should always bear in mind that his example no less than his teaching should serve as a guide for his pupils to follow. Obviously, knowledge of subject matter is an essential requirement, but honesty and integrity are, in my estimation, of even greater value. The influence of a dishonest professor over the youth, at this impressionable age, is very damaging and its consequences cannot be foreseen. ⁴

QUEZON FOR RAISING STANDARD OF TEACHING IN ALL SCHOOLS

I cannot permit the continuance of the policy heretofore followed of employing nonprofessionally trained teachers. Instead of allowing the standard of

our public schools to go down, it should be our aim to raise it, and I shall demand strict responsibility from the Department of Public Instruction if in the futuro persons who are not fully competent to do the work are employed as teachers. I think it is unfair to the children themselves and practically a waste of public funds to open new schools without properly trained personnel to teach. ⁵

MLQ EMPHASIZES ROLE OF SCHOOLS IN NATION BUILDING

Wealth alone cannot give strength and endurance to a country. Riches alone will not bring happiness to any person. But what will insure happiness to us is the thought that we are doing right by our fellowmen and that they are not being remiss in their dealings with us. Hence, for our country to enjoy the blessings of a peaceful and happy existence, we must continue enjoining the schools to impress upon the minds of our young people the strict performance of their duties as citizens. ⁶

INTELLIGENT COOPERATION OF TEACHERS WITH GOVERNMENT SOUGHT

Teachers can be made a powerful factor in helping the government. I do not want them to consider themselves apart or independent of the everyday life of the community in which they live. I do not want them to consider that their work is just to teach. They should take interest in the activities of the children and their parents, in connection with a study of their mental and emotional reactions. Of course, I do not want them to be involved in politics. That is not the business of teachers. I want them to study and find out what is going on, what is to be done, what the government is trying to do and not simply say "yes" to what the government is doing. ⁷

FOUR-POINT PROPOSAL ON RICE TENANCY QUESTION

My four-point proposal on the rice tenancy question follows:

1. Provision for written contracts in the dialect between owner and tenant.
2. It should prohibit loans or advances at exorbitant rates, and provide for properly witnessed evidence, in the dialect of such loans.
3. It should require an annual accounting in writing to be rendered by the landlord to the tenant at the end of the agricultural year.
4. It should require a division of the produce immediately after the harvest.

GOVERNMENT TO PROTECT TENANTS FROM LANDLORD ABUSES

It is the duty of the government to protect the workingmen against abuses and exploitation to secure them fair wages and reasonable return for their labor.

UNFAIR TREATMENT OF TENANTS RESULTS IN SOCIAL UNREST

There is one measure which would have given me the greatest satisfaction to recommend for enactment at this time, and that is, legislation that would solve once and for all the problem of the relationship between tenants and landowners, especially in the large estates . . . It is well to bear in mind, however, that the mere acquisition of these estates by the government may not after all solve the social and labor questions that they have produced.

The problem involved in the relationship between tenants and landowners, whether within large or small estates, owned by individuals or by corporations, public or private, transcends in importance practically all other social problems of the Philippines. Lack of fairness in the treatment of the workingman in the field necessarily results in social unrest. I have no doubt that if we could secure for every tenant or field hand what in equity should come to him, as his share in the products of his toil, there would be more contentment amongst the poorer classes of our people. ³

QUEZON GIVES SPECIAL ATTENTION TO AGRARIAN PROBLEMS

The welfare of the masses of our people has been one of the greatest concerns of this government and to that end special attention is being given to all agrarian problems with a view to settling once and for all the relations which should obtain between landlord and tenant in all the rural communities. ⁴

PROBLEMS OF TENANCY, USURY, LANDLORD ABUSES CITED

The Rice Share Tenancy Law was enforced in the provinces of Bulacan, Pampanga, Nueva Ecija, Tarlac and Pangasinan in the early part of the year (1937) and has since afforded a remarkable relief in the tense situation then prevailing in the rice producing regions of Central Luzon.

But it should be noted that eliminating usurious and other abusive practices under the tenancy system cannot, in itself, be expected to settle completely the unrest obtaining among the tenants. ⁵

should be prosecuted. The government will lose its moral influence over the laborers if they can see that it protects those who commit abuses. ⁶

MLQ WARNS TENANTS THAT PROVOCATEURS WILL BE FIRST TO RUN AWAY

If you are not willing to obey the laws and the decisions of the courts and you are determined to defy the government, you better get a bolo and go to the mountains, for the government will not tolerate your violations of the laws or disobedience to the decisions of the courts nor your defiance to the government. Let me advise you, however, that before you follow the advice of anybody who encourages you to disobey the law or decisions of the courts or to defy the government, you should bear in mind that the majority of those who give you such advice, when the showdown comes, will run away and leave you alone. It is in your own interest and for your own well-being that you should have peace and order here; that you should live as good citizens should live. It is impossible for you to prosper and to have a happy life unless you fulfill your obligations to the community. ⁷

AFTER TENANCY ACT FARMERS SHOULD BE PROVIDED CREDIT FACILITIES

The strict enforcement of the present Tenancy Law alone will not automatically solve our agrarian problems. With the enforcement of the Tenancy Law, it will also be necessary to provide credit facilities not only to landowners but also to tenants. In addition, new methods of farming must be adopted to increase production and insure the maximum benefits that the land can yield.

Even if the government were to take every foot of arable land in the Philippines and distribute it without compensation to the present occupants, the tenants would find in the end that their situation had not been materially and permanently improved, and in some cases they would perhaps find that they were in a worse condition, unless they were at the same time granted better credit facilities and they themselves worked harder, more consistently and intelligently than they are doing at present. ⁸

FORCIBLE SEIZURE OF CROPS BY TENANT OR LANDLORD UNLAWFUL

With regard to the controversy on the farm, the practice of forcibly taking crops, either by the tenant or landowner, without the consent of the other party must be stopped. If necessary, I shall use force to prevent it in the future. The gathering of armed men will be considered as a threat to commit violence, and any such groups will be dispersed by force in case of resistance or refusal to

MLQ GIVES FULL FREEDOM TO HIS OWN TENANTS IN ARAYAT

Here you will be free to be a communist, socialist, or a Popular Front supporter. Although I am a Nacionalista, yet you need not belong to my party or vote for our candidates. The fact that you belong to another party will not be sufficient cause for me to send you away.

But remember, I shall do nothing for the man who does not work. Nobody has the right to live at the expense of others.

Let us be real partners. Let us bear in mind that what is good for you is also good for me, and what is good for me is good for you, too. With this understanding, we shall not only be partners but also friends. ¹⁰

CHIEF EXECUTIVE STRESSES SOCIAL RESPONSIBILITIES OF WEALTH

But social justice cannot be achieved by constitutional precepts or legislative enactments alone. We must radically revise our concept of private property by emphasizing the social responsibilities of wealth. We must indoctrinate every citizen with the ethical principle that he is his brother's keeper. We must arouse and foster the individual's responsibility to the community of which he is a part. These are no vain words. We may forget these duties only at the cost of our peace and tranquility and, in the end, even of our national liberty. ¹¹

TENANT FREE TO BECOME SAKDALISTA, SOCIALIST OR COMMUNIST

A tenant, however, should not be expelled from the land as long as he fulfills his farm job. Sometimes landowners oust their farmers or quarrel with them simply because the latter do not belong to their own political parties.

On party matters, a landowner should not interfere with his tenants, but instead, he should give them freedom to become Sakdalistas, socialists, or communists. Also, after finishing their day's work on the field, he should allow them to attend the meetings of the various associations with which they are affiliated. ¹²

RESORT TO FORCE WILL INVALIDATE TENANTS' RIGHT - MLQ

Of all measures that I believe we should best adopt in regard to the relations between landlords and tenants, the most important that you should impress in your minds and hearts is that you should not resort to the use of force in defending your rights, and should always recognize the rights of the landowners.

^{9/} Ibid., p. 59.

^{12/} Speech before landowners of Cabanatuan, Nueva Ecija, April 30, 1939. Ibid.

If you resort to force, even if you are in the right, your having done so would be sufficient to invalidate your own right. So you better not grab any portion of the produce of the land without telling your landlords about it. You should share the harvest proportionately with them. If anyone is wronged, he should present his petition to the municipal officials. If you will do that, rest assured that I shall never allow the landowners to grab even a grain of rice from that which rightly belongs to you. ¹³

QUEZON DESCRIBES TENANCY AS VIABLE PARTNERSHIP

The word "tenancy" means that the landowner and the tenant who works the land are partners. It is not proper for either of the two to think that one is the superior of the other. They are partners; that is to say, they are partners in a single job. The landowner contributes his land and his share of the expenses. The contributions of the farmer are his labor and his corresponding share in whatever expenses which should be mutually paid by them. What is gained by one is also the gain of both. Hence, if this fact is taken into consideration by both the landowner and the tenant, and if they treat each other fairly, in the manner that is most proper for any two good partners, we may hope that all tenancy troubles, not only here in Nueva Ecija, but also those in some other regions of the Philippines, will be terminated. ¹⁴

PRESIDENT DEFINES RIGHTS OF TENANT AND LANDOWNER

A landowner ought to realize that if no one worked his land he would not raise anything on it, as the main cause of its being made to produce crops is the diligence of the tenant. He ought to keep in mind, therefore, that the farmer has a right to profit by his labor, and it is not right for anyone to deprive him of even a single grain of his due share in the harvest.

Likewise, a farmer must consider the fact that he cannot plant anything if there is no land for him to cultivate. Precisely, the farmer should also keep in mind that the landowner ought to make some profit from the money he invested in his land, and should not aim to get more than that which corresponds to his labor. He must consider the fact that the landowner has a right to claim his legitimate share in the produce of the land. ¹⁵

TENANT, LANDOWNER SHOULD MUTUALLY HELP EACH OTHER

What the landowner and the farmer should concern themselves with, first of all, that which pertains to their mutual benefit. They ought to get along together very well and mutually help each other properly; if not, the land of the

13/ Ibid.

14/ Ibid.

15/ Ibid.

landowner and the labor of the farmer would not result in anything, and in the long run, both would be the losers. ¹⁶

TENANT IS PARTNER OF LANDOWNER IN AGRICULTURAL PRODUCTION

In the amendment to the Tenancy Law, the landowner cannot eject his tenant as long as the latter complies with their agreement on matters relating to farm tenancy. The purpose of the law is to show the landowner and the tenant that the so called "tenant" is not a slave, whom the landowner can dismiss outright without sufficient cause or reason. Do you know the meaning of the word "tenant" (*kasama*) "Tenant" means a partner in the possession, cultivation, care of, and profits from the land.

On the other hand, the farmer can leave the land he is tilling if he so desires, and the landowner cannot stop him. The reason behind this is that the landowner would not die of hunger even if no one worked on his land. ¹⁷

RICE TENANCY ACT IN FULL FORCE AND EFFECT IN ILOILO PROVINCE

For the purpose of regulating the relations between landlords and tenants and of preventing serious controversies in the province of Iloilo, I, Manuel L. QUEZON SEEKS NEW OUTLETS FOR PHILIPPINE EXPORTS

We must make every effort to seek new outlets for our exports so that we shall not depend entirely on the United States; but we must see to it also that in trading with other countries the balance is not always decidedly against us. ²

FREE TRADE ONCE A BLESSING, BUT NOW A MAJOR PROBLEM

Any change in the government of any country in the world is always accompanied by economic and social disruption, especially the change, which is about to take place in our country, from political and economic dependence to complete freedom. Our economic dependence upon the United States, thru the establishment of free trade, has been, indeed, a blessing but now, paradoxically, its beneficial effects constitute our greatest obstacle in forming the new nation. ³

138. TYDINGS - MCDUFFIE ACT

HAWES ADMITS THREE CHANGES IN T-M INDEPENDENCE LAW ARE FOR BETTER

Every broadminded man, therefore, should welcome the changes that have been approved by the United States Congress in response to the significant message of President Franklin D. Roosevelt.

There are three such changes, namely:

First, that military reservations by the United States in the Philippines will be given up upon the establishment of the Philippine Republic;

Second, that naval bases and fueling stations will be the subject of future negotiations between the United States and the future Philippine Republic; and

Third, the elimination of the prerequisite that the Commonwealth Constitution shall, at the expiration of the transition period, be first amended in several respects.

While the main features of the Hare-Hawes-Cutting Act have been re-enacted, I am glad to admit, as anyone would, that these changes are for the better. ¹

QUEZON'S ACHIEVEMENTS SUMMARIZED IN STATEMENT OF FACTS

First. The Osrox (Osmeña - Roxas) mission not only refused to cooperate with the Quezon delegation but they did everything they could to make the delegation fail. They insisted that the United States Congress should not enact any new legislation on the Philippines. They also worked so that the HHC law may be kept intact and they opposed all amendments to it. All they wanted done was extend

the time for its acceptance.

Second. The enactment of the Tydings-McDuffie Independence Act is the result of -

- (a) The rejection by the Philippine Legislature of the HHC law;
- (b) The request of the Legislature that a new legislation be enacted;
- (c) The protest of Senate President Quezon against the plan of Senator Tydings of merely extending the time for the acceptance of the HHG law, a plan that had the cordial approval of Resident Commissioner Camilo Osias and the Osrox faction,

Third. Commissioner Osias had as much to do with the enactment of the Tydings-McDuffie Independence Act as the man in the moon, for all he did was to discredit the Quezon delegation and ask for the extension of the HHG law, and was enjoying the Pacific ozone on board a steamer when the Tydings-McDuffie law was introduced.

Fourth. Before consulting with anybody, either in Washington or in the Philippines as to what step to take in connection with the Philippine question, Senator Tydings, after his initial conference with President Quezon, dealt first with Mr. Osrox and considered his prior agreement essential. ²

TYDINGS CITES THREE MAJOR CHANGES IN T-M INDEPENDENCE LAW

The new law, known as the Tydings-McDuffie Act, differs from the old in a few particulars, to wit -

1. The title makes it clear that the independence which the Islands will have at the expiration of the transition period will be complete.
2. All military reservations will be relinquished by the United States, the U.S. President not being empowered by the new law to redesignate and retain them.
3. Whatever naval bases and fueling stations the United States may retain after independence will be the subject of future negotiations between the United States and the Philippine Republic.

Senate President Quezon has shown commendable broad-mindedness in the negotiations concerning the new law. ³

instruction to the youth of the land and that if the State is to maintain a university, such university must serve a definite purpose which is to set the highest standard of university education. To maintain such a high standard, the President said that he feels it is necessary that the U.P. board of regents be given a more effective control in the running of the institution. He further declared that the university should stress quality rather than quantity. ¹

STATE NOT OBLIGATED TO PROVIDE HIGHER EDUCATION BUT

The State is not obligated to give higher education. Its principal duty is to give elementary instruction to the youth of the land. If the State must support and maintain a university, such university must have a definite aim which, to my mind, is to set the highest standard of university education. ²

U.P. MUST JUSTIFY ITS EXISTENCE BY TURNING OUT GOOD LEADERS

Unless the University of the Philippines can justify its existence by actually rendering a service to the country that private universities cannot render at present, I would favor the abolition of the university. To my mind this service can only be one, and that is to set a high standard for our private universities and colleges and to turn out well-trained material that will be outstanding leaders in each field of activity where technical knowledge is required.

I have many times stated my position on this matter, namely, I am not interested in seeing thousands upon thousands of graduates from the University of the Philippines whose knowledge, acquired in this institution, cannot even serve as a basis for the hope that, through their own efforts, they may become in time proficient in their chosen professions. I would rather see only a few graduates every year from the University of the Philippines but who have left the university with character and knowledge that will fit them, by dint of their own efforts, to become leaders of their respective callings. ³

STATE UNIVERSITY IS INTENDED TO BE HIGHEST SEAT OF LEARNING

The University of the Philippines is intended to be our highest seat of learning. It is called upon to set the highest standards in the most important professions. It is to be the model of the Filipino mind and the great laboratory for the study of the grave social problems which are the preoccupation of our age. It is to produce men of character and wisdom trained in the arts and the sciences, who are to assume leadership in those political and social activities

which are vital to the state.

Unless the University of the Philippines is able to accomplish these aims, it may as well be abolished. The expenditures of the people's money for its maintenance cannot be justified if the academic standards are not to rise higher than those of private universities supported exclusively from tuition fees. ⁴

U.P. EXPECTED TO SET PACE IN TECHNOLOGICAL EDUCATION

At this particular time, the country looks up to the University of the Philippines for the technological leadership which it needs in our efforts toward economic development upon the most efficient and scientific bases. Of the essentials in economic progress, we have in abundance natural resources, raw materials, labor, and capital. What the country lacks now and lacks badly are scientific men who are not only informed of the technological advancement achieved in other countries, but are also able to apply this technology to the promotion and development of our own industries, and are capable of contributing to the improvement of scientific knowledge in the world. This is particularly needed in agriculture, chemistry, economics, medicine and engineering. So far has science conquered nature that today economic supremacy is largely dependent upon technological proficiency. The scale of wages and living standards in different nations are in a large part likewise dependent upon it. We cannot hope to build up a strong and stable economic structure in the Philippines without the assistance of such technical men. ⁵

UNWISE TO SET UNIFORM STANDARD OF SALARIES IN U.P.

I believe that it is most unwise to maintain a uniform standard of salaries for the members of the faculty of the University of the Philippines. Universities of recognized standing in the United States and other countries do not adhere to definite salary schedules. In each case, the governing body determines the policy to be pursued and the salary to be given a professor. The same rule is necessary for the University of the Philippines, if we want to build up a strong faculty that will make of the university not only an institution of the highest academic prestige, but also one which will render the utmost service to the nation. ⁶

QUEZON IN FAVOR OF WOMAN SUFFRAGE SINCE 1914!

I therefore do not in the least object to the extension of women suffrage

in the Philippines, and if the power of legislation solely resided in me I would not hesitate to give them the right of suffrage, but provided first that they shall have expressed their desire to vote and not until then. The woman suffrage question is not yet an issue in Philippine politics and, therefore, I cannot say what is the current opinion of our women on this question. ¹

SENATE PRESIDENT CITES LOGIC OF GRANTING WOMAN SUFFRAGE

The Filipino public is not only composed of men but also of women, and if the allegation that women are more important than men, to which theory I gladly subscribe, why not give the woman the privilege of the ballot the same as the men?

There is no reason why man should arbitrarily express the political views of the family when his other half disagrees with him. Whether she agrees or not with her husband on political questions, the woman should be given the liberty and freedom to express her own views through the ballot.

It is not fair that women, who do not marry and whose fathers are dead, are thus left unrepresented at the polls and without a voice in the government, especially if they have property. ²

PRESIDENT SIGNS WOMAN SUFFRAGE BILL PASSED BY NATIONAL ASSEMBLY

The bill which I have just signed gives the women of our country the opportunity to determine for themselves whether they will exercise the right to vote.

I personally have always been in favor of woman suffrage, that is to say, I have always believed that women have the right to vote, for I could see no reason why a right recognized in men should not be recognized in women.

* * *

It is imperative that the right to vote be granted to Filipino women if we do not want to treat them as slaves.

However, I do not believe the exercise on the part of the women of the right to vote is going to be of vital significance in the ordinary course of politics in the Philippines. ³

WOMEN MUST VOTE TO IMPROVE OUR SOCIAL CONDITIONS

Some women fear that their participation in politics may mean a deviation from that course of conduct which is demanded by the high concept that we have of womanhood.

(Note: Filipino women finally obtained the right of suffrage after the plebiscite held on April 30, 1937. - ABS.)

2/ Speech at a woman suffrage meeting at Malacanán under the auspices of Mrs. Francis Burton Harrison, November 7, 1919. Ibid., p. 528.

3/ Speech on the signing of the woman suffrage bill at Malacanán, September 30, 1936. QP, MR#38, TNL.

It is a question not only of convincing all the women to vote, but also of pointing out that it is their duty to do so in order that they may contribute to the improvement of politics as well as of social conditions in our country. Women have a keener sense of justice than men. ⁴

QUEZON LEADS PLEBISCITE FOR WOMAN SUFFRAGE

I desire to make an earnest appeal in favor of woman suffrage, which will be decided by the qualified women of the country in a plebiscite to be held on April 30, 1937.

Almost every democratic country in the world today has woman suffrage; the Philippines cannot afford to be an exception.

The common people, the farm laborers, the factory workers, and the small employees will be the first ones to be benefited by the extension of the vote to women, because the majority of these new electors, as in the case of the majority of male electors, belong to the class above mentioned, and, therefore, their influence in the government will be greater and doubtless will be exerted in favor of measures and legislation that will promote their well-being. ⁵

PRESIDENT SETS PLEBISCITE ON WOMAN SUFFRAGE

"Whereas, section one, Article V, of the Constitution of the Philippines partly provides that the right of suffrage shall be extended to women if, in a plebiscite which shall be held for that purpose within two years after the adoption of the Constitution, not less than 300,000 women possessing the necessary qualifications shall vote affirmatively on the question; and

"Whereas, in compliance with the above mandate of the Constitution, Commonwealth Act No. 134 was enacted, setting Friday, April 30, 1937, as the date for the holding of a plebiscite for the ratification or rejection by the women of the Philippines of the proposed woman suffrage;

"Now, therefore, I, Manuel L. Quezon, President of the Philippines, pursuant to the provisions of section 30 of the Revised Administrative Code, and upon the recommendation of the Secretary of the Interior, do hereby declare Friday, April 30, 1937, a special public holiday throughout the Philippines to give the women of the Philippines all the opportunity and facilities to enable them to express their will upon the question of woman suffrage."⁶
